INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

State of Idaho
License and Certificate of Water Right

Water License No. 20795

Amount 1.8 second foot

Water District No. _____

Priority December 10, 1948

THIS IS TO CERTIFY that **PARLEY WILLEY**
of Route 1, Sterling, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 10, 1948; that Permit No. 20795
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.4 second feet, was issued thereunder on October 18, 1949, showing that said works
were completed on the 15th day of October, 1949; and that on the 30th
day of November, 1949.

PARLEY WILLEY
of Sterling, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of subterranean
flow from a subterranean well, for the purpose of irrigation
, under Use Permit No. 20795 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

8 of Licenses at page 4647, on the 15th day of December, 1950;

The right hereby confirmed dates from December 10, 1948;

The Point of Diversion is located

in the NW 1/4 NW 1/4, Sec. 2, Twp. 5 S., R. 31 E., B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.8 cubic feet per second.

Description and location of use:

To Appropriate the Public Waters of the State of Idaho

25-2119

APPLICATION No. 28438
 PERMIT No. 20795
 DISTRICT No.

1. Name of Applicant: **PARLEY WILLEY**

Postoffice address: **Sterling**

County: **Bingham**

State: **Idaho**

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

- (a) Cash on hand:
- (c) Bonds to be issued:

2. Quantity of water claimed: **2.4**

cubic feet per second.

3. Source of water supply: **Subterranean**

which is a tributary of

4. Location of point of diversion **30 ft. East and 15**
of the NW $\frac{1}{4}$ NW $\frac{1}{4}$

North
feet distant from the Southwest

corner of Section 2, T. 5 S., R. 31 E., B.M., and is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$

of Section 2, T. 5 S., R. 31 E., B.M., County of Bingham

5. Water is to be used for **Irrigation**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B.M., in the
 of Section, T., R., B.M.

7. Estimated cost of works: \$ **4,000.00**

8. Kind of works: **Drilled well, with deep well turbine pump**

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width **10"** diam. discharge/ feet; height feet.

11. Ditch: Width at bottom **2** feet; width at water line **3** feet; depth of water **1 $\frac{1}{2}$** feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is **One (1)** years.

13. The time required for the complete application of the water to the proposed use is **None** additional years.

14. The land to be irrigated is described in the following tabulation: **See remarks.**

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **120 shares of Aberdeen-Springfield Canal Co. stock, with proportionate share of Jackson Lake storage owned by that company.**

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Gentlemen:

L.D. Crawford 4647
This to advise your office that Gerald S. Shipley, Sterling, Idaho, Idaho Water Permit No. G 20795 has been mortgaged to the United States of America, the 24th day of October, 1961, covering the following described real estate situation in Bingham County Idaho.

The Northwest Quarter of the Northwest Quarter (NW $\frac{1}{4}$ NW $\frac{1}{4}$) and the East Half of the Northwest Quarter (E $\frac{1}{2}$ NW $\frac{1}{4}$) of Section two (2), Township Five (5) South, Range Thirty-One (31) East of the Boise Meridian.

Kindly withhold approval of any request of the permittee for assignment or transfer of, or other change in permit adverse to the interest of the mortgages, without prior written consent of mortgagee.

Kindly acknowledge this letter by signing and dating the copy of this letter and returning same to this office.

Yours very truly,

L.D. Crawford

Re: Permit No. 20795

Mr. Parley Willey
R.F.D. 1
Sterling, Idaho

Dear Mr. Willey:

We now have on file the report of our field Engineer on examination for beneficial use under Permit No. 20795.

This report shows that you have irrigated 110 acres of land in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 5 South, Range 31 East, B.M.

Therefore, upon receipt of the statutory fee of \$8.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a License will be issued for 90 inches or 1.8 cubic feet per second of water from a well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section.

Very truly yours,

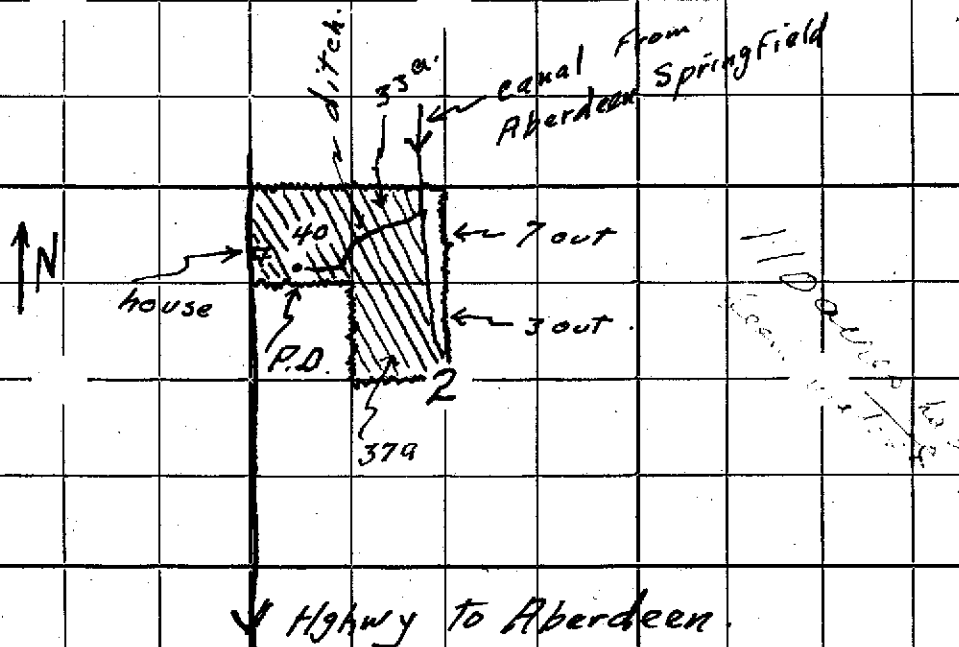

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20795

This proof is for Beneficial use In Water District No. _____

1. Name of applicant Parley Willey, R.F.D. 1, Sterling, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 2
T. 5 S. R. 31 E. County of Bingham
4. Describe works as they exist, giving dimensions and capacities of same: Well is 80' deep. Is 18" in diameter for 42' then 15" in diameter for 38'. Drawdown is unknown but believe it is very little. The pump sets down 36'. The size of the pump and number of stages is unknown. There is no well house. A cone shaped concrete base approximately 6' in diameter by 18" high is built under the pump. The discharge is to the East through an 8" i.d. pipe by 5' long. The motor is a G. E., 25 h.p., 220 v., 62.6 amps., 3 ph., 60 cy., 1760 rpm., #PE18790209.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Twp. 5 South, Range 31 East, B. M.
80a. 49a.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: The pump is a Fairbanks Morse oil lub. turbine - PI10074. The meter is a G.E. #28177881. The inside of the meter case had too much sweat to make additional readings on the meter. The ditch leading from the pump to the fill is built in a high, narrow levee and has practically no slope, making it very difficult to measure the water over a weir. Mr. Willey said that it was pumping 90" and that the pump was not adjusted to full capacity. He stated that an engineer from Idaho Falls had measured the flow at 155". Mr. Willey is using the water on 110 acres of ground and is satisfied with the reading of 90" for license. I am certain there was at least 100" of water being pumped. Temperature - 50°F. This pump was installed because he was getting insufficient water from the Aberdeen Springfield Canal to properly irrigate with. He stated that he was unable to make any arrangements
This examination was made on the 12th day of August, 1950

(Signed) C. N. Humphrey Examiner.

with the neighbors whereby one would take all the water for a certain number of days then the other take the water, so Mr. Willey put in a well to get around his difficulties.

Re: Permit No. 20795

Mr. Parley Willey
R.F.D. 1
Sterling, Idaho

Dear Mr. Willey:

We acknowledge receipt of the depositions of yourself and two witnesses; also Affidavit of Publication in the Aberdeen Times, all submitted in Proof of Beneficial Use under your Permit No. 20795.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Affidavit of Publication

STATE OF IDAHO,

SS

COUNTY OF BINGHAM

ROBERT M. HAMMES, being first duly sworn, on his oath states:

That he is the CO-PUBLISHER of the ABERDEEN TIMES, a newspaper of general circulation in Bingham County, Idaho, published weekly at Aberdeen, in said county. That said newspaper has been published in said County uninterruptedly and continuously for over seventy-eight consecutive weeks, prior to the first publication of the annexed Proof of Application; and that said proof was published as per clipping attached, in the regular and entire edition of said newspaper and not in any supplement thereof, in 4 consecutive issues, the date of the first publication being the 27th day of October, 1949, and the last publication being the 17th day of November, 1949.

Subscribed and sworn to me this 30 day of Nov, 1949 Robert Hammes Publisher

My commission expires March 1 - 1951 Notary Public Residing in Aberdeen, Idaho

NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 a.m. on the 30th day of November, 1949, at Aberdeen, County of Bingham, State of Idaho, before H. B. Wiebe, Notary Public, proof will be submitted of the application to beneficial use of 2.4 cubic feet per second of the waters of subterranean supply in accordance with the terms and conditions of Permit No. 20795 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Parley Willey, Sterling, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 2.4 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) N $\frac{1}{2}$ NW $\frac{1}{4}$ and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 2, Township 5 South, Range 31 E. B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch and deep well turbine pump attached to drilled well.

The right to take water from such works is based upon Permit No. 20795.

The source of supply from which such water is diverted is subterranean supply from a well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 5 South, Range 31 E. B.M.

The date of priority which said user is prepared to establish is December 10, 1948.

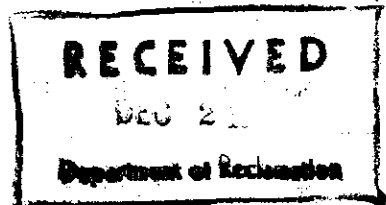

Mark R. Kulp

State Reclamation Engineer.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Elden H. Willey age 42 - Bingham County
Farmer - Sterling Idaho R.F.D. 1

Ques. 2. Are you acquainted with Parley Willey Bingham Co. the holder of Permit No. 20795? How long have you known him and where does he reside?

Ans. all my life, He lives on the farm
in Bingham Co.

Ques. 3. Have you read or heard read said Permit No. yes, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean Supply - 630 ft. East and 15 ft.
north from the South East Corner of N. 24 1/4 Sec. 2
Tp. 5 S. R. 31 E. 13 W.
Drilled well with deep well Turbine pump.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. at least 2.4 Cu. ft. per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, Subdivisions of Sec. 2 Tp. 5 S
R. 31 E. 13 W. as follows, N. 24 1/4 of N. 24 1/4 31 acres
N. E. 1/4 of N. 24 1/4 39 acres. S. E. 1/4 of N. 24 1/4 - 40 acres
Entire acreage can be irrigated.
Cultivated land, ditches made and 1949 crop
irrigated.

20795

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land that was too high and dry for
canal water. 2.4 Cu. ft. per second

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Since June 1, 1949

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, November 21, 1949

Re: Permit No. 20795
Parley Willey

Mr. H. B. Wiebe
Notary Public
Aberdeen, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20795

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On November 30, 1949, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Aberdeen, Idaho before H. B. Wiebe, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK R. KULP
~~Commissioner of Reclamation~~
State Reclamation Engineer

November 2, 1949

Aberdeen Times
Aberdeen, Idaho

ATT: Mr. Robert M. Hammes.

Dear Mr. Hammes:

Thank you for your letter of October 31, in
reply to ours regarding legal publication.

We appreciate your placing us on your mailing
list, but since we have never received any copies of
your paper, they have evidently gone astray. The Post-
Office Department continually confuses mail intended for
the State Department of Reclamation with mail for the
U. S. Bureau of Reclamation. If you will add "Room 107,
State House" to our mailing address, there should be no
question in regard to our receiving subsequent issues of
your paper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Publications

Dear Miss Anderson:

It looks as if I've loused up on one particular of publishing notices in the Times---that of acknowledging receipt of the notices for publication. I assure you that it'll not happen in the future.

But about your not receiving copies of the notices---I can't figure that one out---or perhaps I'm using the wrong method.

Last spring I put your office on our mailing list so that you would receive every issue of the Times. I used this method because I thought that it was a sure way of your getting every first publication of a notice. The address I used was: "Dept. of Reclamation"State of Idaho". If you haven't been receiving the paper, the address must be wrong. (I checked our mailing galley just before I wrote this letter---you're still there)

So, if you'll give me a correct address, I'll continue sending you a copy of each paper---unless you'd rather have the matter handled some other way.

Severiano Ancho's notice has been published; so has Parley Willey's.

If there's anything I can do to get this publications business running more smoothly---just let me know.

Sincerely,

Robert M. Hammes
Robert M. Hammes

October 29, 1949

Aberdeen Times
Aberdeen, Idaho

Gentlemen:

On September 27, 1949, we sent you a notice for publication, in connection with proof to be made on November 7, 1949, on Permit No. 21200, in the name of Severiano Ancho.

Also on September 18, 1949, we sent you a notice to be published for proof to be made on November 30, 1949, in the name of Parley Willey.

In sending both of these notices, we particularly requested that you acknowledge receipt of same, and also supply us with a copy, or clipping, from the first issue of your paper containing same.

To date we have not received either acknowledgment, or copy of the notices, and we shall appreciate hearing from you in regard to the matter.

We feel that this is particularly important, as there were errors made in the last two notices sent you- one in regard to the number of publications, and the other an omission of a portion of the land description, which could have been corrected if copies of the printed notices had been sent us, as requested.

Thanking you for your co-operation, we are,

Very truly yours,

MARK R. KULP

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 30th day of November, 1949,
at Aberdeen, County of Bingham, State of Idaho, before
H. B. Wicks, Notary Public, proof will be submitted of the
application to beneficial use of 2.4 cubic feet per second of the waters of subterranean
supply in accordance with the terms and conditions of Permit No. 20795
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Parley Willey, Sterling, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 2.4 cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated)..... N $\frac{1}{2}$ and the SE $\frac{1}{4}$ of Section 2, Township 5 South, Range
31 E., B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is private ditch and deep well turbine pump attached to drilled well

The right to take water from such works is based upon Permit No. 20795

The source of supply from which such water is diverted is subterranean supply from a well
in the NE $\frac{1}{4}$, NW $\frac{1}{4}$ Section 2, Twp. 5 S., Range 31 E., B.M.

The date of priority which said user is prepared to establish is December 10, 1948

MARK R. KUTP

State Reclamation Engineer.

Re: Permit No. 20795

Mr. Parley Willey
Sterling, Idaho

Dear Mr. Willey:

We enclose Certificate of Completion of Works issued under Permit No. 20795 for the diversion of 2.4 second feet of water from a drilled well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 5 South, Range 31 East, B.M. for the irrigation of land in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section.

We also enclose Departmental Receipt No. 21862 for the \$5.00 fee paid in connection with this proof.

We shall send to the Aberdeen Times, Notice of Beneficial Use Proof to be made under this Permit on November 30, 1949, with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the Affidavit of Publication, together with statement of costs.

We shall send Mr. H. B. Wiebe, Notary Public, the necessary forms of deposition, consisting of one for yourself and one for each of two witnesses, and at the time set, you should appear before Mr. Wiebe together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing the depositions.

Proof of Completion of Works

AFFIDAVIT OF HOLDER

RECEIVED

OCT 11

Department of Reclamation

STATE OF IDAHO

County of Bingham

SS.

Parley Willey, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 20795, and that his postoffice address is Sterling

State of Idaho

Second: That the name of the stream which said water is to be ^{FROM} ~~diverted~~ ^{DIVERTED} is subterranean supply and 15 feet north

Third: That the point of diversion of said water is 44 rods east of the southwest corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 2, Township 5 South, Range 31 E.B.M.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by December 18, 1949 now completed and in use.

Fifth: That the use for which said water is intended is irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (~~XXXXXX~~) fully completed and consisted of the following:

I. Kind of works: drilled, cased well with 15" casing, well 80 feet deep
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width 8 inch diameter discharge pipe on pump feet, height feet.

(d) Conduit ditch width at bottom 2 feet, width at water line 3 feet
(State whether ditch, flume or pipe)

feet, depth of water 1 feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is miles.

Seventh: That said works are capable of conducting to the place of intended use 2.4 second feet of water.

Eighth: That water appropriated under said permit is available for 120 acres of land described as follows: N $\frac{1}{2}$ NE $\frac{1}{4}$ and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 2, Township 5 South, Range 31 E.B.M.

Ninth: Remarks: That the water applied for under this permit is supplemental to the existing right and is to be used when existing right is cut due to priorities or when existing right does not meet crop requirements.

Dear Sir:

Under the terms of your permit No. 20795 you are required to complete your diversion works and make proof of beneficial use on or before December 18, 1949.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is December 18, 1949, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Sterling, Idaho

Dear Mr. Willey:

In reply to your letter of November 29, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in your application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

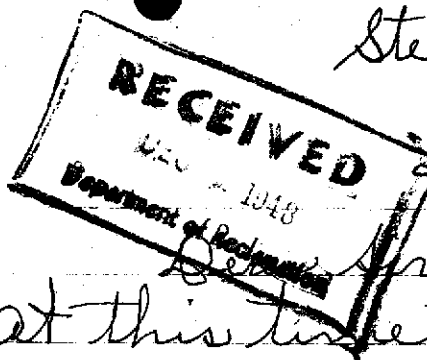

Very truly yours,

Nov. 29 - 1948

* At this time I am writing
you for a permit blank to file
on a subterrain stream of water
for irigation on my farm
120 acres. In view of the fact
my water right is any thing
but saterfactory and I am loosing
very much in crops. and do to
the fact water backs up for $\frac{1}{2}$ mile
to irigate much of my land. My
self and neighbor draw from private
ditch from lateral controlled by
Aberdeen and Springfield Canal Co.
we have no one to regulate our
water and do to the fact my farm
is higher than his, he can draw
ditch dry with out my weir being
closed. and he has refused to rotate
with me so as to be good neighbors

20795

(16" hole for well)
2

I have 3 forties and he has two which equals 5. So he would take it 2 days and \$3 but he won't do it. ~~So~~ But still he draws my water down from 29 to 35 inches I have measured it many times and it has been measured by others to prove I had been right. He was to receive 55 in and \$85" so you can see I am in trouble I could sue get judgment but that don't save my crops. My well is dug 80 feet deep ~~deep~~ two streams of water one at 55 feet and in loose lava and last one at 80' in loose mud; then rock, 30 feet to water tabel.

If you will send me blank or blanks to fill out would thank you very much. Well is now ready for motor and pump which is ordered. I thank you in advance

NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 a.m. on the 10th day of November, 1949, at Aberdeen, County of Bingham, State of Idaho, before H. B. Wiebe, Notary Public, proof will be submitted of the application to beneficial use of 2.4 cubic feet per second of the waters of subterranean supply in accordance with the terms and conditions of Permit No. 20795 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Parley Willey, Sterling, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 2.4 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) N $\frac{1}{2}$ NW $\frac{1}{4}$ and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 2, Township 5 South, Range 31 E. B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch and deep well turbine pump attached to drilled well.

The right to take water from such works is based upon Permit No. 20795.

The source of supply from which such water is diverted is subterranean supply from a well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 5 South, Range 31 E. B.M.

The date of priority which said user is prepared to establish is December 10, 1948.

Mark R. Kulp
State Reclamation Engineer
