Dear Mr. Vanderford:

We return herewith Licenses and Certificates of Water Right Numbers 20776 and 21178, together with letter addressed you by the Deputy Recorder of Bingham County, and your request that these instruments be notarized.

Since these Licenses are of record in the State Department of Reclamation, it is not customary or necessary to have them recorded in the County.

However, if you wish them so recorded, the fact that they bear the official seal of the State Department of Reclamation doubtless makes it unnecessary to have the signature of the State Reclamation Engineer notarized.

Dear Mr. Venderford:

We acknowledge receipt of the deposition of yourself and two witnesses; also affidavit of publication in the Aberdeen Times, all in proof of beneficial use under permit number 20776.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We can not say just when this examination will be made, as this department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, field engineer for this department will try and contact you at the time he makes the examination, so that you may show him over the grounds.

Dear Mr. Vanderford:

We enclose Permit No. 20776, together with Departmental Receipt No. 21054 for the \$5.50 filing fee.

Since the application states that the works are completed, we have allowed three months or until March 8, 1949, to make the two statutory proofs necessary to complete the water right. These proofs, however, may be made at any time prior to that date.

The first proof or proof of completion of works is made by executing Form 6, enclosed, before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which a certificate of completion of works will be issued.

The final or beneficial use proof requires publication once a week in a county newspaper for four consecutive weeks prior to the date set for making proof. Notice should be made in duplicate on Form 10, enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set you should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

As per your request we are mailing you, under separate cover, three additional forms of application for permit.
