REMARKS: I would like a permit to drill a 10 inch well on this 100 acres. It's a good piece of ground that has been farmed at one time. It was formerly owned by a bank in the East and they failed to keep up the water assessments and the water was taken from the land. It hasn't been farmed for about 15 years. I purchased the land from the County in 1930 and have a deed to it. I wish to drill the well as soon as the permit is granted.

INTERDEPARTMENT MEMO

DATE: 15 February 1993

FROM: Ernest Carlsen

RE: Application for transfer
35-02115 and 35-02875
Morgan or Thelda Van Orden

PURPOSE: Application proposed to add a new POD in the NWSW S03 T04S R33E and to abandon the well in the NESW S03 T04S R33E.

FINDINGS:

- > In September 1992, Dave Carlson conducted an SRBA field inspection regarding notices A35-02115 and A35-02875. The inspection revealed the rights were commingled and delivered to 274 acres through the same sprinkler irrigation system. A measurement of the combined rates of diversion was not made.
- > There is no increase in the irrigated acres.

CONCLUSIONS:

- > Right 35-02115 is being applied to a permissible place of use of 274 acres though licensed for the irrigation of 85 acres.
- > Other than the potential for increasing the combined rate of diversion under these rights, neither expansion of these rights nor injury to other rights is anticipated.

RECOMMENDATION/CONDITIONS:

The transfer should be granted with the following conditions:

- Approval of this transfer does not preclude the opportunity for review of the validity of the water rights in the ongoing Snake River Basin Adjudication.
- ★ Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
- ★ The wells previously used under these rights shall be abandoned in a manner which complies with Department well abandonment rules.
- ★ The use of these rights in combination is limited to a total combined diversion rate of 3.66 cfs, a total combined annual diversion volume of 822 acre feet.
- ★ Right 35-02115 is limited to the irrigation of 85 acres within the place of use described above in a single irrigation season.
- ~~— The change authorized by this transfer shall be accomplished within one (1) year of the of this approval.~~
- Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

RE: Application for Transfer of a Water Right No. 35-02115 &
35-02875

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your permit for a water right transfer. This office is currently in the process of advertising the application in the Morning News on November 12 & 19, 1992. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a transfer is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones

Re: Permit No. 20753

Mr. R. F. Cammack
Pingree, Idaho

Dear Mr. Cammack:

The report of our Field Engineer shows that your well in the $SE\frac{1}{4} SE\frac{1}{4}$ Section 3, Township 4 South, Range 33 East, B.M. will deliver 85 inches of water which has been used to irrigate 85 acres in the $NW\frac{1}{4} SE\frac{1}{4}$ and $S\frac{1}{2} SE\frac{1}{4}$ of said Section.

Therefore, upon receipt of the statutory fee of \$6.00, a License will be issued for 1.7 second feet or 85 inches of water from said well.

Dear Mr. Furchner:

We acknowledge receipt of your letter of November 13, 1950, enclosing Affidavits of Publication for Proof of Beneficial Use under Permit No. 20753 of R. F. Cammack and Permit No. 21564 of Thomas L. Jones.

This completes the Proof of Beneficial Use under both of these Permits, but before final action is taken, the law requires a field examination by an Engineer from this Department.

We cannot say just when this examination will be made but it will probably not be before next spring, and our Engineer will try and contact the Permit Holders at the time he makes the examination, in order that they may show him over the projects.

NOTICE TO PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 4th day of November, 1950, at Blackfoot, County of Bingham, State of Idaho, before H. William Furchner, Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of the waters of subterranean sources in accordance with the terms and conditions of Permit No. 20753 heretofore issued by the Department of Reclamation of the State of Idaho. The name and postoffice address of the person or corporation holding said permit are R. F. Cammack, Pingree, Idaho.

The use to which said water has been applied is domestic and irrigation.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used: The South half of the Southeast quarter and the Northwest quarter of the Southeast quarter of Section Three, Township Four South, Range Thirty-three, East of the Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is none.

The right to take water from such works is based upon Permit No. 20753.

The source of supply from which such water is diverted is a well, in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3, Twp. 4 S., Range 33 E. B. M.

The date of priority which said user is prepared to establish is November 12th, 1943.

Dear Mr. Furchner:

We acknowledge receipt of your letter of November 8, 1950, enclosing the depositions of R. F. Cammack and two witnesses in Proof of Beneficial Use under Permit No. 20753.

However, the Affidavit of Publication is necessary to complete this proof. The Blackfoot Daily Bulletin was instructed to send this to Mr. Cammack, and if he has not received it, we suggest that he take the matter up with them promptly.

As requested, we enclose two sets of forms for making Proof of Beneficial Use. However, wish to advise that these forms are usually sent either to the Notary Public or the Permit Holder about ten days in advance of making Beneficial Use Proof.

The reason you did not have the forms on Permit No. 21564 is because we were waiting to complete the Proof of Completion of Works, in accordance with office letter addressed you on September 28, 1950.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R. F. Cammack, Pingree, Bingham County, Idaho. I am a farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ---

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20753, with date of priority, November 12, 1948.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, subterranean water. Well located in SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3, Twp. 4 So., R. 33, E.B.M., approximately 300 feet distant from the NE corner of SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 3.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. 16-inch well, 50 feet deep, cased about 9 feet to lava rock, equipped with turbine pump and 20-h.p. electric motor. Ditches carry water to land, as shown on plat filed with application. Discharge of pump measured with weir at 146 inches of water. Water rises in well to point about 30 feet from surface of land.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of South half of Southeast quarter and South half of Northwest quarter of Southeast quarter of Section 3, Township 4 South, Range 33, E.B.M., making 100 acres in all. All is cultivated land. All is fenced around outside. One small house.

veying water from point of diversion to place of use.

Ans. Well, with pump and electric motor and ditches from pump site to
the lands to be irrigated, Well is about 300 feet distant from the
NE corner of SE¹/₄ of Section 3, Twp. 4 South, Range 33, E.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Over two cubic feet per second of water, during past two
irrigation seasons.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Over two cubic feet per second. I judge the amount from my
experience in irrigation.

20753

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used entirely for irrigation of 100 acres of land described as follows: The S $\frac{1}{2}$ SE $\frac{1}{4}$ and S $\frac{1}{2}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, Twp. 4 South, Range 33, E.B.M. The land is all cultivated and is improved with fence around the exterior boundaries and small house.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ---

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava Ash or sandy loam soil. Requires about one inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water from the well used to irrigate the whole 100 acres during the past two irrigating seasons--1949 and 1950.

Re: Permit No. 20753

Mr. R. F. Cammack
Pingree, Idaho

Dear Mr. Cammack:

We have your letter of September 15, 1950, stating that you would like to make final proof under your Permit No. 20753.

Before this Proof is made, the law requires that a notice be published once a week for four weeks in a County newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of Form 10 are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated county newspaper at your expense.

We shall then send a notice to the newspaper with instructions in regard to publishing.

Dear Mr Cammack:

We are returning your application for permit to appropriate 100 inches of water from a well located on the S₂ SE₄, Sec. 3, Twp. 4 S., Range 33 E. B.M., in order that you may complete same.

If this is to be a pumped well the works described under Question 8 should include the pump and either ditches or pipes, whichever will be used to carry the water to the land to be irrigated.

The location of the well should be to a 40 acre subdivision so please check on the enclosed sketch map the exact location of the well.

Since the statutes set a maximum of 1 inch per acre for irrigation, the permit can only be approved for 80 miner's inches or 1.6 cubic feet per second.

The filing fee on this amount is \$5.25 which should accompany the application.
