

MEMORANDUM

Re: Permit Review

PROOF OF BENEFICIAL USE DUE DATE -- IDWR can grant up to five years to submit proof of beneficial use. The applicant requested one year to submit proof of beneficial use. I am recommending 16 months to give the applicant time to complete the irrigation season in 2007 before having to submit proof of beneficial use.

OVERLAP -- Beneficial use claim 75-4209 from Perreau Creek and Permit 75-7641 from ground water overlap the place of use for this permit.

SOURCE -- The source is listed as the Salmon River, but apparently it is a side-channel or slough running west of the river. The field examiner should verify that this right is diverting from a natural channel of the river.
