Mr. Calvin Moser
Notary Public
Aberdeen, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20062

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 25, 1947, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Aberdeen, Idaho before Calvin Moser, Notary Public

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK R. KULP

Dear Mr. Neuman:

We acknowledge receipt of your corrected deposition in Proof of Beneficial Use under Permit No. 20062; also affidavit of publication in the Aberdeen Times.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We can not say just when this examination will be made as this Department has but one field engineer, who makes examinations all over the State.

However Mr. Tolman, Field Engineer for this Department will try and contact you at the time he makes the examination so that you may show him over the ground.

We return receipted statement from the Aberdeen Times which no doubt you will wish to keep in your own files.

Mr. John Neuman
Aberdeen, Idaho

Dear Mr. Neuman:

We enclose certificate of Completion of Works issued under your Permit No. 20062 authorizing the diversion of 1.2 second feet of water from a well on the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 17, Township 6 South, Range 31 East, with priority of March 17, 1947, for the irrigation of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of this same Section.

We also enclose departmental receipt No. 19983 for the \$5.00 fee paid in connection with completion of works proof.

A copy of the notice of Beneficial Use Proof to be made under this permit on June 25th, has been sent to the Aberdeen Times with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of publishing costs.

About ten days prior to the date set, we shall send to Mr. Calvin Moser, Notary Public, the necessary forms of depositions, consisting of one for the holder and one for each of two witnesses, in order that he may have them in ample time for the proof.

At the time set you should appear before Mr. Moser, together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

Re: Permit No. 20062

Mr. John Neuman
Aberdeen, Idaho

Dear Mr. Neuman:

We enclose Permit No. 20062 in the name of yourself and Sam Neuman.

Since your application stated that the works were completed and the water beneficially applied we have allowed three months in which to make the statutory proofs necessary to complete your water right.

The first, or Completion of Works Proof, is made by executing Form 8, enclosed, before a Notary Public and returning it to this Department, together with the statutory fee of \$5.00, upon receipt and approval of which a certificate of Completion of Works will be issued.

The final, or Beneficial Use Proof, requires publication of notice once a week for four consecutive weeks in a newspaper, published in Bingham County. This notice should be made out in duplicate on Form 10, enclosed, setting the time and place for making proof and naming the notary public before whom this proof will be made. Be sure to set the time sufficiently far ahead to allow for the four weeks publication and return both copies of Form 10 to this Department, together with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing. We enclose departmental receipt No. 19946 for the \$5.25 filing fee, and as your check was for \$7.50 there is a refund of \$2.25 due you which we enclose herewith.

Very truly yours,

March 19, 1947

Mr. John Neuman

Dear Mr. Neuman:

In checking your application for permit, we are not sure that we understand the meaning of (a) under Remarks. It speaks of 55 acres and 15 acres additional in Section 18, and then says there are 135 acres, with 130 shares. If the 55 and 15 acres are added to the 80 acres in Section 17, it would be 150 acres.

Under (d) it states that water is transferred from Section 17 into Section 18, which raises some questions: First, does the land referred to in Section 18 have a water right appurtenant to it? And, second, as to the legality of transferring water as mentioned and then requesting more for the same ground.

Under Question 2, the water allowed is one inch per acre, measured at the point of diversion, or in this case at the well.

Approval can only be made if the water applied for is supplemental to the existing right, to be used when the existing right is cut off, or if it is in addition to the existing right, in which case the law requires proof by affidavit that the existing water supply is insufficient.

Dear Mr. Neuman:

We acknowledge receipt of the application of yourself and Sam Neuman to appropriate 80 inches of water from a well located in SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 17, Township 6 South, Range 31 East, accompanied by money order for \$7.50 to pay the filing fee.

In checking this application we note that you have 80 shares of water in the Aberdeen-Springfield Canal Co. For that reason we are returning the application with the request that you state fully under "Remarks" on the third page, why this additional water is required, since the maximum allowed by statute is one inch per acre.
