In relation to permit no. 20578  
for pumping water for irrigation. I've received a  
certificate of completion of works and the well and  
land has been inspected by Mr. Tolman. But I've not  
received a final certificate. Could you tell me what

Re: Permit No. 20578

Mr. Clifford Wride  
Box 806  
Aberdeen, Idaho

Dear Mr. Wride:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Aberdeen Times, all in proof of beneficial use under your Permit No. 20578.

Before final action is taken in the matter the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examinations in order that you may arrange to show him over the grounds.

Very truly yours,

Re: Permit No. 20578

Mr. Clifford Wride  
Aberdeen, Idaho

Dear Mr. Wride:

We enclose herewith your Permit No. 20578.

As your permit states that the works are completed and that the water has been used for a number of years, we have allowed three months or until October 31, 1948, within which to make the proofs required by statute to complete your water right.

The first proof of proof of completion of works is made by executing the enclosed affidavit (Form 8) before a Notary Public and returning to this Department with statutory fee of \$5.00. Upon receipt and approval of this proof a certificate of completion of works will be issued.

The final or beneficial use proof requires publication once a week for four consecutive weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof will be made. The date, of course, should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of the notice are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated newspaper. We shall then send one copy of the notice to the newspaper with instructions in regard to publishing and shall send to the Notary Public the necessary forms of deposition consisting of one for yourself and one for each of two witnesses, so that he may have them in ample time for the proof.

At the time set you should appear before the Notary Public with two disinterested witnesses who are familiar with your permit and the work done thereunder, for the purpose of executing the depositions.

Dear Mr. Wride:

We return your application for permit to appropriate 2 1/3 second feet of subterranean water from a well to be completed as follows:

- (1) Question 4 should give the location of the well, which we assume from the sketch map is in the NW $\frac{1}{4}$  SE $\frac{1}{4}$  of Sec. 3, Township 5 S., Range 30 E. B.M.
- (2) Question 8 should include not only the well but a pump, if one is to be used, and the ditches or pipe by which the water is to be conveyed from the well to the place of use.
- (3) Answer such parts of Question 11 as are applicable.
- (4) Answer Question 15.
- (5) Question 14 describes land in the S $\frac{1}{2}$  SW $\frac{1}{4}$  and SE $\frac{1}{4}$  of Section 3, but the sketch map shows it in the E $\frac{1}{2}$  SW $\frac{1}{4}$  and SE $\frac{1}{4}$  of said section; which is correct?

The correct filing fee on 2 1/3 second feet is \$5.50, being at the rate of \$5.00 for the first second foot and twenty-five cents for each additional second foot or fraction thereof.

We therefore, return your check for \$6.00 and you may substitute one for \$5.50.

Aberdeen, Idaho

Dear Mr. Wride:

In reply to your letter of June 1, 1948, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

We understand from your letter that this is a well and the same form is used for filing on wells as on surface water.

Very truly yours,

I've a 140 acre tract of dessert land that I want to file a water right on. This is an excellent piece of ground and I've cleared it. It is now planted to potatoes and an electric pump is furnishing about 125 inches of water. Please send the necessary blanks.

Yours,

*Clifford Wride*
