NORA J. LOWE
Carey Act Commissioner,
Aberdeen, Idaho

Dear Madam:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact Mr. Hege at the time set for examination so that he may show him over the grounds. After the engineer's report is on file in this office Mr. Hege will be further notified as to fees due before the issuance of his license.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 17976

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On January 14, 1935, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Aberdeen, Idaho before Nora J. Lowe, Carey Act Commissioner

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

R. W. FARIS

Dear Madam:

We are in receipt of your letter dated December 15, wherein you request the necessary blanks to take the above mentioned party's proof of the application of water to beneficial use, which will be offered on January 14, 1935.

This proof will consist of three depositions, one for the holder, and one each for two witnesses. The party executing deposition of the holder will, of course, be Mr. Hege, and the other two depositions must be executed by disinterested persons who are thoroughly familiar with the terms of the permit.

These forms will be mailed from this office about December 30, so that you will have them in ample time for the proof.

Re: Permit No. 17976

MR. HENRY HEGE
Aberdeen,
Idaho

Dear Sir:

We are in receipt of your affidavit for proof of completion of works, notice in duplicate for publication in connection with beneficial use proof, letter authorizing publication and also your check in the amount of \$5.00.

No publication is necessary in connection with proof of completion of works and a certificate of completion of works will be issued and mailed to you within the next few days. Thus you were correct in your interpretation of the law as it now stands, that is, no permit claiming 6.4 second feet of water, or less, requires a publication at the time when proof of completion of works is offered. However, the law does provide that any permit, regardless of the quantity of water claimed, requires a publication at the time when beneficial use proof is submitted.

A copy of the notice has been mailed to the Aberdeen Times at Aberdeen, with proper instructions for its publication.

Depositions will be mailed to Nora J. Lowe, Carey Act Commissioner, in ample time for your proof on January 14th. On that day you should appear at her office with two disinterested witnesses for the purpose of executing these depositions. After they have been completed, kindly forward them to this office with an affidavit of publication from the newspaper.

Check for \$5.00

I note that Section 5574 provides, That under all permits
claiming 6.4 feet of water or less, but not otherwise, the permit
holder may make such proof of completion without publication of notice
by filing with the department of reclamation on or before the date
set for completion of works-etc.

Has this section been amended or can proof be made without
the publication as provided in above section?

very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

HENRY HEGGE
Aberdeen,
Idaho

Boise, Idaho, **November 12, 1934**

Dear Sir:—

Under the terms of your permit No. **17976**.....you are required to complete your diversion works on or before **Jan. 14, 1935**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS

Commissioner of Reclamation.
