TRANSFER NO. 5600
WATER RIGHT NO(S). 35-02093/35-02107/35-04061

CONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- ** 6. Right 35-02093 is limited to the irrigation of 225.0 acres in the place of use described above in a single irrigation season.
- ** 7. Right 35-02107 is limited to the irrigation of 110.0 acres in the place of use described above in a single irrigation season.
- ** 8. Right 35-04061 is limited to the irrigation of 102.0 acres in the place of use described above in a single irrigation season.
- * 9. Rights 35-02093, 35-02107, and 35-04061 when combined shall not exceed a total diversion rate of 8.74 cfs, a total annual maximum diversion volume of 1748.0 af at the field headgate, and the irrigation of 437.0 acres.
10. All water rights within Basin 35 are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
11. Two points of diversion are located within SENW, S36, T05S, R31E.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

25-2107

APPLICATION No. 28272
PERMIT No. 20639
DISTRICT No.

1. Name of Applicant: W. M. JACKSON

Postoffice address: Aberdeen

County: Bingham

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: Three (3)

cubic feet per second.

3. Source of water supply: A well

which is a tributary of

4. Location of point of diversion: 2700

feet distant from the Northwest

corner of Section 36, T. 5 S., R. 31 E., B.M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$

of Section 36, T. 5 S., R. 31 E., B.M., County of Bingham

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 3,500.00

8. Kind of works: Well, pump and ditches

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 2 feet; width at water line 4 feet; depth of water 1 $\frac{1}{2}$ feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile 4 $\frac{1}{2}$ feet.

12. The time required for the completion of such work is Two (2) years.

13. The time required for the complete application of the water to the proposed use is No additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

W. M. JACKSON *Applicant.*

MEMORANDUM

TO: Rights 35-02093, 35-02107 & 35-04061

FROM: Pam Skaggs^{PS}/State Office

SUBJECT: Transfer 5600

DATE: January 25, 2000

Transfer 5600 changes and adds a point of diversion, and changes the place of use under Rights 35-02093, 35-02107 and 35-04061. The applicant is replacing a collapsed well and may also want to drill a second well to provide the full authorized rate.

The place of use has been slightly modified from the acres recommended in the SRBA to reflect current land use and a removal of irrigated acres from Bureau of Reclamation land. I have contacted the Bureau of Reclamation requesting a release for this transfer from their lands and will hold the transfer from final processing until it has been received. The approved place of use includes an adjustment of one acre from the NWSE to the SESW to reflect actual irrigation on the applicant's property with the agreement of BOR and Jeffery Rau of Brockway Engineering who is acting as the agent of the applicant for this transfer.

Standard irrigation and stockwater volume was identified under each right. Recommended conditions include connected sources, combined right limits, drilling permit requirements, measuring & annual reporting, irrigation overlap, permissible place of use limits, and standard transfer conditions.

Re: Permits Nos. 20382 and 20639

Mr. W. M. Jackson
Aberdeen, Idaho

Dear Mr. Jackson:

We enclose License and Certificate of Water Right issued under Permit No. 20382, confirming your right to the use of 5.5 second feet of water from 3 wells located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 5 South, Range 31 East, B.M., with priority of April 3, 1948, for the irrigation of land in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, and W $\frac{1}{2}$ SE $\frac{1}{4}$ of said Section 36.

We also enclose License and Certificate of Water Right issued under Permit No. 20639, confirming your right to the use of 2.2 second feet of water from a well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 36, Township 5 South, Range 31 East, B.M., with priority of September 3, 1948, for irrigation of the SW $\frac{1}{4}$ of said Section 36.

We also enclose Departmental Receipt No. 22216 for the \$22.00 fees paid by you in connection with Beneficial Use Proofs on the above numbered Permits.

Very truly yours,

MARK H. KULP

Re: Permit No. 20639

Mr. W. M. Jackson
Aberdeen, Idaho

Dear Mr. Jackson:

We now have on file the report of our Field Engineer on examination for Beneficial Use under your permit No. 20639.

This report shows that you have irrigated 110 acres in the SW $\frac{1}{4}$ Section 36, Township 5 South, Range 3 East, B.M.

Therefore, upon receipt of the statutory fee of \$8.00, a License will be issued for 2.2 cubic feet per second from a well located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section.

Very truly yours,

MARK R. FULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20639This proof is for Beneficial use

In Water District No. _____

1. Name of applicant W. M. Jackson, Aberdeen, Idaho2. Source of water supply: Subterranean (well)3. Location of point of diversion: Is in the NW 1/4 SW 1/4 of Section 36T. 5 S. R. 31 E. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: _____

Well 236' deep, cased with 14" casing to depth. A Johnston pump with 8"
column, 12" bowl, 8" discharge. A 25 H.P. U.S. motor, volts 220/440, amps.
62/31, 3 phase, 60 cycle, 1800 R.P.M., type CFJ. (Q = 175")

5. Water is used for: Irrigation and domestic purposes6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW 1/4 Section 36, Township 5 South, Range 33 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: _____

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Re: Per its Nos. 20382 and 20639

Mr. H. William Furchner
Attorney at Law
Blackfoot, Idaho

Dear Mr. Furchner:

We acknowledge receipt of your letter of September 28, 1949, enclosing depositions of W. M. Jackson and two witnesses, also Affidavit of Publication in the Aberdeen Times, all in proof of Beneficial Use under the above numbered Permits.

Before final action is taken in the matter, the law requires that an examination be made by a Field Engineer from this Department, but we cannot advise you at this time when this examination will be made.

This Department has but one Field Engineer and it is his custom to combine as many examinations in one locality as possible in order to save both time and expenses.

However, Mr. Tolman, Field Engineer for this Department, will try and contact Mr. Jackson at the time he makes the examination in order that he may arrange to show him over the grounds.

Very truly yours,

WALKER H. KULP
State Reclamation Engineer
By

Chief Clerk

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20639

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. W. M. Jackson. Residence and Post office address: Aberdeen, Idaho. Occupation, farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ---

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 20639, dated September 8, 1948, with date of priority, Sept. 3, 1948.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water taken from subterranean source by means of well located 2700 feet Southeasterly from Northwest corner of Section 36, Twp 5 South, of Range 31, E.B.M., and in NW $\frac{1}{4}$ SW $\frac{1}{4}$ of said section.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Well, equipped with electric motor and pump. Pumps 150 inches of water which is conveyed to and used upon the SW $\frac{1}{4}$ of said Sec. 36. Water conveyed in open ditches. Well is 236 ft. in depth, fully cased.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for domestic and irrigation purposes on the whole of said SW $\frac{1}{4}$ of said Sec. 36, which is all cultivated. Land is fenced

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

20639

11/21/48

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ---

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of the water diverted has been used on above-described lands during entire season of 1949.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

(Sign) W M Jackson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham, State of Idaho, on this 24th day of September, A. D. 1949.

My commission expires Jan. 31, 1950.

H. William Linder
Notary Public for Idaho, residing
at Blackfoot, Idaho.

20639

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 20639

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans Glenn Hayter. Age 47 years. Residence and postoffice address:
Aberdeen, Idaho. Occupation, farmer.

Ques. 2 Are you acquainted with W. M. Jackson, the
holder of Permit No 20639? How long have you known him and where does
he reside?

Ans. Yes. I have known him about 23 years. He lives at Aberdeen, Idaho.

Ques 3 Have you read or heard read said Permit No. 20639, and are you
familiar with its provisions and conditions?

Ans I am.

Ques 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Water is pumped from subterranean source. Well is about 2700 feet
southeasterly from the NW corner of Section 36, Twp. 5 South, Range 31,
E.B.M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of said section. Water from well is conveyed
through open ditches to all parts of SW $\frac{1}{4}$ of said section 36. The well
is approximately 236 feet deep, and is equiped with electric motor and
pump. The well is fully cased.

Ques 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Three cubic feet per second.

Ques 6. State for what purpose water is used and at what place. (If for irrigation, give
each subdivision in which water has been used and number of acres irrigated in each
subdivision) State whether cultivated or natural meadow land and the nature of all im-
provements which have been made as a direct result of said use.

Ans. Water is used for irrigation of the entire Southwest quarter of said
section 36, which is entirely cultivated and ^{partly} fenced. (160 acres).

20629

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. - - -

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is of a lava ash soil and is completely cultivated and irrigated. It requires about one inch of water per acre for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have farmed the lands for the past year on shares, but have no ownership interest in the land, water or works.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the entire amount of water granted in the permit used on said lands during the full season of 1949.

(Signed) Glen Hayter

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in the City of Blackfoot,
County of Bingham, State of Idaho, on this 24th day of September,
A D. 1949.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 20639

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Edwin Harbart. I am 39 years of age and am a farmer by occupation. My residence and postoffice address are Aberdeen, Idaho.

Ques. 2 Are you acquainted with W. M. Jackson, the holder of Permit No 20639.? How long have you known him and where does he reside?

Ans. Yes. I have known him about 8 years. He resides at Aberdeen, Idaho.

Ques. 3 Have you read or heard read said Permit No. 20639, and are you familiar with its provisions and conditions?

Ans I have read the permit and know its provisions and conditions.

Ques. 4 State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans. The water is pumped from a subterranean source by a well located about 2700 feet Southeasterly from the NW corner of Sec. 36, Twp 5 So., R. 31, E.B.M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of said section. The well is equipped with an electric motor and pump, and water is conveyed through open ditches to all of the land in the SW $\frac{1}{4}$ of said section 36. The well is 236' in depth and is fully cased.

Ques. 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans The well produces 150 inches of water, all of which I have seen conveyed through the ditches and used on said lands during the 1949 season.

Ques 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use

Ans The water is used for irrigation on all of the SW $\frac{1}{4}$ of said section, (160 acres). The land is all cultivated and fenced.

20639

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. - - -

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is nearly level, contains a lava ash soil, and can profitable be cultivated with one inch per acre of water.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have worked on the land for the past two years, but have no interest in the land, water or works.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen all of the water used on said lands during the crop season of 1949.

(Signed) Edwin Harburt

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in the City of Blackfoot, County of Bingham, State of Idaho, on this 24th day of September, A. Re: Permits Nos. 20382 and 20639.

Mr. H. William Furchner
Attorney at Law
Blackfoot, Idaho

Dear Mr. Furchner:

Reference is made to your letter of August 20, 1949, enclosing Notice of Beneficial Use Proof under Permits Nos. 20382 and 20639, with authorization to publish in the Aberdeen Times.

You evidently misunderstood our letter of July 19, as we did not mean that you could use the printed form for making both proofs, but that it was a form to follow in combining proofs under both Permits. That is why only one form was sent you.

However, we have made a notice, combining proof on both Permits as per copy enclosed and have sent a copy to the Aberdeen Times with instructions to publish it once a week for four consecutive weeks prior to September 24, 1949, and to send you the Affidavit of Publication, together with statement of costs.

We enclose the necessary forms of deposition to be used in making these proofs. You understand, of course, that separate proofs must be made on each Permit.

At the time set, Mr. Jackson should appear before you with two disinterested witnesses who are familiar with the terms of the Permits and the works done thereunder, for the purpose of executing the depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permits Nos. 20382 and 20639

Mr. H. William Furchner
Attorney at Law
Blackfoot, Idaho

Dear Mr. Furchner:

We enclose Certificate of Completion of Works issued under Permit No. 20382 in the name of W. M. Jackson for the diversion of six (6) second feet of water from two wells located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 5 South, Range 31 East, B.M. for irrigation of land in the W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ of said Section.

We also enclose Certificate of Completion of Works issued under Permit No. 20639 of W. M. Jackson for the diversion of three (3) second feet from a well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 5 South, Range 31 East, B.M. for the irrigation of the SE $\frac{1}{4}$ of said Section.

Departmental Receipt No. 21652 is also enclosed for the \$10.00 fees in connection with these completion of works proofs.

We note that you are prepared to make final proof of beneficial use under these two Permits. It will save a little in the cost of advertising if these proofs are combined in one notice, following Form 10 enclosed, but referring to each Permit separately. Both copies of this notice should be returned to this Department together with Form 11 which is Mr. Jackson's authorization for us to have the notice published at his expense in the designated newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 20639

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Bingham.

ss.

W. M. Jackson

, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 20639, and that his postoffice address is Aberdeen, Idaho.

Second: That the name of the stream which said water is to be ~~diverted~~ ^{DIVERTED} is
A well--not named.

Third: That the point of diversion of said water is 2700 ft. distant from NW corner of Sec. 36, T. 5 South, R. 31, E.B.M., and in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$, said Sec. 36.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by September 11, 1950.

Fifth: That the use for which said water is intended is irrigation.

Sixth: That ^{before} ~~on~~ the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: Well, pump and ditches completed as shown in plat attached to permit. (Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit (ditch) width at bottom two feet, width at water line four feet, depth of water 1 $\frac{1}{2}$ feet; diameter of pipe inches, average grade per mile is 4 $\frac{1}{2}$ feet. Length of conduit is 1 miles.

Seventh: That said works are capable of conducting to the place of intended use three second feet of water.

Eighth: That water appropriated under said permit is available for 150 acres of land described as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ --40; NE $\frac{1}{4}$ SW $\frac{1}{4}$ --40; SE $\frac{1}{4}$ SW $\frac{1}{4}$ --40; SW $\frac{1}{4}$ SW $\frac{1}{4}$ --30, all in Sec. 36, Twp. 5 So., R. 31, E.B.M.

Ninth: Remarks: That

W. M. Jackson
