Dear Mr. Anderson:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25098, Robert M. Yelland, Jr., Route #1, Blackfoot, Idaho, shows that his well is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 35, Township 1 South, Range 33 East, B.M. and is capable of conveying 225 miner's inches (4.5 c.f.s.) of water for irrigation of 320 acres. The record of the permit shows the point of diversion to be in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, therefore, it is necessary that the permit be amended. We enclose a form "Application for Amendment" for this purpose and ask that you complete it.

Upon receipt of the amendment, mentioned above, and the statutory fees, total of \$21.00, we will issue to Mr. Yelland, Jr., the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirm the right with priority of August 6, 1954, to his use of 4.5 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 35, for irrigation of 320 acres in the E $\frac{1}{2}$ of Section 35, all in Township 1 South, Range 33 East, B.M.
