INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

NOTICE IS HEREBY GIVEN That 10 A. M., on the 29th day of August, 1958, at Blackfoot, County of Bingham, State of Idaho, before J. Blaine Anderson, Notary Public, at 167 West Bridge Street, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26472, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Carl L. Rowe, Pingree, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation and stock purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Twp. 4 South, Rge. 33, EBM.

5. The place where said water is used is NE $\frac{1}{4}$, Sec. 21, Twp. 4, S., Rge. 33, EBM.

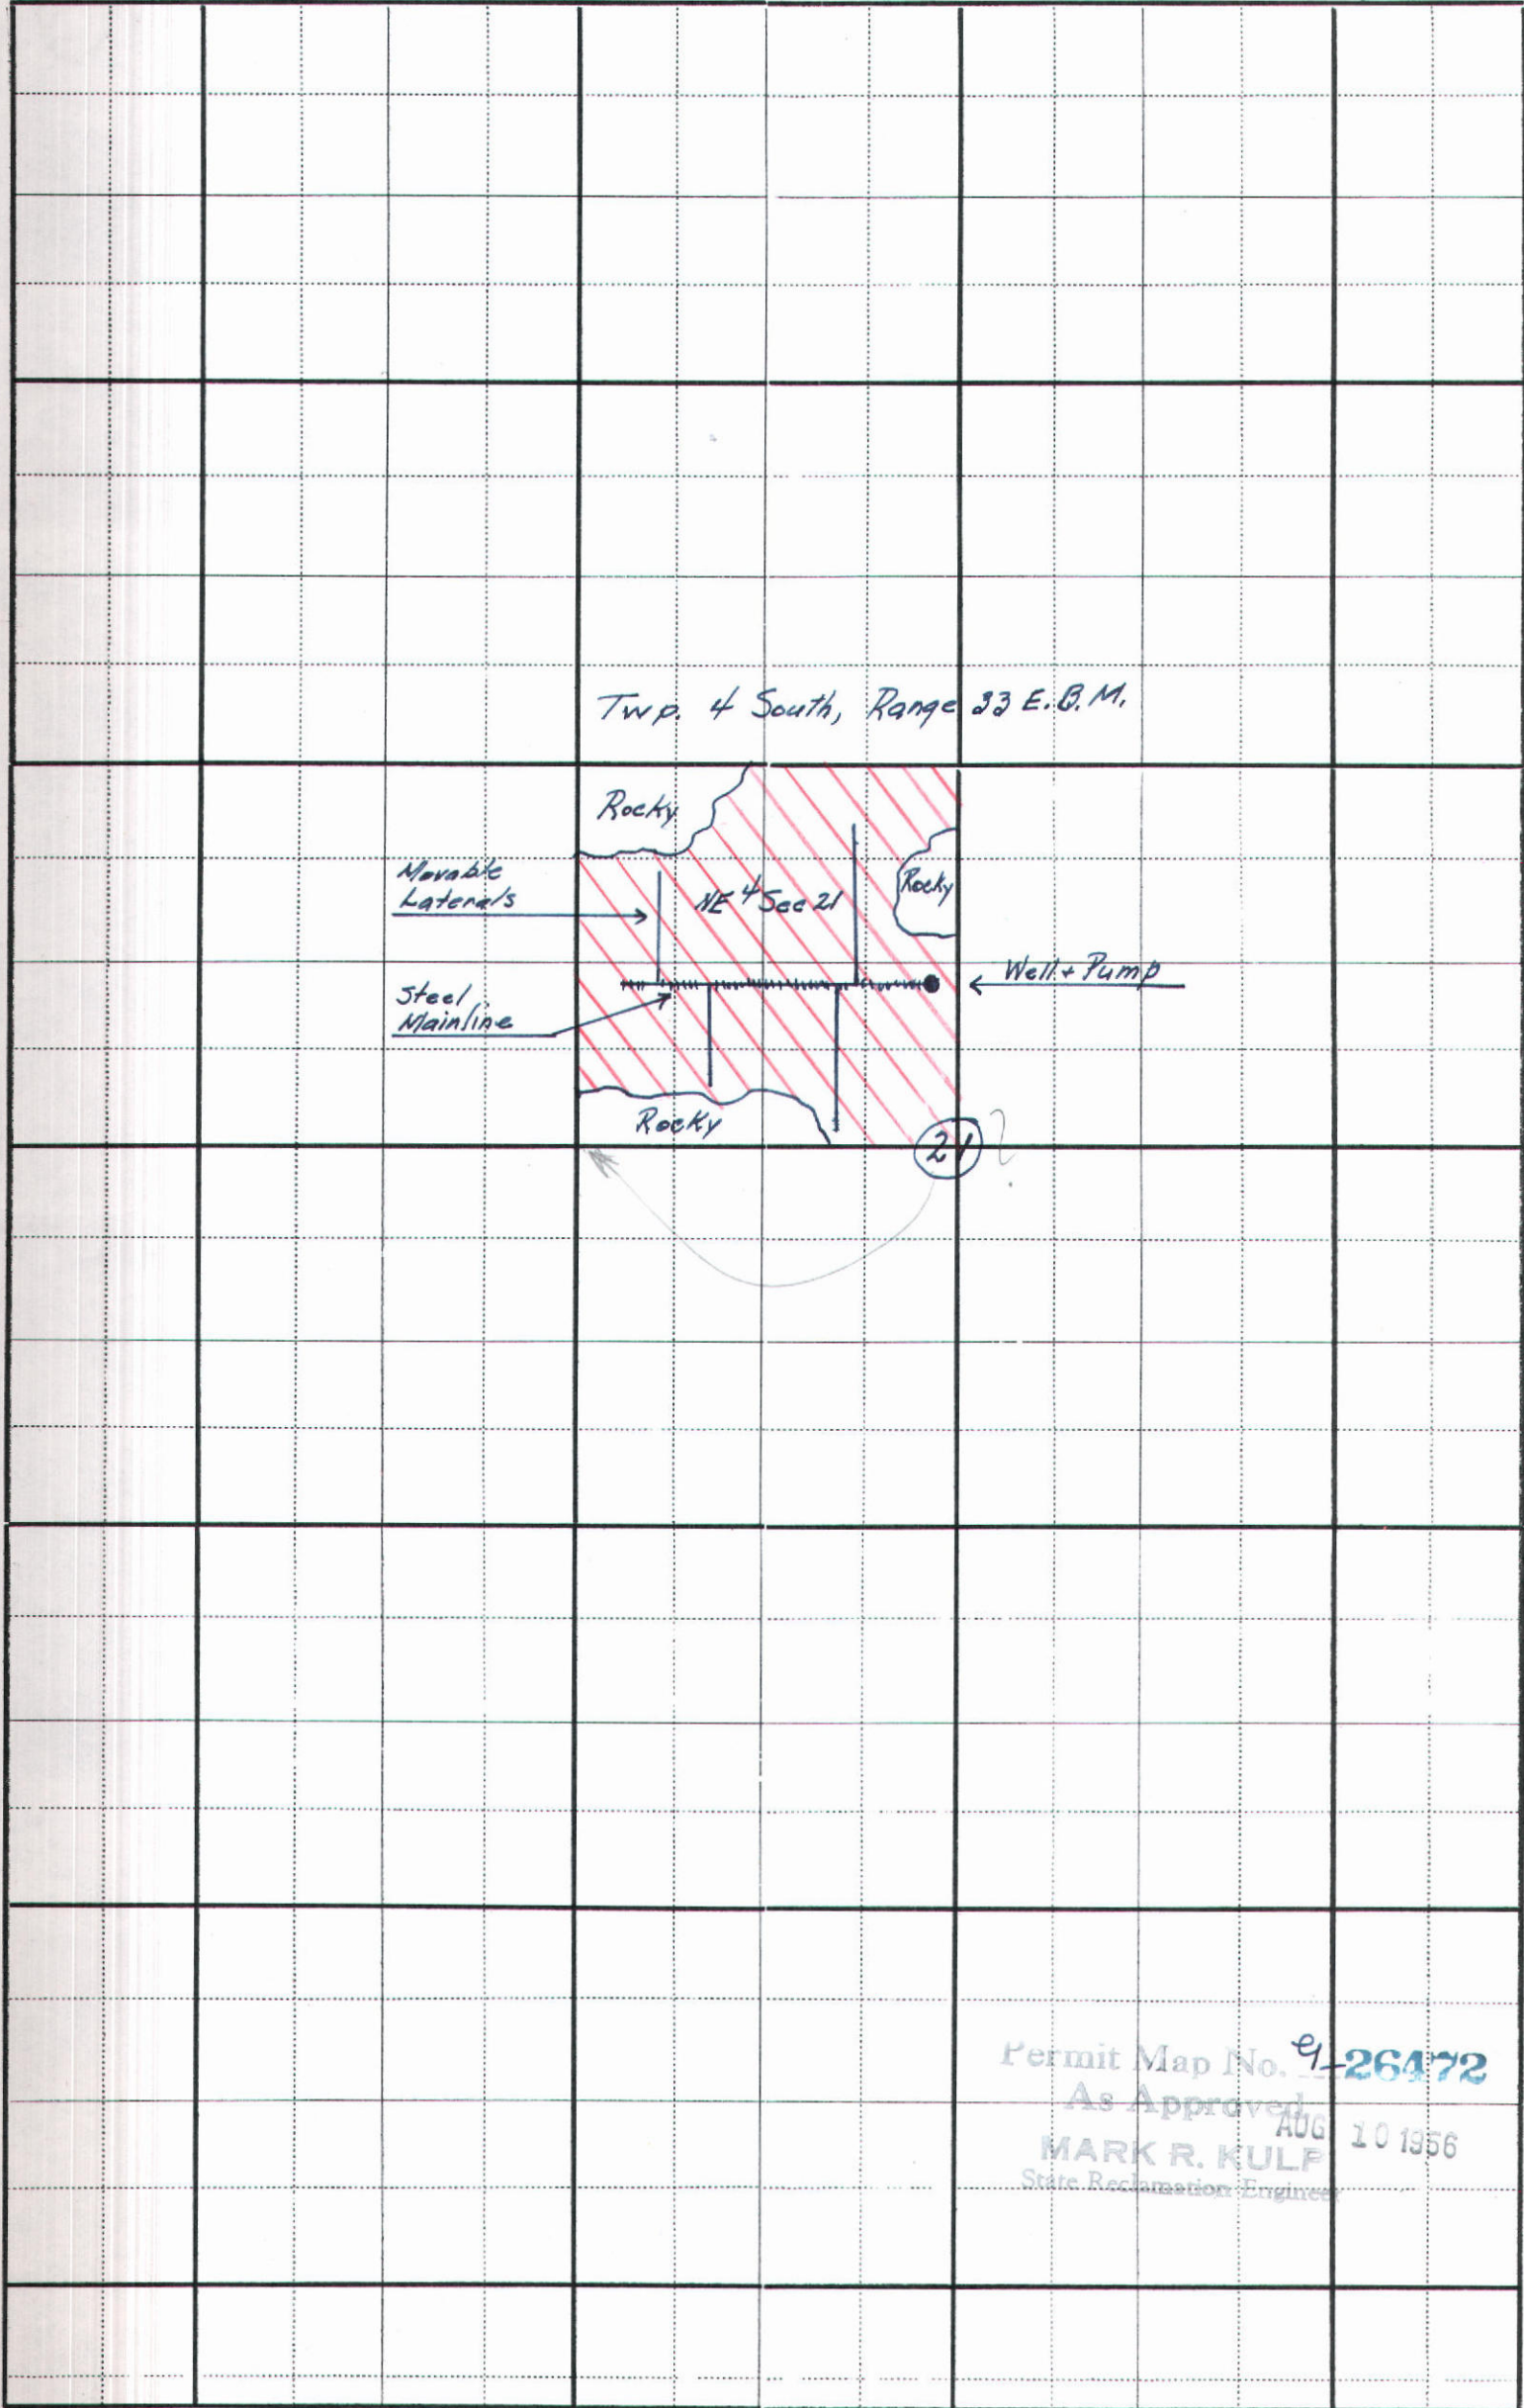

6. The date of priority which said user is prepared to establish is August 10, 1956.

WATER LICENSE

Water License No. G-26472/35-2471 Priority August 29, 1956 Amount 0.88 c.f.s.
(late proof)

THIS IS TO CERTIFY, that CARL L. ROWE
of Pingree, Idaho, made application for a permit to appropriate the public waters of
the State of Idaho, dated August 10, 1956; that Permit G-26472/35-2471 was issued pursuant
to said application; that the proposed works were completed on or about 1956,
with a storage/or carrying capacity of 0.88 c.f.s., said works consisting of well, pump,
motor, meter, and sprinkler system; and that on August 29, 1958,
proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 350
acre feet per season, with a maximum rate of diversion of 0.88 cubic feet per second of the waters
of ground-water, tributary of _____,
for the purpose of Irrigation from April 1 to October 31;
and for _____ from _____ to _____; and for
_____ from _____ to _____; and that the use
of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Recla-
mation Engineer and entered in the records of the Idaho Department of Reclamation: the point of diversion is
located in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 4 S, R. 33 E, B.M., and
other additional points _____, in the County of
Bingham; and that the amount of water to which such right is
entitled and which is hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially
used for said purposes and shall not exceed 350 acre feet per year.

Description and location of place of use:

RE: Permit G-26472 (35-2471)

L. D. Crawford
County Supervisor
Farmers Home Administration
P. O. Box 471
Blackfoot, Idaho 83221

Dear Mr. Crawford:

This is in reply to your letter of January 10, 1969, regarding the above numbered permit. The proofs were completed on August 29, 1958, and on October 7, 1958, after the field examination our department requested fees in the amount of \$13.00 in order to issue a license. This fee has not been received.

Upon receipt of the fees a license can be issued for 44 inches or .88 cubic feet per second of water for irrigation of 100 acres.

It is possible to drill a new well and use it in place of the present well. However, if additional water is used or more than the 44 inches, a new permit with a different priority for all the water taken from the well that exceeds the original amount must be filed.

If we can be of further assistance please let us know.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

State Reclamation Engineer
State of Idaho
Boise, Idaho

Dear Sir:

We are trying to work out a way to help Mrs. Arleen L. Rowe, of Pingree, Idaho. She is the widow of Carl L. Rowe, deceased.

Could you inform us as to what the permit Number G-26472 consists of as to the date proved up on and the amount of water allotted on this permit. What is the depth of the well and is it cased.

If this well was enlarged would another permit be needed and would the water right of present well be considered on the well to be developed.

Sincerely,

L. D. Crawford

Re: Permit No. G-26472
Carl L. Rowe

Mr. J. Blaine Anderson
Anderson & Beebe
Attorneys At Law
P. O. Box 752
Blackfoot, Idaho

Dear Mr. Anderson:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-26472 shows that the well is capable of conveying 44 miners inches (.88 c.f.s.) of water for irrigation of 100 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars--fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of August 10, 1956, to the use of .88 second foot of subterranean water, with point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21, for irrigation of 100 acres in the NE $\frac{1}{4}$ of Section 21, Township 4 South, Range 33 East, B.M.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-26472 ✓This proof is for C/W and Beneficial Use

In Water District No. _____

1. Name of applicant: ✓ Carl L. Rowe, Pingree, Idaho2. Source of water supply: Subterranean waters ✓3. Location of point of diversion: Is in the NE cor. SE 1/4 NE 1/4 of Section 21 ✓T. 4 S. R. 33 E. County of Bingham ✓

4. Describe works as they exist, giving dimensions and capacities of same: Well - Drilled in bottom of a rock curbed 8'x8'x4' pit to depth of 48 1/2' - dia. 16" at bottom. Pump Horizontal Peerless #17420 designed for 450 gpm and 140' head. Motor: Uniculpsed # P 25. Motor GE #25970107 Service #PO 21136X (Idaho Power) Demand 1.45 Multiplier 10. Sprinkler system Mains 70'-5" Portable laterals 4" 2640'. Nozzles 3/16"

5. Water is used for: Irrigation and stock water ✓6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Township 4 South, Range 33 East,Section 21: NE 1/4 NE 1/4 (40), NW 1/4 NE 1/4 (40), SW 1/4 NE 1/4 (40), SE 1/4 NE 1/4 (40), making a total of 160 acres.

Checked with one line operating = .5 cfs.
This system should produce 22" per line or 44"

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? None

Remarks: The 9-27-58 inspection was made with the assistance of Mr. Carl L. Rowe. The quantity of water appears quite inaptuate but the farm land includes much rough + rocky areas which are devoted to pasture. Potatoes + wheat are planted in spots where the soil has fair depth. Added to this the pumping plant is somewhat "make shift".

This examination was made on the

27

day of

Sept, 19 58

(Signed)

James S. Mark

Examiner.

Idaho

Dear Mr. Rowe:

This acknowledges the depositions of Holder and two Witnesses and the Affidavit of Publication in The Daily Bulletin in proof of completion of works and beneficial use under Permit No. G-26472.

Before a permit is licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

✓
Permit No. G-26472

Proof of Application of Water to Beneficial Use

Deposition of Holder ^{and Completion of Works}

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Carl L. Rowe, Pingree, Idaho; Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. ✓ G-26472 August 10, 1956; August 10, 1956

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Water; ✓ NE corner of SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 21 ✓
Township 4 South, Range 33 East of the Boise Meridian, Bingham County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. A well 48' deep, 18" casing extends 4' down from ground, 20' from ground to water. Pump with 4" discharge, nozzle discharging 3.2 cubic feet per sec. as determined from observation and estimated from pump farming experience. Sprinkler irrigation system has 66 9/64 inch nozzles and operates at 60 lbs. pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigating cultivated land; 40 acres NE $\frac{1}{4}$ NE $\frac{1}{4}$;
30 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$; 15 acres SW $\frac{1}{4}$ NE $\frac{1}{4}$; 10 acres NW $\frac{1}{4}$ NE $\frac{1}{4}$, All Sec. 21,
Township 4 South, Range 33, E.B.M., Bingham County, Idaho.
Converted arid desert land to irrigated cultivated farm.

J 26472

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 95 Miner's inches

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. In farming seasons 1956, 1957 and 1958, have applied water to lands and acreages described in answer #6 hereinabove, according to good sprinkler irrigation practice to the extent of one miner's inch per acre for the irrigation of wheat, barley, potatoes, hay and pasture.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Not applicable

(Sign) Carl L. Rowe

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham

State of Idaho, on this 29th day of August, A.D. 1958.

Permit No. G-26472

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Oscar L. Pedersen Age 55; Pingree, Idaho
Farmer

Ques. 2. Are you acquainted with Carl L. Rowe, the holder of Permit No. G-26472? How long have you known him and where does he reside?

Ans. Yes. 28 years, Pingree, Idaho

Ques. 3. Have you read or heard read said Permit No. G-26472, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean Waters NE corner; SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 21,
Township 4 South, Range 33 East of the Boise, Meridian

3" by 4" centrifugal, 20 h/p. electric motor; 700 ft., 5" alum. main-
line, 2640 ft. 4" alum. lateral, 400 ft. 3 in. alum lateral; 66 ames
9/64 sprinkler heads, 60 lbs. pressure.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2 Cubic feet per sec.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.2 Based upon observation and experience as pump irrigating
farmer.

G26472

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of cultivated land 40 acres NE $\frac{1}{4}$ NE $\frac{1}{4}$; 30 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$; 15 acres SW $\frac{1}{4}$ NE $\frac{1}{4}$; 10 acres NW $\frac{1}{4}$ NE $\frac{1}{4}$, all in Section 21, Township 4 South Range 22, East of Boise Meridian, Bingham County, Idaho.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. domestic and livestock use

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. desert land, volcanic ash; 95 miner*sinches

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1956, 1957 and 1958; acreages shown in answer #7 into irrigated crops--Wheat, barley potatoes, hay and pasture

(Signed)

Lucas L. Pedersen

Attention: J. Blaine Anderson

Dear Mr. Anderson:

This will acknowledge the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26472, in the name of Carl L. Rowe. Final proof is to be made before you, as Notary, on the 2nd day of August, 1958, at 10:00 A. M., at Blackfoot, Idaho.

As of this date we have mailed the Notice to the Daily Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the Publication Notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Geo. N. CARTER

DEPARTMENT OF RECLAMATION

BOISE

RE: Permit No. G-26472

Date June 1, 1958

Carl L. Rowe
Pingree, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26472 are due not later than August 10, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

State Reclamation Engineer
State House
Boise, Idaho

Re: Carl L. Rowe
Water Permit Applicant

Dear Mr. Kulp:

Enclosed herewith you will find original and one copy of Application for Permit to Appropriate Subterranean Waters, forwarded on behalf of Mr. Rowe, together with two maps showing the necessary data. You will also find enclosed Mr. Rowe's personal check in the amount of \$6.50 to cover the filing fee in the amount of \$5.75 and an additional 75¢ to cover the cost of furnishing a certified copy of the permit after it has been accepted and filed.

If the amount forwarded for certifying the copy for us is not sufficient, please bill this firm and it will be promptly paid.

Please return the original and the certified copy direct to this firm.

Very truly yours,

ANDERSON & BEEBE

FILE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF FWA TO BENEFICIAL USE.

NOTICE IS HEREBY GIVEN That 10 A. M., on the 29th day of August, 1958, at Blackfoot, County of Bingham, State of Idaho, before J Blaine Anderson, Notary Public, at 167 West Bridge Street, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26472, heretofore issued by the Department of Reclamation of the State of Idaho

1 The name and postoffice address of the person or corporation holding said permit are Carl L. Rowe, Pine-
grew, Idaho.

2 Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation and stock purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4 The point of diversion of said water is SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Twp. 4 N., Rge. 33, EBM.

5 The place where said water is used is NE $\frac{1}{4}$, Sec. 21, Twp. 4, S., Rge. 33, EBM.

State Reclamation Engineer,
Aug. 1, 8, 15, 22, 1958.

NOTICES

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

NOTICE IS HEREBY GIVEN That 10 A. M., on the 29th day of August, 1938, at Blackfoot, County of Bingham, State of Idaho, before J. Blaine Anderson, Notary Public, at 167 West Bridge Street, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26472 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Carl L. Howe, Pine-Tree, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation and stock purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is SE 1/4 NE 1/4, Sec. 21, Twp. 4 S., Rge. 33, EBM.

5. The place where said water is applied is NE 1/4, Sec. 21, Twp. 4, S., Rge. 33, EBM.

6. The date of priority which said water was prepared to establish is August 1, 1936.

GEO. N. CARTER,
State Reclamation Engineer.
