Mr. Jerry W. Brower
Route 4, Box 204
Blackfoot, Idaho 83221

Dear Mr. Brower:

The land included in your desert land petition-application I-2425 was previously classified as suitable for entry under the Desert Land Act.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. The attached extra copy of this letter should be submitted to the State Department of Reclamation at the time you apply for the permit. Unless they have knowledge that the land has been classified as suitable for desert land entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office. Please advise us when you apply for the permit.

The Idaho Falls District Office has recommended that reservations be made for public access and use. They recommend that one of the following reservations be made:

1. A right-of-way 33 feet on each side of the section lines. This will require your relocating the existing range roads to these locations. Or,
2. A right-of-way 66 feet wide along the existing range roads. The existing roads affect the following lands in your application:

T. 1 N., R. 34 E.,
sec. 26, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$

Please advise us which one of the above reservations will be acceptable to you.

We would appreciate receiving the copy of the water permit and your statement regarding the road reservation as soon as possible.
