I checked on the status of your water right permit. There is no problem with the permit. Staff from our Idaho Falls office made the required field examination and are now in the process of reviewing the permit. You should be receiving a license in the near future.

It was a pleasure to meet you at the recent Water Users Association meeting. I hope you found the program interesting and worthwhile.

Dear Mr. Schroeder:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Re: Permit No. 35-7173

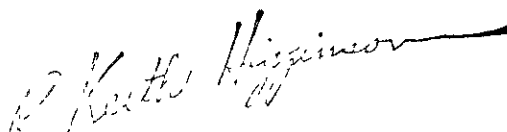

Armin Schroeder
American Falls,
Idaho 83211

Dear Mr. Schroeder:

One of the conditions of approval of your water Permit No. 35-7173 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

SUBJECT: Extension of Time - Permit No. 35-7173

DATE: September 21, 1971

I recommend that the extension of time be granted for Permit No. 35-7173. The applicant has made very good progress in the first five months that he has had the permit, and I believe he fully intends to develop the land. At the time he filed the permit he would have asked for five years had he not been incorrectly advised by Mel Brown Pump Company. The change in system type has resulted in increased expense over what the applicant originally expected, and he requires more time to finance and complete the development.
