Re: Formal protest against permit no. 78-12245

Dear Water Resource Board

We are writing this letter in formal protest against the approval of application for water rights being filed by Raymond K. Stoltey, permit no. 78-12245.

We have experienced years of an insufficient supply of water in Little Elk Creek, therefore creating a shortage of water. During the months of July, August, September, and part of October, Little Elk Creek becomes extremely low and at times has very little water, therefore does not sufficiently supply enough water. There are many homes already that have legal rights to water in Little Elk Creek. We use the water for in-house purposes as well as for irrigation purposes. This new applicant, if granted water would put an increased shortage on Little Elk Creek and cause an extreme hardship on parties already granted water rights.

It is also recommended by the U.S.F.S. that we keep a green corridor for fire protection, so described as the purpose for the application no. 78-12245.

Your consideration in this matter is appreciated.

Sincerely

Joel L. Chambliss *Joel L. Chambliss*
