RE: App For Permit 37-21742, Blaine County School District (Carey High School)

Dear Chuck;

Per your request, a copy of the corrected application and related maps are enclosed. The proposal is to use the existing fire-protection well at the high school to supplement their surface water. The old well about 1 mile NW of Carey will NOT be put back into service, but the supplemental groundwater right on the Danny Simpson farm south of Carey will be reduced by 20 acres to mitigate for the proposed permit. The School District has also agreed not to irrigate the full 20 acres until 2008 as additional mitigation. I am sending out the corrected application for signature today, and the file will go to Mary for advertising as soon as I get the signed app back from Jim Speck. Let me know if you need anything else.

Regards,

James E. Stanton
Sr. Water Resource Agent
