TO: Shelley Keen

SUBJECT: Assignments for 47-7700 and 47-7702

Please find attached the original assignments for these permits along with affidavit of residency and the receipt for payment of the assignment fees. I've been doing the SRBA review for the associated claims for these permits and requested that the current owner/operator file these assignments.

NOTE that I have not changed the ownership record for the permits. Please take care of this.

I started the FE for licensing but they have not provided the sufficient records or data to allow calculation of flows. I will continue to work on this.

Thanks!

Allen
