The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right

Permit No. **63-11540**

Name(s) of Permit Holder: **Joan Prigge**  
Mailing Address: **10712 Crusier Drive Boise, ID 83709**  
Date Proof is Due: **8/1/2006** Telephone No. **208-375-1853**

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

Two wells have been constructed and tested. The first well for the project is 6-inch diameter and 730 feet deep. It was test pumped at 0.45 cfs. The second well is 18-inch diameter and 1240 feet deep. It was test pumped at 3.3 cfs. A third well is planned to increase the diversion capacity up to the permitted rate. The irrigation system has been designed and is ready to be installed.

Costing: **>\$500,000**

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Deep drilling and rough drilling conditions have caused project delays. The first attempt at 18-inch well drilling was unsuccessful due to borehole collapse. The second attempt was successful, but construction was far behind schedule due to loss of equipment downhole and other problems. Delivery time of recommended pump is anticipated to be too late to meet schedule for 2006 irrigation season. Also, permit holder is waiting for approval of amendment application prior to installation of irrigation equipment.

Permit holder(s) request an extension to

**August 1, 2011**

FEE: \$50.00
