RE: Application for Permit

Dear Applicant:

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

Under Item 4, you requested .4 cfs (20 inches on 5 acres) for irrigation. Idaho Statutes limit the diversion rate to .02 (1 inch) per acre. If more is needed, you must show why.

The Ownership of point of diversion was not provided correctly. You stated IDWR owned the point of diversion under Item 11 a, but according to ownership records in the area, I could not find where IDWR owned anything. You also did not answer Item 11 c, regarding the landowner agreement.

The Fee was not provided correctly. There was **no fee included**.

The Map was not provided correctly. You provided a map upon which you'd written **this map indicates point of diversion (pod)**, yet there was nothing marked to indicate the pod on the map.

The Place of Use or acres irrigated was not provided correctly. Under Item 9, part b, you indicated **04** under the NWSW of Section 13, Township 10N, Range 18 E, yet you had 5.0 in the totals column to the right?

Please feel free to contact this office if you have any questions.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
