From: Shelley Keen *SWK*
Re: Domestic and Stockwater Use

Because of the significant public resources being expended to protect and enhance stream flows in the Lemhi River Basin, officials from IDFG, IDEQ, and IDWR's Planning Bureau expressed concern that this application would not be in the public interest unless it could be limited to 13,000 gallons per day and half an acre of irrigation. This afternoon I contacted Evelyn Carlson, who indicated that the limit would be acceptable.
