Subject: Basin 74 application for Permit

Shelley, Would you please call Tom Carlson (307-245-3322)? He has purchased property in Basin 74 and we recently notified him that his domestic claim (74-10148) will be disallowed because the priority date is 1973. The previous owner filed application 74-7387 for the spring, but it has not been assigned. He is in contact with the previous owner and can get an assignment, but has questions about the process. I thought it would be more effective to have him talk to you.

Thanks!

Roxanne Brown
