Re: Application to Appropriate Water no. 79-7247

Dear Applicant:

The records of the Idaho Department of Water Resources (the Department) show that you filed an application to appropriate water no. 79-7247 with the Department proposing diversion of water from a water source in the Salmon River Basin or the Clearwater River Basin. In April 1993, a moratorium order signed by the Director of the Department prohibited processing and approval of most new permits to appropriate water proposing to divert and use water from surface water sources in the Salmon River and Clearwater River Basins. In October 1999, a second moratorium order signed by the Director of the Department prohibited processing and approval of most new permits to appropriate water proposing to divert and use water from surface water and ground water sources within and upstream of designated wilderness areas in the Salmon River and Clearwater River Basins. Recently, the Director of the Department issued an order rescinding both moratoriums.

Enclosed is the order titled *Order Rescinding Salmon-Clearwater Basin Moratorium and Wilderness Moratorium*. The order directs Department staff to begin processing applications to appropriate water that were held during the moratoriums. Applications will be processed in the approximate order of the Department's receipt of the applications. A reasonable number of applications will be processed each month considering other duties assigned to Department staff. A document attached to the order titled "Statement of Available Procedures and Applicable Time Limits" explains possible actions you might take should you disagree with the order.

Because of the passage of time since you filed your application for permit to appropriate water, ownership of land, desire to use water, or other circumstances may have changed. **This letter requests that you inform the Department in writing, at the address in the letterhead, of your continuing interest in applying for a permit to appropriate water. This letter is a request for additional information under Idaho Code § 42-204. If the requested written statement of continuing interest is not received by the Department within thirty (30) days of the date of this letter, the Department will assume you are no longer interested in applying for a permit to appropriate water, and will void your application pursuant to**

FINDINGS OF FACT

Salmon - Clearwater Basin Moratorium

1. On May 15, 1992, the Director of the Department of Water Resources ("Director" or "Department") issued a *Moratorium Order* enjoining the processing of most applications to appropriate surface water sources within the Salmon and Clearwater River Basins. On April 30, 1993, the Director issued an *Amended Moratorium Order* ("Salmon - Clearwater Order"), again enjoining the processing of most applications to appropriate water.

2. The Salmon - Clearwater Order stated:

This moratorium shall be in effect on and after the date it is entered until withdrawn or modified by further order of the Director. A future decision to continue or rescind the moratorium will consider all efforts being made within the region toward the recovery of the salmon.

3. Since the issuance of the Salmon - Clearwater Order, significant efforts have been undertaken in the Salmon River and Clearwater River Basins for the recovery of salmon. These activities include:

- Protection of instream flows in streams and rivers to benefit anadromous fish habitat;
- A process for re-establishment of flows in dewatered anadromous fish streams by delivery of rented or acquired water rights to the dewatered reaches;
- Screening and control of irrigation diversions;
- Consolidation of irrigation diversions;

SCANNED

4/11/95

- Riparian habitat improvement projects; and
- Administration of water rights following creation of the Upper Salmon River Water District (creation anticipated at the end of 2005).

Wilderness Moratorium

4. On October 26, 1999, the Director issued a *Moratorium Order* ("Wilderness Order") enjoining further processing and development of pending applications and permits for the diversion and use of surface and ground water in and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church River of No Return Wilderness Area.

5. The Director issued the Wilderness Order in response to an Idaho Supreme Court decision titled *United States v. City of Challis*, 133 Idaho 525, 988 P.2d 1199 (1999). The *City of Challis* decision affirmed a 1997 Snake River Basin Adjudication (SRBA) District Court decision that the United States is entitled to reserved water rights to all unappropriated water within the Selway-Bitterroot, the Gospel-Hump, and the Frank Church River of No Return Wilderness areas. The Director determined the recognition of the federal reserved water rights to include all unappropriated water within and upstream of the wilderness areas.

6. The Wilderness Order affected all water permits and applications for permit for which proof of beneficial use had not been filed with the Department in the Salmon River Basin upstream from the location where the Salmon River leaves the Gospel-Hump Wilderness Area in Section 3, Township 24 North, Range 4 East, Boise Meridian, and in the Clearwater River Basin upstream from the location where the Selway River leaves the Selway-Bitterroot Wilderness in Section 7, Township 31 North, Range 10 East, Boise Meridian.

7. The Wilderness Order required all water permit holders to cease development authorized by the permits. Some permit holders submitted proof of beneficial use for the beneficial use completed as of the date of the Wilderness Order. Other permit holders ceased development, and the requirement for filing proof of beneficial use was stayed until the Wilderness Order was amended or lifted to allow additional development.

8. The Idaho Supreme Court granted a petition for rehearing of the *City of Challis* decision, and, on October 27, 2000, the Idaho Supreme Court issued another decision titled *Potlatch Corp. v. United States of America*, 134 Idaho 916, 12 P.3d 1260 (2000). The Court reversed its previous decision in *United States v. City of Challis* and held the Wilderness Act and associated wilderness designations did not create federal reserved water rights for the Frank Church River of No Return, the Selway-Bitterroot, and the Gospel-Hump Wilderness Areas.

Wild and Scenic Rivers

9. In the case of *Potlatch Corp. and Hecla Mining v. United States*, 134 Idaho 912, 12 P.3d 1256 (2000), the Idaho Supreme Court determined that federal designation of Wild and Scenic Rivers in Idaho reserved water rights for the federal government to satisfy the intent of the designation. The Idaho Supreme Court remanded the case to the SRBA District Court for quantification of the reserved water rights for the Wild and Scenic Rivers.

10. On November 16, 2004, the SRBA District Court entered an Amended Order Approving Stipulation and Entry of Partial Decrees in SRBA Case No. 39576 (Consolidated Subcase No. 75-13316 Wild & Scenic Act Claims). The amended order and the associated partial decrees define federal reserved water rights nos. 75-13316, 77-11941, 77-13844, 78-11961, 81-10472, 81-10513, and 81-10625 in Wild and Scenic Rivers in the Salmon and Clearwater River basins. A stipulated agreement (hereafter referred to as the "Wild & Scenic Agreement") between the United States and parties to the original subcases prior to consolidation forms the framework for the partial decrees issued by the SRBA District Court. The Wild & Scenic Agreement and the partial decrees defining the federal reserved water rights set forth subordination provisions under which the federal reserved water rights are subordinate to other existing and future water rights, describe limitations on appropriation and beneficial use under existing and future water rights to which the federal reserved water rights are subordinate, and provide specific requirements for the administration of water rights within the Salmon and Clearwater River basins.

CONCLUSIONS OF LAW

1. In issuing the Salmon - Clearwater Order and the Wilderness Order, the Director relied on Idaho Code § 42-1805(7). The subsection grants the Director the authority:

After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of the minimum flow provisions of the state water plan.

2. The Salmon - Clearwater Order was issued after the Director found and concluded that further appropriations of surface water at the time would not be in the local public interest and would not be consistent with conservation of the waters of the State of Idaho.

3. Enhancements to streamflows, other improvements to anadromous fish habitat, the execution of the Wild & Scenic Rivers Agreement, and the determination of related federal reserved water rights, have addressed the underlying basis upon which the *Amended Moratorium Order* was issued.

4. The prohibition of new water right appropriations by the Director's Salmon – Clearwater Order dated April 30, 1993, can be rescinded and processing of applications to appropriate surface water in the Salmon River and Clearwater River Basins can be allowed.

5. The Wilderness Order was issued following the initial Idaho Supreme Court decision of *United States v. City of Challis*, 133 Idaho 525, 988 P.2d 1199 (1999). Based on the Court's decision, the Director determined there was no additional water available for appropriation. Upon reconsideration, the subsequent Idaho Supreme Court decision, *Potlatch Corp. v. United States of America*, 134 Idaho 916, 12 P.3d 1260 (2000), determined that the wilderness designations did not reserve water rights for the wilderness. As a result of the latest Supreme Court decision in *Potlatch*, the Wild and Scenic Rivers Agreement, and related federal reserved water rights, there is additional water available for appropriation within the limitations described by the Wild & Scenic Agreement and the partial decrees for related federal reserved water rights.

6. The prohibition of new water right appropriations and development authorized by permits to appropriate water by the Director's Wilderness Order dated October 26, 1999, can be rescinded and processing of applications to appropriate water and continued development authorized under existing permits to appropriate water can be allowed.

7. Permit holders who were prohibited from completing application of water for the beneficial use authorized under existing permits are entitled to additional time to complete application of water for beneficial use. For each permit, the additional time granted for completing development should be equal to the number of days from the date the Wilderness Order was issued to the date proof of beneficial use was originally due under the permit. The Department should issue an order subsequent to this order establishing the additional time to complete development delayed by the Wilderness Order and specifying the revised date for filing proof of beneficial use for each permit.

ORDER

IT IS HEREBY ORDERED that the *Amended Moratorium Order*, issued on April 30, 1993, prohibiting appropriations of surface water in the Salmon and Clearwater River Basins, is **RESCINDED**.

IT IS FURTHER ORDERED that the *Moratorium Order*, issued on October 26, 1999, prohibiting appropriations of surface and ground water and development of permits for the use of surface water or ground water in and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church River of No Return Wilderness Areas, is **RESCINDED**.

IT IS FURTHER ORDERED that permit holders who were prohibited from completing beneficial use of water authorized under existing permits by the *Moratorium Order* issued on October 26, 1999, are granted additional time for completing the beneficial use authorized. For

each permit, the additional time granted for completing development shall be equal to the number of days from the date the Wilderness Order was issued to the date proof of beneficial use was originally due for the permit. The Department shall issue an order subsequent to this order allowing additional time for completion of beneficial use delayed by the Wilderness Order and specifying a date for filing proof of beneficial use for each permit.

IT IS FURTHER ORDERED that appropriations of ground water and surface water within the Salmon River Basin may resume subject to the requirements of the Wild and Scenic Agreement and the federal reserved water rights decreed in accordance with that stipulated agreement.

IT IS FURTHER ORDERED that Department staff shall process new applications to appropriate water generally in the chronological order of the receipt of the applications. Department staff shall also process a reasonable number of applications per month considering all other duties assigned to Department staff.

Dated this 9th day of November, 2005.

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', is written over a horizontal line.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
FINAL ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 740.02)

The accompanying order is a "Final Order" issued by the department pursuant to section 67-5246, Idaho Code.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of this order as shown on the certificate of service. **Note: The petition must be received by the Department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5246(4), Idaho Code.

REQUEST FOR HEARING

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person who is aggrieved by the action of the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the action. The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. See section 42-1701A(3), Idaho Code. **Note: The request must be received by the Department within this fifteen (15) day period.**

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of: a) the service date of the final order, b) an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 21st day of November, 2005, a true and correct copy of the above and foregoing documents described below were served on the following by placing a copy of the same in the United States mail, postage prepaid and properly addressed to the following:

RE: Application for Permit #79-7247 – Irrigation

Dear Sirs,

I would like my application to continue to be held in hopes of eventually developing the project as identified.

I feel that the extinction of species is a natural and ongoing part of the process of evolution with which we should not be interfering. We are all endangered species.

Sincerely,

RE: Application for Permit #79-7247— Irrigation
Filed: January 1997

Dear Applicant:

The Department is in the process of reviewing and updating applications that have been held without action for an extended period, application copy attached. The last written communication regarding your application was in 1997.

In 1993, the Department limited approval of new water rights in the Salmon River drainage by issuing an Amended Moratorium Order. The order prohibited approval of most new water applications proposing diversion of surface water in the Salmon drainage. Applications that propose domestic/nonconsumptive use and that will have no effect on migration of anadromous fish are allowed consideration. During 1999, a more restrictive Moratorium Order was also issued by the Department Director in the Wilderness Wild & Scenic Rivers areas within the Salmon River basin. The order prohibits new consumptive uses, and appropriations that effect other water rights including reserved Federal rights. At present, both orders remain in effect.

If you still plan to develop the project as identified, and wish the application continued to be held, please advise this office of your intentions, **OR** sign and return the enclosed application withdrawal if the project is going to be abandon. Please respond **by January 15, 2005**. If no response is received, the Department will consider voiding the application pursuant to Idaho Code §42-204.

Should you have any questions please contact me at the Western Regional Office, 334-2190.

Sincerely,

RE: Application for Permit

Dear Applicant:

Your application for permit to appropriate the waters of Whitebird Creek tributary to the Salmon River for irrigation was received on 08/27/1996. Your application cannot be processed at this time.

To aid in the recovery of native anadromous fish species, and to protect fishery habitat conditions, the Director of this agency declared a moratorium for the Salmon and Clearwater River Basins on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. Irrigation is considered a consumptive use.

This office will hold your current application pending future decisions on the moratorium, and will inform you of any changes. Delays related to department decisions do not affect the date of priority or seniority of your application, once established.

If you have any questions, please feel free to contact me at 334-2190.

Sincerely,
