

Memorandum
Telephone Conference

File: City of Mtn Home—Transfer #72128

Date: 5/15/06

From: J. Westra JFW

Parties: Jay Friedly, John Simpson Attorneys

RE: Status of Contested Case

The conference call began with attorneys discussing the case status and next action. Mr. Friedly felt that a hearing date is needed to keep the protest process moving. The protestants had met with the city council last week. Council members will take their concerns under consideration, but there was no settlements. Mr. Simpson felt that scheduling a hearing was premature. The ground water model that Mr. Brockway was working on was not complete. Protestants would need to evaluate the findings; possibly retain a hydrologist if desired. Mr. Friedly stated, the city would gladly forward the information/findings to the protestants, but the city was not responsible for the protestant's case/information timelines. Mr. Friedly felt the model would be ready in the next couple of weeks, he will check with Mr. Brockway on the model's status.

-It was agreed a tentative hearing date would be August 1, 2, 3,

-Another conference call would be conducted on Jun 12@ 9:00 AM to discuss the model operation/status.

— Forwarded tentative hearing dates
