

MEMORANDUM

TO: MOUNTAIN HOME TRANSFER FILE 72128

FROM: DANIEL A. NELSON

DATE: 6/6/06

SUBJECT: TRANSFER CONDITIONS

I was asked by Steve Lester to take over the Transfer file for Sharla Curtis. The transfer was becoming more involved requiring more administrative and applicant contact than was possible for Ms. Curtis, since Ms. Curtis is employed on a part time basis. Ms. Curtis did an excellent job of reviewing the transfer, and I do not feel it is necessary to change or alter her review of the transfer.

The main purpose for me to be called in was to work with the State Office staff to create new conditions based on the irrigation plan supplied by Charles Brockway for the applicant. After an attempt to create conditions by myself didn't fit the needs of the transfer, we decided to have a meeting to discuss the situation, and a set of conditions were compiled that were deemed sufficient by the State Office staff and myself. The conditions have been added to the draft approval, and once final approval from the State Office staff is received, the application will be advertised.
