

MEMORANDUM

TO: Transfer No. 72779

FROM: Sharla Curtis

DATE: May 9, 2006

RE: Evaluation of Sufficiency of Information Submitted

The purpose of the transfer is to clarify a post-1987 change already in place (own pump in river). The 10-acre tract pod description is the same as recommended but the transfer was filed to reflect the owners' own pump, not the shared pump as currently recommended. No advertising will be required for this transfer application.

Authority to File: Applicants are the owners of record.

Water Right Validity: Right presumed to be valid; recommended in SRBA as licensed - 2004 NAIP photography confirms irrigation.

Injury to Other Water Rights: None anticipated.

Enlargement of Use: No enlargement will occur.

Local Public Interest: No negative impacts are anticipated.

Beneficial Use/Conservation of Water Resources: Applicants propose beneficial use consistent with conservation of water resources in Idaho.

Review of the application finds there is no clear inconsistency with criteria of I. C. § 42-222 preventing processing of the application.

Assuming other information does not contradict the above analysis, and assuming it is determined the application should be approved, the conditions of approval listed on the draft transfer approval should be applied.
