Dear Mr. Reese:

Re: Permit No. 21-7345

Enclosed is a copy of the order removing the measuring device requirement for this permit. The order is conditioned such that the director maintains jurisdiction for possible requiring a device in the future.

As a reminder, note condition #5 on your water right permit. Your permit is conditioned to require you to obtain storage water to compensate for your diversion of natural flow. The amount of storage which you will be required to obtain is approximately 3 acre-feet per acre of irrigated ground. You will be notified when it becomes necessary to obtain storage water.

The department received the proof of beneficial use form. The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Eastern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

Dear Mr. Spackman:

Enclosed is our completed form 217, "Proof of Beneficial Use."
Also enclosed are several pictures of the Island Park Village Resort
Golf Course. This is a 9 hole golf course and has been in use now
for 15 years.

Per our phone conversation regarding our request to waive the
requirement to install a measuring device and lockable controlling
works to control the rate of diversion, I have enclosed pictures of
the lake that is fed by springs and drainage ditches, all of which
originates on the golf course, and pictures of the inflow pipe,
cistern, pump house arrangements, etc.

*no pictures
enclosed*

There is no outflow from this lake except during spring run-off.

Because of the origination of the water and the method of
diversion to the golf course it is very difficult, and we feel some
what unnecessary, to install such devices. Therefore we request a
waiver of this requirement.

If we can be of assistance in any way or cooperate in a field
inspection if one is necessary, don't hesitate to let me know. Our
full cooperation can be expected.

I have reviewed Application for Permit No. 21-7345 and have the following comments objections to the approval of this application for permit:

I doubt that there is sufficient
unappropriated water to irrigate
the described 45 acres. The

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Herald Chronicle. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: Water Diverted to Beneficial Use Prior to October 1, 1984

As one of three general partners involved in the development and operation of Island Park Village, and as the Engineer who Engineered the development of Island Park Village, I can testify that prior to October 1, 1984, water was diverted and put to beneficial use at the source noted in Permit No. 21-7345.

The water is being used to water the golf course, which has been in operation many years.

RE: Application for Permit No. 21-7345

Island Park Village
P.O. Box 12
Star Route
Macks Inn, Idaho 83433

Dear Applicant:

In October of 1984, Idaho Power Company and the State of Idaho signed an agreement stating the Company's water rights would be subordinated to those persons who beneficially used water prior to October 1, 1984, and who filed an application or claim for said use by June 30, 1985.

To insure proper consideration of your application pursuant to the above agreement, follow the directions on the enclosed form and return it to this office when completed. For your benefit in identifying the point of diversion and place of use, included on the form is a description of the major items contained on the application.

Your cooperation in returning the completed form and supplemental documentation will expedite future administrative action on your application when processing of applications above Swan Falls resumes.

Respectfully submitted,

ERNEST CARLSEN
Assistant Regional Supervisor
