RE: PERMIT NOS. 21-7323, 7324, 7325, 7326, 7330, 7331, 7332, 7333, 7334, 7365.

Dear Mr. Widmann:

I am in receipt of your letter of August 21, 1990 concerning the above referenced permits. I will try to answer each of your question in the order as they were listed in your letter.

The rate of flow and volume listed on the license are parameters that identify limits to the extent that water can be diverted under each license. The quantities used are reflective of the diversion found in place at the time of an on site examination made by a department employee. The examinations were conducted on July 20, 1989 for all of the permits identified above. For example, the examination report on permit 21-7323 shows that a one horsepower pump was installed to supply water to sixteen lots. The examiner noted that only two homes were presently constructed and using water. Even though not all of the lots have houses constructed 16 lots were stubbed in to receive water supply from the well, therefore, the license that will include be issued for this permit will all sixteen lots. The rate of flow listed on the license identifies the estimated discharge capacity of the well installed and the volume listed on the license will reflect the requirements of the sixteen units even though only two are currently constructed. There is no further requirement on your part for adding the new homes on to the license as the construction of the remaining fourteen units are completed.

During a subsequent review of the above identified permits I discovered a mistake on all of the permits that caused the examiner's recommendations to be less than what was intended when the application for permits were filed. On the permit under item 8. (4) it asks for "Name of municipality to be served, or number of families to be supplied with domestic water." On each of the permits the number listed was the number of homes actually constructed at the time when the applications were filed. In looking at the subdivision maps which had the lots outlined that were to be supplied water from the well, it is obvious that all of the lots identified were intended to be included on the permit. Adjustments to the proposed licenses have been made.

MICROFILMED

AUG 24 1990

There seems to be some confusion on the permits that were filed by Pinehaven Planning Board, claims that have been filed under the Snake River Adjudication, wells being licensed, and proof of beneficial use being accomplished. I can understand this, it is confusing. I will address each one as listed.

1. The permits and claims both identify the wells designated to the lots within the subdivision. The claims filed refer to the permits filed. Since the permits are not yet licensed the items identified within the claims may later be changed to reflect the findings of the examination of the water developed under each of the permits filed.

2. The wells are not licensed at this time. This is what we are attempting to do now.

3. The claims filed in reference to the permits may be changed based upon actual water used as described above.

4. Proof of beneficial use has been filed (on the permits) and licenses will be issued based upon the examiner's findings and recommendations, not based upon statements made in the proof beneficial use if there are discrepancies. You will have an opportunity to resolve differences.

As to the uniqueness of Pinehaven Subdivision to other communities I don't believe that your situation presents any special problems that cannot be resolved. In filing the applications for permits it is obvious that there was a desire to only identify the lots served by a particular well. This action simplifies identifying obligations for meeting operating and maintenance expenses of the water system. Each community is organized in some similar fashion. In incorporated cities public water needs are supplied through municipal systems. It is true that municipal systems receive some "preferred" treatment under Idaho Water Laws but the cities are still required to file appropriate water rights. They are not required to file a new water right when the service area is increased but they are required to file when the capacity of the system is increased. The Pinehaven lot owners, in each of the identified water rights, will be covered by the licenses when issued even though the homes may not yet be constructed no additional water right filings will be required unless changes are made to increase the capacity of the existing diversions.

I hope that the above answers all of your questions and that you are satisfied with the adjustments made to the permits. If you have any remaining questions you can call me at Ph. 327-7947.

Sincerely,

JTM JOHNSON
Water Rights Supervisor

Attn: Mr. Jim Johnson

We are in receipt of your letters dated August 9th and 10th regarding draft copies of licenses proposed to be issued on certain permits.

We have difficulty understanding how the " rate of diversion " and the " maximum diversion volume " were derived and how these data relate to the real situation in our community. We are also deeply concerned how the licenses affect our property owners who have not yet constructed their homes.

Attached is a brief synopsis of the development of Pinehaven and North Pinehaven to help you understand the peculiarities of our situation. This synopsis shows that Pinehaven was platted starting in 1963 and North Pinehaven was platted in 1971 therefore these are not new developments. Since these plats were recorded the community has not acquired new land nor have new lots been added.

It appears that the problem you are having is that you do not recognize some basic facts:

- a. our property owners have wells designed to provide water to their properties,
- b. the wells are licensed,
- c. claims for water rights have been filed for all lots,
- d. proof of beneficial use has been accomplished.

Perhaps we are an unusual situation-a community in being without a completed water system. We note, however, that a town like St. Anthony does not have all the lots " stubbed-in " and is not required to obtain a new license if a new home is constructed and connected to the water system. How is Pinehaven different from this ?

In summary, we feel that the proposed licenses are incorrect in that they do not recognize the rights of our property owners who have not yet constructed homes. The priority date of Water Right for each well is the date of first beneficial use (page 2 of Notice of Claim to a Water Right, Item 2.). The priority date for each lot is also that same date. The quantity of water authorized by the license should be sufficient for the domestic use of each property owner serviced by the well regardless of the fact that a house has been constructed or not.

We request that you take action to correct the discrepancy shown on the enclosed draft copies; each copy has been corrected to show the number of lots serviced.

Synopsis of Development:

Pinehaven:

1. Originally platted and recorded 8 July 1963 (Subdivision 1).
2. Subsequent subdivisions recorded Nov. 14 1963, May 9 1967, Feb 23 1971.
3. The original developers, North Fork Development Corp., installed wells on the basis of one well per block.
4. Total wells 12; total lots 176 plus 4 private wells for 8 lots.
5. Purchasers of lots were informed that water was available for each lot, but the pipelines were not installed by the developers. The responsibility for installing pipelines was left to the property owners either singly or in concert.
6. Each well house contains installed outlet valves for pipelines to the serviced lots.
7. Beneficial use of the wells commenced as follows:

Well	License	Date of Beneficial Use:
1.	07330	1965
" 2.	" 07331	" " " : 1968
" 3.	" 07332	" " " : 1966

North Pinehaven:

1. Originally platted and recorded 30 June 1971-3 subdivisions.
2. The original developers, North Pinehaven Development Corp., installed 5 wells and an interconnected pipeline servicing the entire area. Total lots 175 plus 2 private wells servicing 2 lots.
3. Purchasers of lots were told that water was available at each lot, but the developers did not stub-in the water line leaving that to the property owner.
4. Beneficial use of the wells commenced as follows:

Well NP 1, 2, and 5	License 07329	Beneficial Use: 1969
Well NP 3	" 07366	" " " : 1969*
Well NP 4	" 07367	" " " : 1969*

Mr Johnson:

Thanks for your call this AM (21 Aug 1990).
You have cleared up some of our worries!

One thing we did not discuss:

If and when new homes are constructed
should we report these as changes to our
Notice of claim to a water right? We
have been doing this as a change to
Item 14, Remarks.

Also when property (homes only) changes
land we have been reporting these
changes to Item 14, Remarks. Is this
necessary?

If we consider the water right "going with the land"

claim!

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.
(2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

Re: Applications #21-7323
through #21-7334
(Fremont County)

Dear Mr. Carlsen:

We have reviewed the subject applications submitted by Pinehaven Planning Board, P.O. Box 58, Island Park, Idaho, for permits to appropriate the public waters of the State of Idaho.

As these wells have been in existence, and use, for 14-19 years, we have no comments regarding granting approval for water appropriation at this time.

Thank you for the opportunity to review these applications.

Sincerely,

Mark Torf
