MAR 30 1989

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT
NO. 21-7305 IN THE NAME
OF LAYNE OR DELL MILLER

ORDER

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On October 28, 1982, the Director of the Department of Water Resources issued Permit No. 21-7305 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before November 1, 1983.

2. On August 1, 1983 the Department sent a proof due notice to the permit holder.

3. On November 4, 1983 the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On March 26, 1987 Proof of Beneficial Use was received by the Department from the permit holder.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

MICROFILMED

AUG 17 1987

6. The permit holder submitted a memo and a letter from a Department field examiner stating that while conducting a field examination on August 26, 1982 for adjoining property, he discovered irrigation of approximately 77 acres that was not covered under any water right. The system was complete and Permit No. 21-7305 was prepared in the field based on the observed extent of beneficial use.

7. The permit holder stated that he did not receive the notices of the Department because of vandalism to his mail box.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which clearly establish that water was in fact beneficially used on 77 acres prior to the proof due date.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

4. Section 42-217, Idaho Code, states that those who have submitted proof of beneficial use for which a field examination has not been conducted must pay an examination fee within 60 days of notice that the fee is due.

ORDER

IT IS HEREBY ORDERED that Permit No. 21-7305 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to March 26, 1987.

MAILED

AUG 17 1987

IT IS FURTHER ORDERED that the permit holder must submit within 60 days of the date of this Order, an examination fee as required under Section 42-217 and Section 42-221, Idaho Code.

Dated this 23rd day of July, 1987.

RE: CHANGES TO FIELD EXAM RECOMMENDATIONS

DATE: 24-JAN-1989

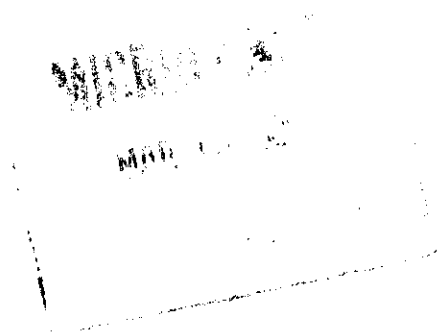

This right seeks to supplement beneficial use already licensed under right # 21-7138.

Right #21-7138 is for 2.4 cfs for 120 acres, or .02 cfs per acre, with a diversion capacity of 3.32 cfs.

Right #21-7305 seeks to irrigate 63 new acres from the same point of diversion, with the same diversion capacity.

These 63 new acres should be licensed at the same rate as the old acres, 1.26 cfs, or .02 cfs per acre.

Since the combination of these two rights can now exceed the diversion capacity, condition R-17 (3.32 cfs) should be imposed.

THIS RIGHT IS EXEMPT FROM SWAN FALLS PROCESSING.

On August 26,1982, Keith Wilson completed a field exam on Permit #21-7138 in the name of Layne and Dell Miller. During the course of this exam he noted additional irrigated acreage under the same system and aided the Millers in filing this right, #21-7305. Right #21-7138 was subsequently licensed.

This permit is exempt from processing because the system involved was developed prior to 7/1/85.

Dear Sirs:

On August 26, 1982, Keith C. Wilson from your Department completed the examination on 21-7138. At that time he informed me that the additional irrigated acres needed to have a water right. He assisted in filling out the new application and on August 30, 1982, we submitted application 21-7305.

I understand that on August 31, 1983, a proof due notice was sent to me, and on November 4, 1983, the lapse notice was also sent for 21-7305. My records do not indicate that we received any of the notices. I am sure I would have responded, but I believe that we may not have gotten the mail because of vandalism of our mail box. The vandalism has been an on-going problem. I do remember signing a proof of beneficial use card that Mr. Rumsey brought to my camp but I'm not sure for what permit.

I would like to have lapsed permit 21-7305 reinstated. Mr. Wilson has informed me that he will send a signed statement that he observed on August 26, 1982, the system in place and irrigating the land under this permit. Your cooperation will be appreciated.

Sincerely,

Permit No. 21-7305

Proof due: 11/1/83
Proof submitted: 3/26/87
Proof letter sent: 8/1/83
Lapse letter sent: 11/4/83 /

Supporting documentation received:

Memo from Keith Wilson stating that during the field examination of 21-7138, he noticed approximately 77 adjoining acres being irrigated under a completed system which led to the filing of this water right to cover those acres. ✓

Letter from Keith to Mr. Miller explaining the above situation and giving notice that reinstatement was possible. ✓

Reason for submitting proof in an untimely manner:

A recurring problem of vandalism with regards to the mail box, proof due notice and lapse notice were not received. ✓

If reinstatement is allowed, an examination fee will have to be requested. ✓

RE: Lapsed Permit 21-7305

Dear Mr Miller:

On August 26, 1982 I conducted a water right exam for license 21-7138 and found approximately 77 acres under the system without a water right. On August 30, 1982 you submitted an application for permit (21-7305) for the additional ground. The application for permit was approved with proof of beneficial use due November 1, 1983. No proof was submitted and the permit was lapsed on May 31, 1984.

If you would like to reinstate the permit please contact me so that we can discuss the reinstatement procedure. For your convenience enclosed are copies of lapsed permit 21-7305 and the field exam for 21-7138.
