NAME OF PARTY John Osborn (U.S.F.S.)

EMPLOYEE Ernest Carlsen *EMC*

RE: In reviewing those applications received from the USFS on 12/11/1980, it appeared the intent was to file for storage of snow melt. In discussing this matter with Mr. Osborn it was apparent these would be off stream storage reservoirs, but there was no diversion from an active stream making it impossible to define a diversion to storage parameter. It was therefore agreed the applications would be modified as follows using the designations for on-stream storage with no direct flow:

0.20 AF storage for stockwater	Jan. 1 to Dec. 31
--------------------------------	-------------------

0.20 AF stockwater from storage	Jan. 1 to Dec. 31
---------------------------------	-------------------

NOTE: These changes are in compliance with Administrative Memorandum dated June 1, 1978.
