Re: North Side Dairy Meter and Transfer

Dear Mrs. Yenter,

On November 8, 2005 you requested a flow meter to be replaced by a Magnetic-type flow meter. Also you requested recording of the new flow meter for 60 days.

North Side Dairy has installed at your request a new Mag- meter for recording the usage of water for their facilities. As you know I have collected the records of the reading as to your request. My last reading as I informed you on February 8, 2006 which would full fill your 60 day requirement. We fill at this time the transfer we submitted to the Dept. of Water Res. (to add additional well to our new facilities) should continue to be processed and no longer be held up for any further delay.

If you need any further information or explanation of the operation of the facilities please contact me.

Sincerely Yours

Gary L. Funderburg

Cc: John Wagner North Side Dairy
