To: Shelley Keen
From: Roxanne Brown
Subject: BLM Requests for License Amendments
Basin 43

This memo considers the requests for license amendments on the following water rights: 43-7207, 43-7267, 43-7273 and 43-7284.

43-7207

This water right for a small reservoir was licensed in accordance with a Permit approved June 14, 1985. The point of diversion and place of use were described in both the Permit and License as the SESW, T16S, R25E, S21.

The BLM has determined, using GPS data, that the point of diversion is correct. However, the place of use in the small reservoir developed under the right would more accurately be described by including the NESW in that same township, range and section. GPS data supplied by the BLM supports this conclusion (see both the enclosed aerial photo map and attached CD).

43-7267

This water right for an unnamed spring was licensed in accordance with a Permit approved July 1, 1986. The point of diversion and place of use were described in both the Permit and License as the SWSE, T13S, R25E, S35.

The BLM has determined, using GPS data, that the point of diversion and place of use are incorrect. The point of diversion would be accurately described in the SESESW and the place of use would be accurately described in the SESW, T13S, R25E, S35. GPS data supplied by the BLM supports this conclusion (see both the enclosed aerial photo map and attached CD).

43-7273

This water right for an unnamed spring was licensed in accordance with a Permit approved August 11, 1986. The point of diversion and place of use were described in both the Permit and License as the SWSE, T12S, R26E, S18.

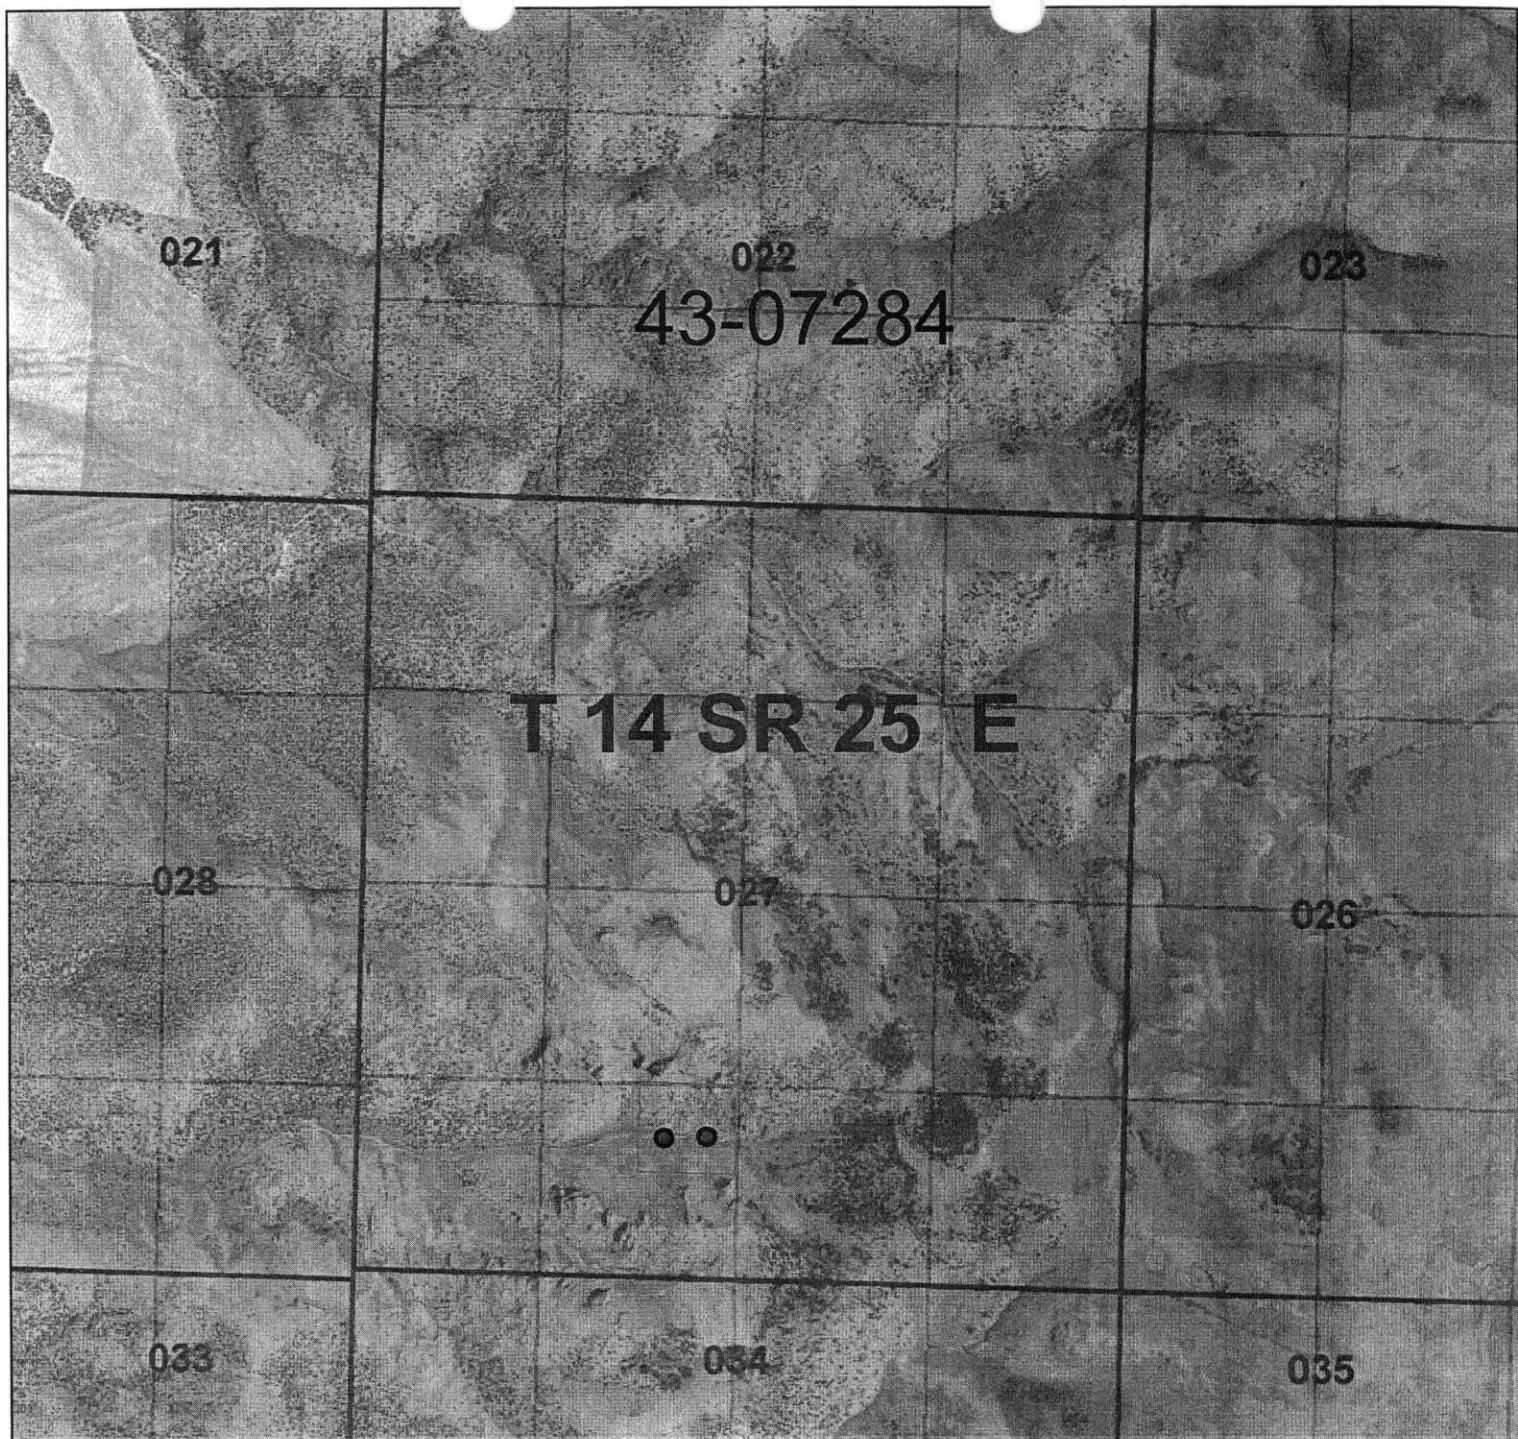

The BLM has determined, using GPS data, that the point of diversion and place of use are incorrect. The point of diversion would be accurately described in the SWSESW and the place of use would be accurately described in the SESW, T12S, R26E, S18. GPS data supplied by the BLM supports this conclusion (see both the enclosed aerial photo map and attached CD).

43-7284

This water right for an unnamed spring was licensed in accordance with a Permit approved September 22, 1987. The point of diversion and place of use were described in both the Permit and License as the SWSE, T14S, R25E, S27.

The BLM has determined, using GPS data, that the point of diversion and place of use are incorrect. The point of diversion would be accurately described in the NESESW, and the place of use would be accurately described in the SESW, T14S R25E, S27. GPS data supplied by the BLM supports this conclusion (see both the enclosed aerial photo map and attached CD).
