Re: Water Right Application #75-14265

Dear Bill,

The Idaho Fish and Game Department has reviewed your application for water withdrawal from the main Salmon River to irrigate a 3 acre parcel near Cabin Creek. The Department believes that your application will not negatively impact fish or aquatic resources and is not opposed to the project. However, we request that if your application is approved, you contact the Idaho Anadromous Fish Screen Program (756-6022) so that your pump can be properly screened to prevent entrainment of juvenile fish into your water system.

Thank you for the opportunity to review this proposal and comment.

Sincerely,

A handwritten signature in cursive script that reads "James R. Lukens".
