63-32262

1. scurtis 3/7/2006 Legal Notice Remarks

Comment: Water bearing zone to be appropriated is from 200 to 400 feet.

Domestic use is for 24 homes in Northstar Subdivision.

2. Igraves 3/7/2006 Comment/Analysis

Comment: The application indicates that external domestic use will be supplied from SRBA claim 63-31400, which is a split of ground water license 63-3209. Department records show that right 63-3209 was fully licensed for ground water irrigation on the property that the subdivision has been proposed. Applicant plans to install a pressurized irrigation system on the licensed well located in the SWNW for irrigation of the subdivision lawn and common areas. Additional licensed acres that will be retired from irrigation due to development will be placed in the water supply bank, transferred or sold. Applicant stated that the ground water is the primary irrigation source and that surface water is not used or available. No other rights are used.

A new well is proposed for internal domestic use that will utilize a separate system from the irrigation system. The flow rate proposed is based on department standards.

Applicant is registered with the IDSOS, no. C54488. Jim Carrie signed the application and is listed as president per IDSOS records.
