PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 17-07141 Telephone No. (208) 766-4766
FA# -208-766-4087
2. Name(s) of Permit Holder(s): Bureau of Land Management
3. Mailing Address: 138 South Main Street Malad, Idaho 83252
4. Source of Water: spring If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____
- a. Well Driller: _____ Drilling Permit Number: _____ - _____ - _____ - _____
- b. OPTIONAL:
Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____
5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): 1,000 cattle 2,800 sheep
Irrigation (No. of acres): _____ Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: .02 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
- Measuring Device: Is a measuring device required? Yes _____ or No /
Has the measuring device been installed? Yes _____ or No _____
- Flow Measurement Port: Is a flow measurement port required? Yes _____ or No /
Has the measurement port been installed? Yes _____ or No _____
8. Fee Enclosed: \$ 5000 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: Dana Larsen, Range Management Specialist Telephone Number: (208) 766-4766
Address: 138 South Main Street Malad, ID 83252
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

RE: WATER RIGHT NO. 17-07141

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Kari Lynn Townsend
Secretary

MICROFILMED
NOV 07 2005

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Telecon

On this date, Mr. Rendace from BLM called me in response to my recent letter. The confusion I expressed in my letter was cause for him to question if the two of us had been dealing with the same project. When I read the legal descriptions to him, he realized that this project was for the Wood Canyon Spring area, which has been developed. All this while in other telephone conversations and letters from him, he thought the project involved was B H Anderson Spring.

This being the case, he asked that we send another amendment form so they can double-check the information we've proposed for licensing and can take the necessary action. I will also send a copy of the original permit so he will be able to compare the permitted information with the license recommendations.

6/21 - Matt's still working on verifying info - call up in 30 days

RE: Permit No. 17-07141

Dear Matt:

Thank you for your recent letter concerning the project associated with water right Permit No. 17-07141. Your letter indicates that a recent decision was issued which included construction of the pipeline which had been put on hold and that the project has been rescheduled for next year.

I'm a little confused now because when our examiner made his field inspection in June of 1995, he indicated the water delivery system being used under this permit consisted of an extensive piping system from the spring water collection point to numerous stock watering tanks. His report included photos of a couple of the stock tanks and one showing a collection tank and pipeline. Is the "pipeline" to be re-constructed or did our examiner misinterpret what he saw or am I missing something altogether? Could you please help me make sense of this - at your convenience, there's no big rush. Once I receive an explanation, I'll be in a much better position to determine what we need to do with this file at this point. It may be as simple as returning it to the shelves for call-up in a year or so. I look forward to hearing from you.

Sincerely,

Sharla Curtis
Sr. Water Resource Agent

P.O. Box 83720
Boise, ID 83720-0098

Dear Kari Lynn:

This letter is in reference to Water Permit # 17-07141.

This project, known as D.H. Anderson Pipe Line has been somewhat controversial. Therefore, BLM had asked IDWR for a delay so a standards and guidelines assessment could be completed to determine whether the pipe line was justified. This process was completed this year and the Field Office Manager issued a decision which included construction of this pipe line.

The decision was appealed and stayed by a special interest group, therefore, the construction of the pipeline was put on hold until the Administrative Law Judge made his ruling on the stay.

BLM was notified on May 16 that the stay was denied. However, due to the late notification, BLM had to move on to other projects. This project has been rescheduled for next year (FY 2001).

If there are any other questions, give me a call at 766-4766 or 478-6340.

Sincerely,

Matt Rendace, RMS

RE: Permit No. 17-07141

Dear Mr. Redace:

I am writing to you for an update concerning the above referenced permit. The last item we have filed in the water right file is a memo based on a conversation that Roberta Loveall of this department had with you back in March. At that time you told Roberta that a Standards and Guidelines Assessment was being prepared to justify the pipeline through the area identified in this permit. You indicated that the assessment needed to be completed before you could move forward with action in regards to the water right permit.

Has the assessment been completed? Should the water right be relinquished or are you ready to proceed with licensing? If licensing can proceed, an amendment of the permit is required as stated in our letter of 5/11/98 (copy enclosed). I have enclosed another amendment application for this purpose in case the original has been misplaced. If you have any questions or if you have information to pass along as an update, please give me a call at 327-5452. If I haven't received the amendment or heard from you within 30 days, I will contact you for an update.

Sincerely,

A handwritten signature in cursive script that reads 'Sharla Curtis'.

MEMORANDUM

DATE: March 3, 1999
TO: File 17-07141
FROM: Roberta Loveall
SUBJECT: Conversation with Matt Redace

Matt says that they are preparing a Standards and Guidelines Assessment to justify their pipeline through that area. The field work has all been collected but the report needs to be written yet. The report needs to be completed before they can advance with the water right. He says that they will relinquish the right if they have to and will reapply at a later date.

FROM: Roberta Loveall
RE: Telephonic update from Matt Redace

Matt Redace returned my phone call this date and advised that they are still working on the relinquishment of this water right. However, it has been suggested by BLM that they may keep the well only for extreme emergencies..that is, if they can get an acceptable agreement from the riparian people and the permittees. BLM is still in the process of working with their biologists and land users to try and reach a satisfactory agreement. Redace said it is a slow process because they have about 50 permittees and they want to negotiate a win-win deal for everyone. He will contact agent Curtis if any problems and asks for another 3 month call-up.

RE: Response to amendment request

766-4087

Today Matt Redace of the BLM in Malad (208-766-4766) called to discuss my amendment request. He said that the BLM is considering discontinuing use from the spring in order to enhance a riparian area. Therefore, the BLM may want to relinquish the permit rather than pay \$50.00 for the amendment. The decision-making process will take time because it requires extensive consultation with the land users. Mr. Redace expects a decision to be made by Sept. 1, 1998. I told him I would hold the file until then.

Future correspondence should be sent to the Malad address on the proof of beneficial use form.

RE: WATER RIGHT NO. 17-07141

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the point(s) of diversion and place(s) of use developed are in locations other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the point(s) of diversion and place(s) of use and other information as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 60 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

Shelley W. Keen

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 17-07141

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 17-07141

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 17-07141

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Jim Johnson', written over a circular stamp.

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 17-07141 & 17-07142

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the IDAHO ENTERPRISE on 7-2 & 7-9-92. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

HWJ/rb

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before JULY 20, 1992.

Yours truly,

Rita Bodell
Secretary
