CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right, when considered with all other rights common to the same grazing allotment, shall be limited to the quantity of water beneficially used by the number of stock within the allotment.

PROOF DUE NOTICE

RE: PERMIT NO. 17-07138

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 17-07138

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

USE: IRRIGATION

PERIOD: AUGUST 15 TO NOVEMBER 15

POINT(S) OF DIVERSION: NOT DESCRIBED IN DECREE
PLACE OF USE: NOT DESCRIBED IN DECREE

In 1894 "Wastewater" tributary to the Little Malad River was decreed to six parties in the case of W.H. Jones et al vs Joseph Smith. There are now only two parties using this water and the transfer is to record the use and division of water under these rights.
TO BE CHANGED AS FOLLOWS:

A total of 4.0 cfs of water will be diverted from the SWSE, SESW, SEC. 25; NWNE, SEC. 36, T. 14S, R 35E, B.M. ONEIDA COUNTY and used to irrigate 81 acres within the SESW, SWSE, SEC. 25; W1/2NE1/4, NENW, SEC. 36, T 14S, R 35E, B.M.

The decree calls for common use of the water to May 20 of each year. Applicant then gets all of the water between May 20 and August 15. Common use is resumed after August 15.

Any protests against the proposed change must be filed with the Idaho Department of Water Resources, 150 Shoupe Ave., Idaho Falls, ID, 83401, on or before March 11, 1991.
