PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 17-07136 Telephone No. 435 752-8519
2. Name(s) of Permit Holder(s): Paul D. Campbell
3. Mailing Address: 430 N 600 W Logan, UT 84321
4. Source of Water: well If **GROUNDWATER** (well), Date Drilled: mo. Oct / yr. 1997
 - a. Well Driller: Weech Well Drilling Drilling Permit Number: 17-97-E-0004
 - b. **OPTIONAL:**
Pump Horsepower: 200 Pressure (psi): 60 Dynamic pumping level (ft): 310

* 5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 320 160 (SEE PERMIT 17-07136) Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 2.9 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?	Yes _____ or No <u>✓</u>
Has the measuring device been installed?	Yes _____ or No <u>✓</u>
Flow Measurement Port: Is a flow measurement port required?	Yes <u>✓</u> or No _____
Has the measurement port been installed?	Yes <u>✓</u> or No _____

8. Fee Enclosed: \$ 150.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Paul D. Campbell Telephone Number: 435 752-8519
Address: 430 N 600 W Logan, UT 84321

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Paul D. Campbell Date: 3 Oct 1998
(include your title, if on behalf of company or organization)

* Development is completed as described in letter to Paul Meyer dated 3 Oct 1998 PC

I am the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No. 17-07136, and request that the permit and permit map be amended and/or changed as follows:

Purpose of Amendment: _____ Change point of diversion X Add point of diversion
 _____ Change place of use _____ Change nature of use _____ Change period of use X Other _____

1. Point of diversion: 1/4 NE 1/4 SE 1/4, Section 16, Township 16S, Range 30E, B.M.,
County of ONEIDA. Other points of diversion NENE, 16-16S-30E (ORIGINAL P/D)

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

Amount 3.00 for IRRIGATION purposes from 4-1 to 11-1 (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

3. Place of use or land to be irrigated:

[illegible]

Total number of acres to be irrigated = 160

4. a. Who owns the property at the point of diversion? APPLICANTS
- b. Who owns the land to be irrigated at the place of use? APPLICANTS
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

Other - Extend time for completion to ^{SEP 11 1996} April 1999.

Complete the following map by showing land and point of diversion as proposed by this amendment. Show 1/4 1/4, section, township, range and ditches. (the smallest subdivision represents 40 acres)

I hereby request approval of this change subject to the fact that no one will be injured by the change, and that the change will be made at my own risk.

R. KEITH HIGGINSON, Director
Published 2/21/1991 & 2/28/1991
No. 1309

NOTICE OF PROPOSED CHANGE OF A WATER RIGHT No. 15-00072

Notice is hereby given that
THAYNE O. DANIELS has applied to
the Department of Water Resources
to RECORD HISTORIC USE of the
waters of SPRINGS & WASTEWATER
tributary to LITTLE MALAD RIVER.
The right sought to be changed is
evidenced by a DECREE and record-
ed as follows:

Decree No. 15-00072 Decreed to
W.H. Jones et al in case of W.H.
JONES vs. JOSEPH SMITH dated
June 16, 1894 county of ONEIDA.

AMOUNT: 4.00 cfs

PRIORITY: JUNE 22, 1893

USE: IRRIGATION

PERIOD: APRIL 1 to MAY 20

AMOUNT: 4.00 cfs

USE: IRRIGATION

PERIOD: MAY 20 TO AUGUST 15

AMOUNT: 4.00 cfs

USE: IRRIGATION

PERIOD: AUGUST 15 TO
NOVEMBER 15

POINT(S) OF DIVERSION: NOT
DESCRIBED IN DECREE
PLACE OF USE: NOT DESCRIBED IN
DECREE

In 1894 "Wastewater" tributary to
the Little Malad River was decreed to
six parties in the case of W.H. Jones
et al vs Joseph Smith. There are now
only two parties using this water and
the transfer is to record the use and
division of water under these rights.
TO BE CHANGED AS FOLLOWS:

A total of 4.0 cfs of water will be
diverted from the SWSE, SESW, SEC.
25; NWNE, SEC. 36, T. 14S, R 35E,
B.M. ONEIDA COUNTY and used to ir-
rigate 81 acres within the SESW,
SWSE, SEC. 25; W1/2NE1/4, NENW,
SEC. 36, T 14S, R 35E, B.M.

The decree calls for common use of
the water to May 20 of each year. Ap-
plicant then gets all of the water be-
tween May 20 and August 15. Com-
mon use is resumed after August 15.

Any protests against the proposed
change must be filed with the Idaho
Department of Water Resources,
150 Shoupe Ave., Idaho Falls, ID,
83401, on or before March 11, 1991.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 17-07136

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

RE: Completion of work under Permit No. 17-07136 (amended) in Sec. 16, T 16S, R 30E, Oneida County

Dear Mr. Meyer,

Work has now been completed under the above permit, and I would like to provide a full description of the development as it relates to the previous development under Permit No. 17-07118.

As was observed by Don Simpkins of your department in 1996, the beneficial use of water developed under Permit No. 17-07118 was sourced from a well located in NENE S16 T16S R30E flowing approximately 1.8 cfs and applied to 320 acres being the E ½ of Sec. 16. As I had previously mentioned to you, the well was inadequate to optimize production on the 320 acres, and so application was made and Permit No. 17-07136 was secured to develop additional water.

The development is now complete with an additional well located in NESE S16 T16S R30E flowing approximately 2.9 cfs. Additional pressurized main line was constructed as part of the development interconnecting the wells so that either well may deliver water to the entire 320 acres, or both wells may be simultaneously operated. The piping is constructed with one-way valves at each well so that water may not flow from one well through the main line and into the other well.

Accompanying this letter is a form, together with the required payment for processing, indicating that work is complete. Beneficial use began under Permit No. 17-07136 on 2 Oct 1998. I understand that the Department will schedule a visit to make measurements as part of the process of issuing a license. May I suggest that July of 1999 would be a good time for that because it is likely that both wells will be in continuous operation during the entire month. I have not yet received a license under Permit No. 17-07118, and I suspect that the Department may have suspended the process while work on the latter permit was being completed.

Thank you for the cooperation extended by you and others in the Department during the many years it has taken to complete work under both permits. I anticipate that licenses will be forthcoming. Please let me know if there is anything more I need to do at this time to initiate that process.

Sincerely,

Paul D. Campbell

RE: Permit No. 17-07136

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to **April 1, 1999**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of the development during the construction period allowed since the department **will not** grant additional extension requests for this permit.

This extension was approved with the condition that Permit No. 17-07136 cannot be assigned to another party without prior approval of the department. Please consider this condition of approval as a Preliminary Order pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law.

Please contact me at (208)327-7953 if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit nos. 17-07118, 17-07136 in Sec. 16, T 16S, R 30E, Oneida County

Dear Mr. Meyer,

Thank you for your prompt response in sending the application form which I requested. Upon more thoroughly examining the above permits which my father originally applied for and which I have assumed in the last few years, there may be a better way to address my long term plans than to submit an application.

Don Simpkins from your department visited my farm last week to measure the flow from 1 well developed under permit # 17-07118 and to observe the acreage of beneficial use of the water. I explained to Mr. Simpkins that I was dissatisfied with the development of the 1 well, and that to optimize production on the 320 acres, I would need to either boost the output from the well or drill another well. He suggested that the well itself may already be maximized. Upon examining my records, I see that although boosting output from the existing well may be possible, it would not be optimum.

In examining permit #17-07136 which allows for development of 3.00 CFS for irrigation distributed to the SE S16 T16S R30E, it appears on closer examination that there is no provision in this permit for drilling another well. It appears that it would only allow diversion from the well in the NENE S16 T16S R30E.

In hindsight, I am a little confused as to why the applications and subsequent permits were issued as they were. It would appear that the first permit allowed development of multiple wells with plenty of water for all 320 acres, and the 2nd permit does not allow for any well. I realize that this probably had more to do with how the applications were made than how the permits were issued as the permits would have issued in accordance with the applications.

I desire to complete my development of the 320 acres (East ½ of S16) which is all of the land I own in that area with an optimum system for full production. Permits aside for a moment, it would make the most sense if the existing well which was drilled under permit # 17-07118 and located in NENE S16 T16S R30E were to flow approximately 2 cfs and be used anywhere on the 320 acres, and if I were to drill another well located in NESE S16 T16S R30E which would flow approximately 4 cfs if it alone were used to irrigate the 320 acres, or 2 cfs if it were used in conjunction with the other well. Water from either well may be used to irrigate anywhere on the 320 acres. Such an arrangement would allow an optimum use of water with flexibility for crop rotations, pumping and distribution equipment, and still meet peak evaporative demand.

To accomplish this under the permits that have been issued would require some amendment. I would suggest the following: 1) Amend permit # 17-07136 to allow drilling a 20 inch diameter by 550 feet deep

MAR 23 1997

well located in the NESE S26 T16S R30E with allowance to divert 4 cfs to use on the east ½ of S16. I would also ask an extension of time on this permit to April 1, 1999. 2) Amend permit # 17-07118 by reducing the permitted development from 6.4 cfs to 2 cfs with a single point of diversion being the existing well (NENE S16 T16S R30E). This permit may then be closed with the subsequent water right issued based upon the measurements and observations made by Mr. Simpkins last week.

I welcome your thoughts on this and any suggestions you may have. Thanks for your cooperation.

Sincerely yours,

Paul D. Campbell

RE: Permit No. 17-07136

Dear Mr. Meyer,

Having submitted already a request for amendment to the above permit, I herewith submit a request for extension of time. In reviewing my records, I see that there has been one prior extension, and I am concerned about the statements in the instructions regarding limitations on multiple extensions. I ask that the Department of Water Resources consider the following circumstances.

1. If the requested amendment is approved to develop an additional point of diversion, it is obvious that the scope of work to be done under the permit is expanded from that originally anticipated. I would think that if the amendment is approved, an extension of time would be justified and indeed only make sense for the additional work required.
2. On the first request for extension, the time asked for was until April 1999, the same time as is now being asked on the enclosed request. An extension for less time was granted by a unilateral decision of the Department. Though an extension was granted, it was only granted until April 1997.

In consideration of these points, I respectfully submit my request for extension of time.

Sincerely yours,

Paul D. Campbell

Dear Mr. Johnson,

I received from you on 28 Aug 1996 an amendment to permit No. 17-07136. At the time I had requested the amendment, I had also made an application for an extension of time. However, the request for extension of time was return to me with the explanation that it could not be considered except within 60 days of expiration of the permit.

Having been granted the amendment, I now re-submit my petition for an extension of time. Please find enclosed copies of my correspondence of last year in support of my request for extension. I am asking at this time for an extension of 3 years.

Sincerely,

Paul D. Campbell

PROOF DUE NOTICE

RE: PERMIT NO. 17-07136

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

**NOTICE OF PROPOSED
AMENDING OF WATER PERMIT
17-07136**

Notice is hereby given that Permit No. 17-07136 in the name of H. Sanford, and Paul Campbell, 432 N. 6th W., Logan, Ut, 84321, was issued for the diversion of 3.00 cfs of water from a groundwater source with the point(s) of diversion within the NENE, SEC 16, T16S, R30E, Oneida County; to be used for the irrigation of 160 acres from April 1 to November 01 within the SE, SEC 16, T16S, R30E, B.M.

The permit holder now proposes to amend Permit No. 17-07136, adding a point of diversion in the NESE, SEC 16, T16S, R30E, B.M. Oneida County.

Any protest to the proposed amending of the permit must be filed with the Idaho Department of Water Resources, 900 N. Skyline Dr., Idaho Falls, ID 83402, together with a protest fee of \$25 on or before July 29, 1996. The protestant must also send a copy of the protest to the applicant.

RE: Notice of Application for Amendment of Permit

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right application. This office is currently in the process of advertising the application in the Idaho Enterprise on July 11 & 18, 1996. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones

RE: Permit No. 17-07136

Dear Permit Holders:

I am returning the Request for Extension of Time you submitted to the Eastern Regional Office on June 17, 1996. Proof of beneficial use for this permit is not due until April 1, 1997. The department can not consider an extension request which is submitted earlier than sixty (60) days prior to the proof due date.

I have initiated the process to refund the \$50.00 filing fee submitted with the extension. You should the refund in seven (7) to ten (10) days under separate cover. Additionally, I have enclosed a blank extension request form and instructions if you should need them in the future.

Please contact me at (208)327-7900 if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH

Re: Permit No. 17-07136

Dear Mr Campbell:

I am writing in reference to our telephone conversation yesterday concerning the above mentioned permit. During our conversation, you asked about an extension of time and asked that I forward a copy of the well log filed in connection with this permit.

First of all, when we spoke yesterday, you were under the impression you had already received an extension request on this permit. However, Department records indicate that you have not previously received an extension of time on this permit. Therefore, you are eligible to submit an extension request. However, as we discussed, the Department cannot accept such a request more than six months prior to the proof due date. Since proof of beneficial use is not due until April 1, 1994, the Department cannot accept an extension request prior to October 1, 1993. I have enclosed an extension request and instructions should you wish to file such a request at that time.

Secondly, you asked that I forward a copy of the well log filed in connection with this permit. You indicated on the phone that the well had been in place for several years. Unfortunately, during a search of our well logs, I was unable to locate a well log. In fact, I could find no well log filed within the 640 acre legal description listed on your permit. If you still wish to obtain a copy, you may want to attempt to locate the well driller and ask that he supply you with a copy.

I hope that I have answered your questions and provided you with the information necessary to proceed with the construction of this permit. If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 17-07136

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water.

MAY 03 1991

Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 17-7136

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in IDAHO ENTERPRISE on February 21 & 28, 1991, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unopposed application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
