State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 17-7014 Priority July 15, 1971 Amount 0.01 cfs

THIS IS TO CERTIFY, that the State of Idaho, Department of Public Lands
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 17-7014 issued pursuant to Application for Permit dated July 15, 1971,
and has submitted proof to the Department of Water Resources on July 11, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.01 cfs of water from Rock Springs,
tributary to Deep Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Livestock</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>0.01</u> cfs and	<u>2.0</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.01 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2.0 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 36,
Twp. 13 S, Rge. 33 E, B. M. in the County of Oneida

Description and location of place of use:

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 23 day of
December, 19 74.

10. On March 25, 1971, representatives of IDPL's, BLM, USFS and applicant to make this filing

Remarks	Pleasant View Livestock Association met with Department of Water Administration

representatives in the Onondaga County Courthouse. After considerable discussion it

was agreed that the following would be done:

- | | |
|-------------|--|
| 10. Remarks | 1. USFS and BLM would apply for an easement from the IDPL's to cover the pipeline and related structures across the State land to USFS and |
|-------------|--|

BLM grazing allotments.

2. USFS would alter a previous water filling, Water Permit 17-7011, to read 0.02 cfs from 4-15 to 7-8 and 10-1 to 12-31. This is a period of maximum

water flow and all envisioned enough water for all users.

3. IDPL's would then make first filling on 0.01 cfs 1-1 to 12-31. This filling

is justified by stock water tanks being placed on State land along this

pipeline. Presently this State land is grazed as a part of a BLM allotment.

The State, their lessee or any future buyer(s) thusly would be assured of

first rights to 0.01 cfs water during the critical flow period 7-8 to 10-1.

4. BLM would next file on 0.01 cfs 1-1 to 12-31. This filling there by gives

the BLM and their lessees assurance of 0.01 cfs water to water stock below

State land during the critical flow period 7-8 to 10-1.

5. USFS would lastly file on 0.002 cfs 7-8 to 10-1. This would in essence allow

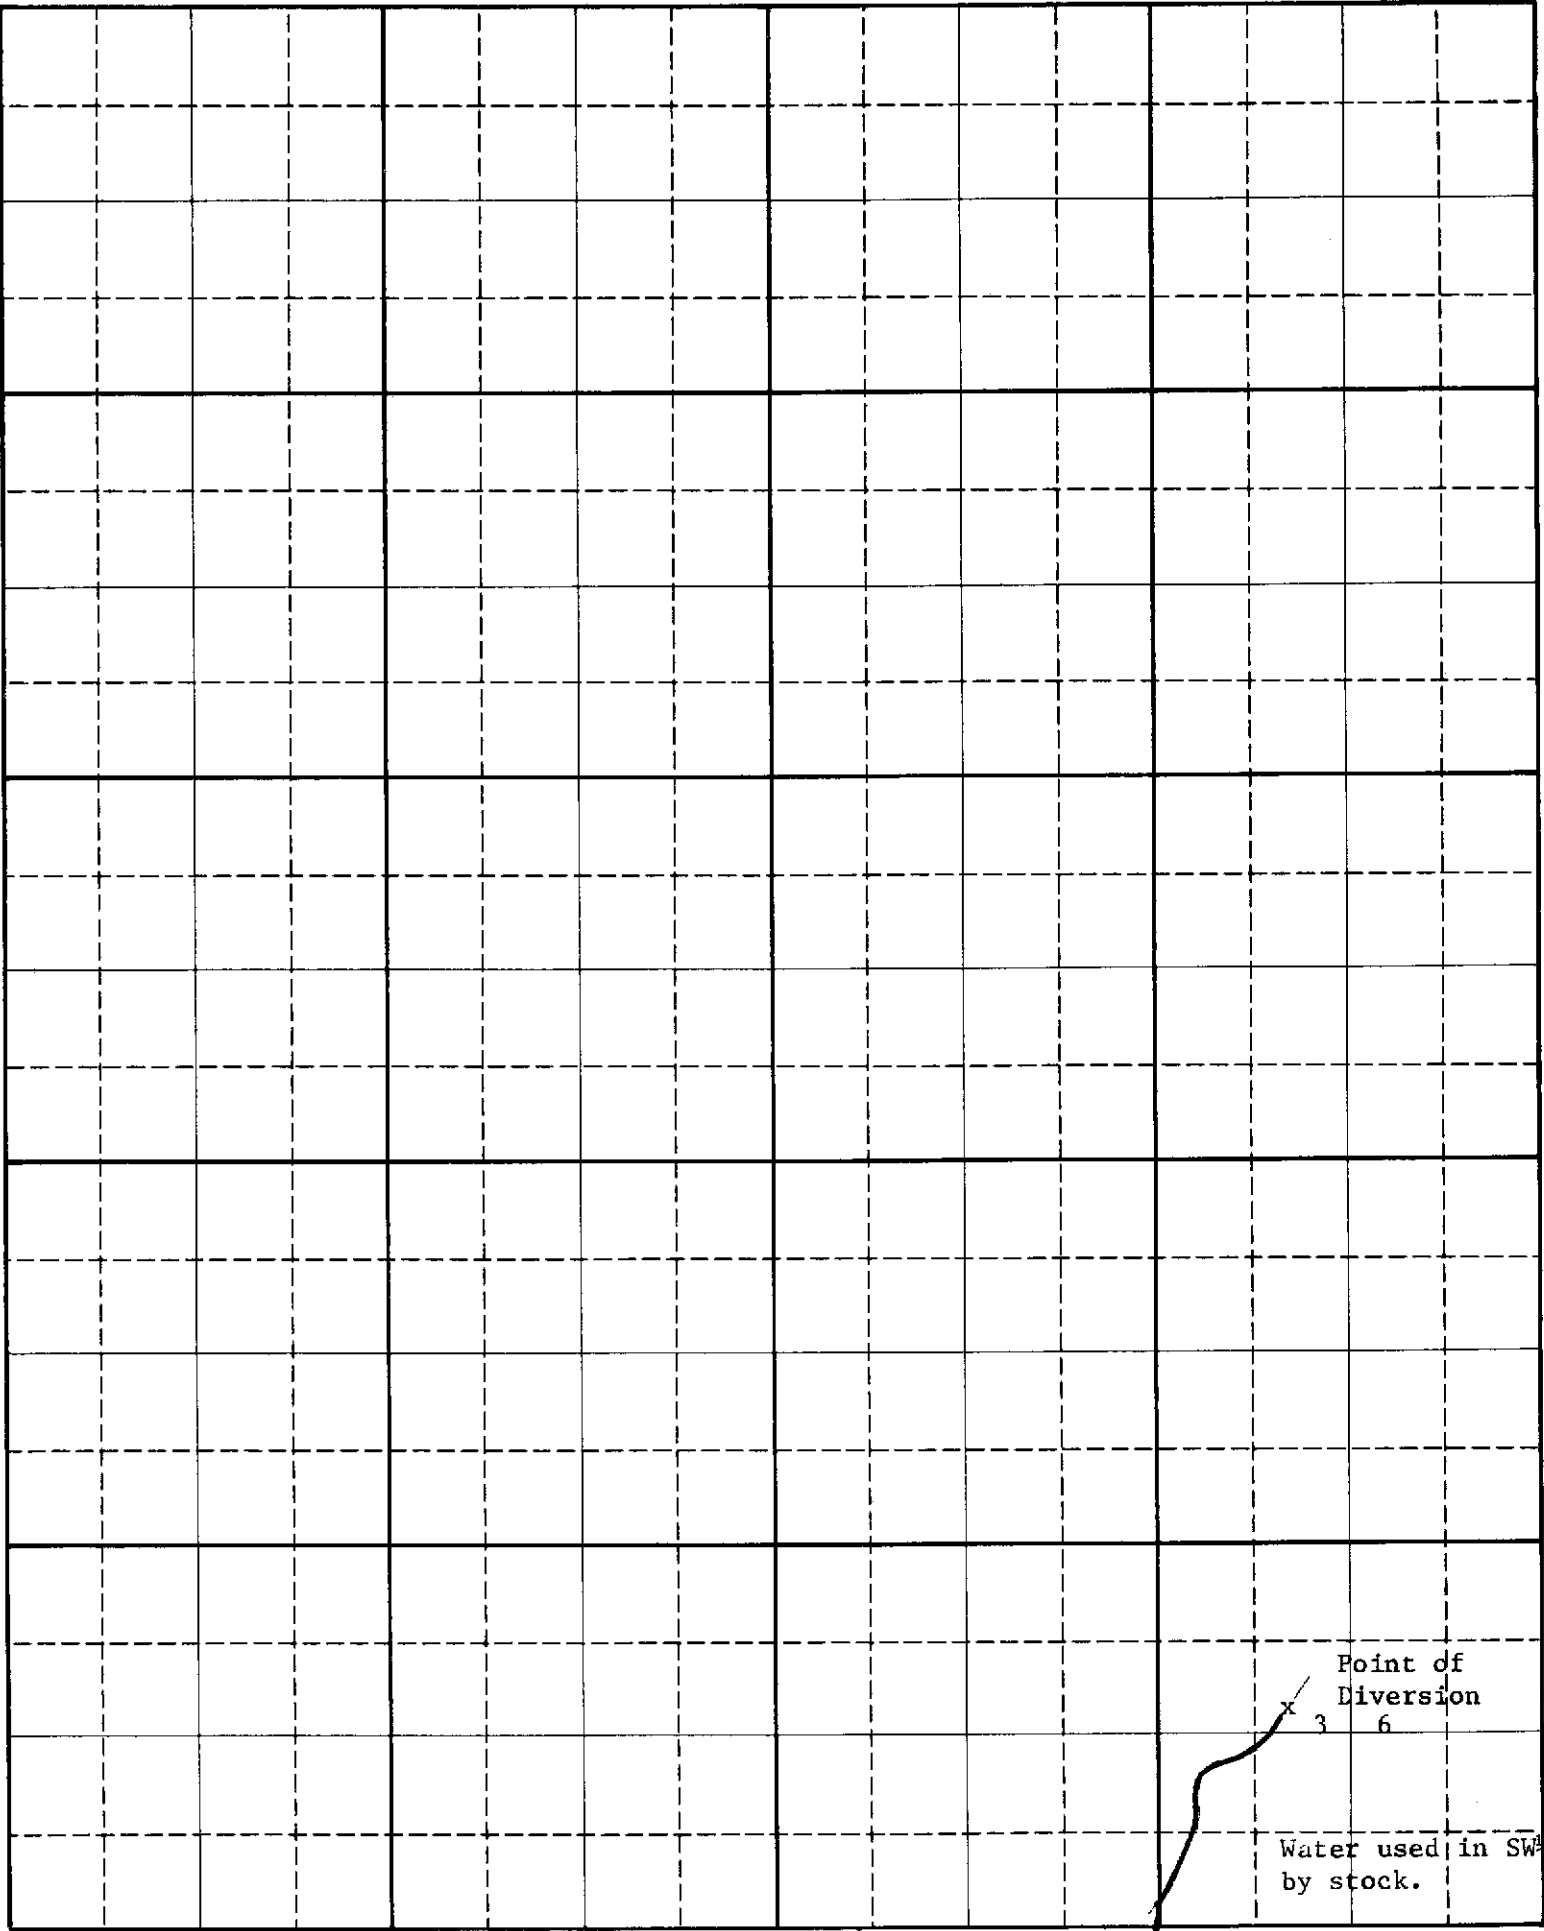

the USFS at least 0.002 cfs of the water production over and above the

State and BLM's prior fillings on 0.02 cfs. This water would go out on the

Curtlew National Grasslands.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Township 13 South, Range 33 East, B. M.

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that the State of Idaho, Dept. of Public Lands, Statehouse, Boise, Idaho, has on July 15, 1971 submitted Application (No. 17-7014) for a permit to appropriate 0.01 cubic feet per second of water from Rock Springs, tributary to Deep Creek, by means of headbox and pipe within the SE¼NW¼ Sec. 36, T. 13S, R. 33E, B.M., Oneida County, to be used from Jan. 1 to Dec. 31 for livestock water within the SW¼ Sec. 36, T. 13S, R. 33E, B. M.

If issued, this permit will be subject to all prior water rights.. Protests against the granting of the permit must be filed with the Idaho Dept. of Water Administration, 240 So. Holms, Idaho Falls, Idaho, 83401, on or before August 23, 1971.

RE: LETTER INQUIRY INVOLVING LICENSES 17-7011 AND 17-7014

Dear Mr. Reynolds:

I have reviewed your letter of inquiry dated February 25, 1992, in connection with the above referenced licenses of water right.

The following paragraphs respond to the three (3) questions raised in your letter in the order asked:

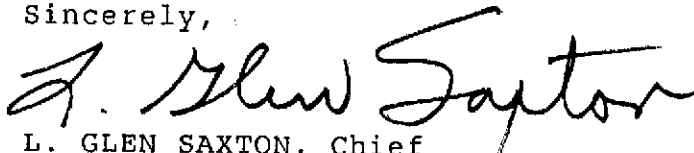

1. Department of Water Resource (DWR) records show that the DWR has issued permit no. 17-7134 to the Bureau of Land Management (BLM) for use of water from Rock Springs. The priority of the permit is August 3, 1990 and authorizes the diversion of 0.01 cubic feet per second of water for stockwater purposes.

2. The DWR does not have any record of an agreement between the Forest Service, BLM, Dept of Lands or the Pleasant View Livestock Association in DWR water right files. Water right file 17-7011, however, does contain information to show that on March 25, 1971, a meeting involving all the above described parties was held in Malad, Idaho and that as a result of that meeting, the Forest Service requested that the season of use of application 17-7011 be changed. The original season of use proposed by the USFS was from April 15 to August 31 and from October 1 to December 31 of each year. The changed season of use was from April 15 to July 8 and from October 1 to December 31 of each year.

3. Absent some agreement to the contrary, during times of shortage, DWR's position would be that the oldest water right is the better water right. The water right files do not show that the right of the USFS under license 17-7011 has been subordinated or is inferior to license 17-7014 or permit 17-7134.

If you have additional questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

Department of Water Resources

Dear Mr. Higginson

We are finding ourselves in a controversy over the water rights at Rock Spring located in the SE1/4NW1/4, section 36, T. 13 S., R. 33 E. The use is in seven sections of the Curlew National Grasslands; purpose of use is stockwater.

The United States of America - Forest Service has a License (No. 17-7011) to 0.02 cfs with a priority date of December 4, 1970. The point of diversion is on land owned by the State of Idaho and administered by the Department of Public Lands. The Forest Service has State of Idaho Easement No. 4247 for the pipeline to transmit water from the spring to the places of use on the Curlew National Grasslands. The Department of Public Lands also has a water right at Rock Spring as evidenced by License No. 17-7014 with a priority date of July 15, 1971. The Department of Public Land's Application has comments in the Remarks Section to the effect that the United States subordinates its water right to that of the Department of Public Lands. We do not have any instrument by which the United States agrees to such subordination. Nor does the easement impose any similar conditions on the use of the pipeline.

We are unaware of any other applications or Claims to a Water Right for Rock Spring on file with the Department of Water Resources.

We have three questions:

1. What other filings do you have on record for Rock Spring? Include the name of the applicant, priority date, quantity, and purpose of use. -17-7034 BLM
2. Does the Department of Water Resources have any record of an agreement between the Forest Service, Bureau of Land Management, the Department of Public Lands or the Pleasant View Livestock Association on file? We are willing to comply with any agreement we have made but until we see some kind of written instrument which conditions the use of United States property, we are not willing to subordinate our water rights to another agency.
3. How would the Department of Water Resources administer the water rights on Rock Spring given the comments in the Remarks section of the Department of Public Land's application?

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that the State of Idaho, Dept. of Public
Lands, Statehouse, Boise, Idaho,
has on July 15, 1971 submitted Application No. 17-7014
for a permit to appropriate 0.01 cubic feet per second ~~XXXXXXXXXXXX~~
of water from Rock Springs, tributary to Deep Creek,
by means of headbox and pipe
within the SE1/4 Sec. 36, T. 13S, R. 33E, B.M., Oneida County,

to be used from Jan 1 to Dec. 31
for livestock water

within the SW1/4 Sec. 36, T. 13S, R. 33E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Dept. of Water Administration, 240 So. Holmes, Idaho Falls, Idaho, 83401, on or before August 23, 1971

R. KEITH HIGGINSON
