Dear Sir;

Attached herewith please find my copy of Proof of Beneficial Use form for Permit No. 15-07130 and my check in the amount of \$100 to cover the license examination fee required.

As you will note the Form No. 217 was received in your office in June which is when I finally got the well operable. At the time I submitted the Form I didn't realize that a fee was required. I guess I thought ground well water was not included as surface water whcih I arrumed to be from rivers or stream sources.

But then in July I received the Form back informing me I needed to attach \$100 and return. At this point I told my wife to take care of it before the due date and I placed it on the pile.

Until I received your letter of October 4 (yesterday-- October 7) the matter slipped my mind in the workload of getting summer work done, and my wife's memory was just as negligent.

I have used the well this crop season (since June) and just last week harvested the barley crop. In fact, the combine is still in the field.

I called on the phone Friday when I got your letter but I could not contact Mr. Saxton. The secretary I talked to told me he would call me but not until Tuesday next. For that reason I am writing this letter and attaching the fee. I have not completed the Request for Extension of Time Form because in view of the circumstances I am not sure if it is still needed. May I hear from you in the near future so that I do not miss any more due dates. If I need to submit another form of any kind, please let me know.

Sincerely,

Carl R. Willie

PROOF DUE NOTICE

RE: PERMIT NO. 15-07130

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 15-07130

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: Application No. 15-7130

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Idaho Enterprise on August 1 & 8, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
