RE: Field exam reports for 15-07122 and 15-07126

I have attached the field reports for 15-07122 and 15-07126. I appreciate your offer to take a second look at these. I have a difficult time visualizing the use of such a small flow for irrigation. The photos suggest some natural sub-irrigation, but I am not convinced there is any ability to capture and direct the flow of water. I do not see any obviously permanent ditches in any of the photos. Let me know what you think.

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

$$\text{STOCK WATER} - 70 \text{ STOCK} \times 0.00022 = 0.0154 \text{ CFS}$$

$$\text{POWELL'S V FURROW FLUME} = 2.1 \text{ GPH} \approx 0.0047 \text{ CFS}$$

$$0.0047 \times 4 = 0.0188 \text{ CFS} \approx 0.02 \text{ CFS}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 5 \times 3.5 = 17.5$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.02 \times 183 \times 1.9835 = 7.259$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 7.3 \text{ AFA}$$

2. Volume Calculations for Other Uses:

$$\text{NEED STOCK WATER} = 70 \times 0.0134 = 0.936 \text{ AFA}$$

RE: PERMIT NO. 15-07122

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 15-07122

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: Application for Permit No. 15-07122

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the IDAHO ENTERPRISE on JULY 19 & 26, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
