STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 15-07115)
)
IN THE NAME OF REED MC BRIDE) **ORDER OF**
) **REINSTATEMENT**
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before August 1, 1993; and,

WHEREAS, the Department notified the permit holder on May 31, 1993, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder on August 5, 1993, that the permit had lapsed for failure to submit an acceptable proof of beneficial use or extension of time; and,

WHEREAS, Section 42-218a, Idaho Code, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on August 9, 1993;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 15-07115 be REINSTATED with an advance in priority to December 21, 1989.

Dated this 1st day of November, 1994.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 15-07115

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced water right permit.

Enclosed is an order reinstating your permit since the proof was received after the proof due date. Please note that the priority date has been advanced to December 21, 1989.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208) 525-7161.

Sincerely,

A handwritten signature in cursive script that reads "Julie L. Yarbrough". The signature is written in dark ink and is positioned above the typed name and title.

Re: Permit No. 15-07115

Dear Reed:

As we discussed, and as was suspected, neither you nor Arnold Lundstrom applied for a drilling permit prior to the drilling of the well associated with the above mentioned water right.

I have enclosed a drilling permit application and instruction sheet for your convenience. Please complete the form and submit it along with the \$200 application fee.

Also, as we discussed, should you have the well deepened, it will be necessary for you to apply for another drilling permit for the deepening.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Senior Secretary

Re: Permit No. 15-07115 - Reed McBride
Drilling Permit No. None Obtained
Drilling Date: May 1992
Proposed Location: 15S, 36E, Section 3, SE $\frac{1}{4}$ NE $\frac{1}{4}$

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted 30 days after completion of the construction of this well.

Furthermore, Department records also indicate that the well was drilled without obtaining a drilling permit. As you know, as the driller, it is your responsibility to have a copy of the drilling permit in hand prior to drilling the well. The permit holder has indicated to the Department that he did not obtain a drilling permit.

While it is possible that you have submitted the log, we have been unable to locate it. Please supply me with another copy. Please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of the permit holders system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Karen L. Gustafson".

Re: Permit No. 15-07115

Dear Mr McBride:

On August 11, 1993, the Department corresponded with you and explained the need to submit a copy of your drilling permit and well log associated with the above referenced water right permit. The Department allowed 30 days in which to submit the additional information.

As of this date, the Department has not received the requested information. The Department will allow an additional 15 days in which to submit the information. If, at the end of that time, the Department has not received the requested information, the Department will be forced to lapse your permit for failure to comply with Section 42-235, Idaho Code.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Karen L. Gustafson".

Re: Permit No. 15-07115

Dear Ben:

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a drilling permit which should have been applied for before the opening of your well began. We have also been unable to locate a well log which should have been submitted by your well driller 30 days after completion of the construction of your wells. You have indicated on the proof of beneficial use that the well was drilled in May of 1992.

If you have a drilling permit or a copy of the well log, please provide this office with a copy of each. If you do not have a copy of the well log, please contact your driller and ask that he submit a copy. In your return letter, please be sure to show the above referenced permit number on any documents. Also, please address any correspondence directly to me. Your response, with both forms attached, should be received within 30 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of your system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Handwritten signature of Karen L. Gustafson in cursive script.

LAPSE NOTICE

RE: PERMIT NO. 15-07115

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 15-07115

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 15-07115

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

INDEXED

JUL 19 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 15-7115

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Idaho Enterprise on April 19 & 26, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
