Mr. Kline:

I have received your protest of Claim 15-04199 filed by the United States Forest Service on Wrights Creek for stockwater. I wanted to take this opportunity to explain how this came about and the intent of Claim 15-04199.

During our recent round of hearings about Application for Permit 15-07139 filed by the USFS on Wrights Creek, I asked the Forest Service to provide a historical reference to their use of Wrights Creek water. This was done to clarify the USFS position that no new impacts would be made on Wrights Creek by Permit 15-07139. Rather a historical use had been in place for stockwater which was being changed in manner of delivery. The USFS responded by filing claim 15-04199.

Permit 15-07139 was required of the USFS because they were applying to divert to a water trough. Had I known the full history, I probably would have advised the USFS to file the claim only. Then they could have filed a transfer of point of diversion and place of use.

As it now stands, Permit 15-07139 and Claim 15-04199 reflect the same water, not an additive amount. If you wish to formally file an exception to claim 15-04199 then a notarized document must be filed with the signature(s) of the protestant.

Should you have additional questions, please let me know.

Sincerely,

Harold W. Jones
Water Resource Supervisor
