CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

RE: Claim No. 15-4188

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Gentlemen:

On June 27, 1983 the Department of Water Resources received your claim to a water right filed in accordance with Section 42-242 of the Idaho Code requiring all beneficial use water rights be recorded with the state. This claim was reviewed by our staff and subsequently returned on September 13, 1983 with a cover letter outlining the modifications you needed to make for the claim to be in form to process.

The fee at the time you submitted your claim was \$30.00. However, starting July 1, 1983 the statutory fee for filing a claim was substantially increased to \$100.00. Since your claim was originally received when the lower fee was in effect, we will accept your claim at that rate provided it has been corrected and returned no later than November 21, 1983. If your claim is not returned by this date, administrative action will be taken to cancel the original filing. Should you desire to file the claim at a later date, the filing fee will be \$100.00.

The staff at our office will be glad to answer questions or assist you in properly completing the claim form.

Respectfully submitted,

ERNEST CARLSEN

Gentlemen?

Pursuant to today's telephone conversation with Mr. Bernard Jones, enclosed is a claim to a water right for the use of 12 artesian wells in Section 5 & 8, T. 15S, R. 36E.

This claim represents the finished version of a claim our office originally received on June 27, 1983 and was subsequently receipted August 22, 1983.

Please review the claim to ensure it accurately describes the established use, then sign the form in the presence of a notary and return it to this office.

Your patience and cooperation in working with our staff to consummate the filing is appreciated.

Respectfully submitted,

Gentlemen:

Enclosed are two claims to a water right, check No. 92-86 for \$30.00 and check No. 92-86 for \$65.00, that were received in this office, and a copy of each claim with problem areas noted in red.

The 1934 claim to a water right needs the month and day of priority (item 1) and the source of water from a well is called groundwater (item 2). The amount for stockwater needs to be entered in item 3 and the total in item 4 should be in the same units of measurement. The point of diversion must be indicated in item 5a giving quarter-quarter sections, section number as well as township (north or south) and range (east or west). There may be an artesian well but how is the water diverted and how is the water applied to the land for beneficial use (note item 5b)? If the system is a common system for all wells, then only one claim form is necessary; however, if there is more than one system additional claims may need to be filed. Describe the location of use (item 6a) by listing the number of irrigated acres within each 40-acre tract in the appropriate box. If the use is not for irrigation, place an 'x' in the appropriate box to show location, unless that box already has the number of acres irrigated indicated (i.e. if in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres of land are irrigated and the stock are watered there, all that would be necessary would be to just list the 40 acres, and it would be assumed that stock were watered there; therefore, you do not need to place an 'x' in that box.) The map should be completed as shown in the enclosed example.

The above problems are basically the same on the 1940 claim except there is no irrigation. I'm not sure if the source is a spring (surface water) or a groundwater (well) source.

Upon receipt of the completed notarized claims and filing fee of \$30.00 each, processing will begin. Please feel free to contact this office for any additional assistance that may be needed.

Sincerely,

KEITH C. WILSON
