

MEMORANDUM

RE: Ownership Change

An ownership change was submitted for this water right on August 29, 2005. The legal description on the proof provided did not match that of the decree, and it appeared that there may be a decree error. I sent the standard decree error letter instructing the customer to call Danni Smith on March 2, 2006. We have received no further response. The ownership change has been placed in the file until we receive further notice from the customer.
