RE: PERMIT NO. 13-07528 - REINSTATEMENT ORDER

Dear Mr. Stenberg:

Enclosed is an order which reinstates the above referenced permit advancing the priority to July 10, 1997 as provided in Section 42-218a.2, Idaho Code. Please note that you are not authorized to make any additional development of water under terms of the permit beyond the development which already exists.

The next step in the water right development process is for the department to conduct a field examination of your system to determine the extent of beneficial use of water. Staff of the department's Eastern Regional office in Idaho Falls will conduct the exam.

If you have questions concerning scheduling of the exam, please contact that office at phone (208) 525-7161.

IN THE MATTER OF PERMIT NO. 13-07528	)	
IN THE NAME OF WHITNEY NASHVILLE WATER	)	ORDER OF
WORKS CO., INC.	)	REINSTATEMENT
_____	)	

This matter having come before the Idaho Department of Water Resources (Department), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On December 2, 1994, the Department issued Permit No. 13-07528 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted to the Department on or before December 1, 1996.

2. On September 30, 1996, the Department sent a proof due notice to the permit holder.

3. On December 6, 1996, the Department sent a lapse notice to the permit holder.

4. On July 10, 1997, the permit holder filed proof of beneficial use with the department. The permit holder also submitted evidence to show that water has been applied to beneficial use during the authorized development period and has shown sufficient cause why the beneficial use was not timely submitted.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use made during the time authorized by the permit, a showing that beneficial

use occurred during the authorized period and a showing of reasonable cause for filing a late proof of beneficial use.

2. The permit holder has made the submittal and adequate showings required by Section 42-218a.2, Idaho Code.

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS THEREFORE HEREBY ORDERED that Permit No. 13-07528 is **REINSTATED**.

IT IS FURTHER HEREBY ORDERED that the date of priority of this permit is advanced to **July 10, 1997**.

To whom it may concern:

I apologize that I did not send the beneficial use statement at the required time. I am the secretary and do this out of my home. The other members of the board receive mail directly to their home. The letter and form to be filled out was received by the company president and he held it for a period of time. I received it from him at our monthly board meeting and intended to deal with it directly.

I go through the mail and pay bills on a monthly basis, and apparently I simply misplaced the application and did not locate it until the week that it was due. Enclosed you will find copies of power bills showing that the pump on that well is being run to supply water to the community.

If you need additional information please let me know. thank you for your patience and cooperation.

RE: Lapsed Permit No. 13-07528

Dear Permit Holder:

The department is in receipt the proof of beneficial use statement you submitted in connection with the above referenced lapsed permit. Proof of beneficial use was due December 1, 1996. Because the proof statement was received more than 60 days after the proof due date, the department cannot accept the proof until additional information is submitted.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

- ▶ **Two (2) pieces of evidence** to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date (December 2, 1994, to December 1, 1996) and;
- ▶ Reasonable cause why the proof of beneficial use was filed late.

You can submit pump records, affidavits, receipts from equipment purchased, or other information that would verify use during the authorized development period.

The proof of beneficial use statement along with any information which may have been submitted with it, will remain on file in this office for **60 days** to allow you the opportunity to submit the additional required information.

Please be aware that this permit is **lapsed** and is of no force nor effect unless it is reinstated.

If you have any questions regarding this matter, please contact me at (208)327-7900.

To whom it may concern:

I apologize that I did not send the beneficial use statement at the required time. I am the secretary and do this out of my home. The other members of the board receive mail directly to their home. The letter and form to be filled out was received by the company president and he held it for a period of time. I received it from him at our monthly board meeting and intended to deal with it directly.

I go through the mail and pay bills on a monthly basis, and apparently I simply misplaced the application and did not locate it until the week that it was due. Enclosed you will find copies of power bills showing that the pump on that well is being run to supply water to the community.

If you need additional information please let me know. thank you for your patience and cooperation.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 13-07528

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Dear Mr. Jones:

We have been working with the Whitney Nashville Board of Directors and strongly support the drilling of this new well. The reduced flow from their springs and new regulations that may make use of the spring water impractical make this well very important to them.

If you have any questions or if we can be of help to you, please feel free to call us at (208) 236-6160.

Dear Mr. Foster

The Department of Water Resources acknowledges receipt of your water right permit. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
