REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 13-07512

Name(s) of Permit Holder: Dayton City

Mailing Address: P. O. Box 12, Dayton, ID 83232

Date Proof is Due: October 1, 1994 Telephone No. 208-747-3589 Office
208-747-3219 Home,
Clerk

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

One test well has been drilled which didn't prove out; moved short distance to another site which appears good. Have drilled to 375' on this one, but it hasn't yet been developed. Work is proceeding on enlarged distribution lines; cement has been poured on a new 300,000-gallon underground storage tank for the culinary water system.

Contractors have not yet drawn funds. Costing \$ 35,662 for
Admin. & Engineer.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

This project was planned for summer of 1993, but grant money was not available until this summer. This put everything behind schedule. Not finding water in the first drilling site also delayed development of the water permit.

Permit holder(s) request an extension to October 1, 1996.

FEE: \$50.00

RE: PERMIT NO. 13-07512

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. RE: Application No. 13-07512

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Preston Citizen on August 20 & 27, 1993. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
