WATER RIGHT NO. 13-07476

Priority: October 29, 1990

Maximum Diversion Rate: 2.06 CFS

It is hereby certified that HANK POVEY

398 E 200 S

CLIFTON ID 83228

has complied with the terms and

conditions of the permit, issued pursuant to Application for Permit dated October 29, 1990; and has submitted Proof of Beneficial Use on January 24, 1994. An examination indicates that the works have a diversion capacity of 2.06 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

BENEFICIAL USE

IRRIGATION

PERIOD OF USE

4/15 to 10/15

DIVERSION RATE

2.06 CFS

LOCATION OF POINT(S) OF DIVERSION:

Total Acres: 185

CONDITIONS OF APPROVAL

1. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
2. If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
3. This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 647.5 af at the field headgate for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 2ND day of August, 2002.

ORDER

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install a flow measurement port or other device to facilitate the measurement and determination of the rate of diversion by the department; and

WHEREAS, the department has determined that the rate of diversion for certain ground water uses can be estimated by the department without the use of an installed flow measurement port; and,

WHEREAS, the department has determined that the rate of flow for the above captioned permit can be estimated without the use of a flow measurement port;

IT IS THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of a flow measurement port or other device for the above captioned permit is WAIVED. The department retains the jurisdiction to require the condition be reinstated in the future upon a finding of need by the department.

RE: License No. 13-7476 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

CLIFTON ID 83228**

**Kari Lynn Townsend
Secretary**

**MICROFILMED
AUG 26 2002**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
AUG 25 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Request for Field Examination

Yesterday afternoon I spoke with Hank Povey (cell phone # 208-313-5771) regarding his request for a re-examination to check the diversion rate from his well. He told me that at one time he thought IDWR's measurement of 2.06 cfs was low, but now his well is not producing more than that. Therefore, he is earnest in his request that IDWR issue the license for 2.06 cfs without conducting a re-examination.

S. Keer

7/30/02

Diversion Rate

Permit 3.76 cfs

Proof 3.76 cfs

System

- Well drilled in 1993 static water level at 63'
- 185 acres
- Sonic flow meter reading 11/1/95 = 925 gpm or 2.06 cfs
- 3 $\frac{1}{4}$ -mile wheel lines w $\frac{3}{16}$ " nozzles (34/line) at 38 psi
is about $\Rightarrow 6.8 \text{ gpm/nozzle} * (34 * 3) \text{ nozzles}$
 $= 622 \text{ gpm}$
 $= \underline{1.39 \text{ cfs}}$

Right Holder

2/28/02 Questioned 2.06 cfs, paid for a re-examination

6/18/02 Reported via telephone that he was unable to increase the flow and that a re-examination would not be fruitful.

Theoretical

$$\frac{175 \text{ h.p.} \times 8.8(.7)}{2.31(38) + 63} = \frac{1078}{150.71} = 7.15 \text{ cfs}$$

MICROFILMED
AUG 26 2002

Efficiency, pressure, and pumping level are all guesses. Still, theoretically the rate should exceed 2.06 cfs.

RE: Water Right Permit No. 13-07476

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 X Place(s) of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 327-5452.

Sincerely,

Sharla Curtis
Senior Water Resource Agent

Keen, Shelley

From: Wilson, Keith
Sent: Tuesday, June 18, 2002 12:03 PM
To: Walker, Kay; Keen, Shelley
Subject: Field Exam 13-07476

06-03-2002	(1400 hrs)	Hank (Henry) Povey called about proof/exam on 13-07476. I was out of town that week.
06-18-2002	(0920 hrs)	I called Mr. Povey. Kids answered the phone. I left message for him to call me.
	(0930 hrs)	Mr. Povey called. He stated that he had worked on the system without success. He was
not able		to increase the flow. Mr. Povey requested that the department use the original field
examination to		complete the licensing of permit 13-07476.

I believe that the original field examination is in the vault. I hope that this will suffice so that 13-07476 can be licensed.

RE: Request for re-examination of Permit 13-7476

Dear Mr. Povey:

I am responding to your request for a re-examination of Permit 13-7476. IDWR has already attempted two measurements of your diversion capacity. The first attempt, made in July of 1995, was aborted because your pump failed during the procedure. The second attempt, made in November of 1995, resulted in a measurement of 2.06 cfs, or 925 gpm. Your opportunity for a third examination is governed by the Beneficial Use Rules (IDAPA 37.03.02). Rule 50.01.e. provides for a re-examination if it is shown that the initial field examination was in error or if the permit holder pays an examination fee equal to the original examination fee. Because you did not provide information showing that IDWR's measurement of 2.06 cfs was clearly in error, IDWR will conduct a re-examination if you pay an examination fee of \$175.00. Please submit the fee by April 15, 2002. Be sure to include a note indicating what the fee is for. If the fee is not submitted by April 15, 2002, IDWR will assume you are not interested in a re-examination, and licensing of your permit will proceed based on the current field report.

If you have any questions, please call me at 208-327-7946, or email me at skeen@idwr.state.id.us.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

February 28, 2002

To Whom It May Concern:

I am writing in request for a re-examination of permit #13-07476 for the proof of beneficial use.

The first test was conducted in November of 1994. It was a cold, winter day. The pump started but failed to operate properly due to the weather conditions. I am certain that a re-examination of proof of benefit would be more accurate. The pumped failed to produce in the usual manner.

I would ask that you consider a re-evaluation of this permit. I would greatly appreciate your time and effort in my behalf. If you have any questions I can be reached at 208-747-3529 or 313-5771 or in writing. Thanks for your help.

Sincerely,

Henry Povey or Hank Povey

RE: Change of Ownership for Water Right 13-7476

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records. Also enclosed is a receipt for the \$25.00 filing fee.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

RE: Possible Request for Re-exam

Date: February 26, 2002

Mr. Hank Povey contacted me this morning to find out if he could request a re-exam of this permit. He stated that when the examiner was finally able to make a measurement of the water being diverted they had problems with the system and he felt the measurement was low.

I told Mr. Povey that he needed to make a written request to have a re-exam; will have to pay a re-exam fee at the same amount paid previously; and could not have made any major changes to system since our last exam or we would not even consider making adjustments to previous exam.

Mr. Povey stated he would send in the written request, along with an assignment of the permit from his brother to himself. He did say he would not submit the re-exam fee until we advised him that we would be able to conduct a re-exam.

E. NARRATIVE

ON 7/17/95 A BENEFICIAL USE FIELD EXAM WAS CONDUCTED WITH HANK POVEY ON PERMIT 13-07476, WHICH IS FOR IRRIGATION OF 188 ACRES. WATER FOR THIS PERMIT IS FROM A WELL WHICH IS SUPPLEMENTAL TO SURFACE WATER RIGHTS.

AT THE TIME OF THIS EXAM THE INITIAL SUBMERSIBLE PUMP FAILED DURING SYSTEM WATER MEASUREMENTS TESTING. SUBSEQUENTLY, A RE-EXAMINATION WAS SCHEDULED AND CONDUCTED ON 11/01/95 USING A POLYSONIC METER. THE IRRIGATION SYSTEM TESTED OUT AT 925.130E OGPM WHICH CONVERTS TO 2.06 CFS.

THIS IRRIGATION NORMALLY USES 3 WHEEL LINES, 1/4 MILE IN LENGTH, WITH 34 RAIN BIRDS PER LINE, HAVING 3/16" NOZZEL DIAMETERS. AT THE TIME OF THE INITIAL TEST ON 7/17/95 SYSTEM PRESSURE WAS 38 PSI.

WELL DRILLER'S REPORT

State law requires that this report be filed with the Director, Department of Water Resources
within 30 days after the completion or abandonment of the well.

1. WELL OWNER

Name BRAD POVEY 3765 N.W.S. Hwy
 Address CLIFTON, Idaho 83228
 Drilling Permit No. 13-93E-007
 Water Right Permit No. 13-07476

7. WATER LEVEL

Static water level 63 feet below land surface.
 Flowing? ☐ Yes ☒ No G.P.M. flow _____
 Artesian closed-in pressure _____ p.s.i.
 Controlled by: ☐ Valve ☐ Cap ☐ Plug
 Temperature 53 °F. Quality Good
 Describe artesian or temperature zones below.

2. NATURE OF WORK

☒ New well ☐ Deepened ☐ Replacement
☐ Well diameter increase ☐ Modification
☐ Abandoned (describe abandonment or modification procedures
 such as liners, screen, materials, plug depths, etc. in lithologic
 log, section 9.)

8. WELL TEST DATA

☒ Pump ☐ Bailer ☐ Air ☐ Other _____

Discharge G.P.M.	Pumping Level	Hours Pumped
<u>750</u>	<u>108</u>	<u>10</u>

3. PROPOSED USE

☐ Domestic ☒ Irrigation ☐ Monitor
☐ Industrial ☐ Stock ☐ Waste Disposal or Injection
☐ Other _____ (specify type)

4. METHOD DRILLED

☐ Rotary ☐ Air ☐ Auger ☐ Reverse rotary
☒ Cable ☐ Mud ☐ Other _____
 (backhoe, hydraulic, etc.)

5. WELL CONSTRUCTION

Casing schedule: ☒ Steel ☐ Concrete ☐ Other _____

Thickness	Diameter	From	To
<u>.375</u> inches	<u>16</u> inches	<u>0</u> feet	<u>237</u> feet
_____ inches	_____ inches	_____ feet	_____ feet
_____ inches	_____ inches	_____ feet	_____ feet

Was casing drive shoe used? ☒ Yes ☐ No
 Was a packer or seal used? ☐ Yes ☒ No
 Perforated? ☒ Yes ☐ No
 How perforated? ☐ Factory ☒ Knife ☐ Torch ☐ Gun
 Size of perforation? 1/2 inches by 6 inches

Number	From	To
<u>100</u> perforations	<u>213</u> feet	<u>233</u> feet
_____ perforations	_____ feet	_____ feet
_____ perforations	_____ feet	_____ feet

Well screen installed? ☐ Yes ☒ No
 Manufacturer _____ Type _____
 Top Packer or Headpipe _____
 Bottom of Tailpipe _____

Diameter _____ Slot size _____ Set from _____ feet to _____ feet
 Diameter _____ Slot size _____ Set from _____ feet to _____ feet
 Gravel packed? ☐ Yes ☒ No ☐ Size of gravel _____
 Placed from _____ feet to _____ feet

Surface seal depth 19 ft. Material used in seal: ☐ Cement grout
☒ Bentonite ☒ Pudding clay ☐ _____

Sealing procedure used: ☐ Slurry pit
☐ Temp. surface casing ☒ Overbore to seal depth

Method of joining casing: ☐ Threaded ☒ Welded
☐ Solvent Weld ☐ Cemented between strata

Describe access port 2 inch pipe welded in casing

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 13-07476

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order waiving the flow measurement port condition on the permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 13-07476

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

ACTION OF THE DEPARTMENT OF WATER RESOURCES

Permit is Approved

Date 19 March 1991

Approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.

This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.

Approval of this drilling permit does not authorize trespass on the land of another party.

This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

This drilling permit does not represent a right to divert and use the water of the State of Idaho.

If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 13-07476

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

MICROFILMED

MAR 14 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 13-07476

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in PRESTON CITIZEN on JANUARY 3 & 10, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
