Dear Mr. Checketts:

Re: Permit No. 13-7249

This office acknowledges receipt of the Statement of Beneficial Use postcard submitted for the above-referenced permit.

The next step is for a field examiner from our regional office to contact you to schedule an exam to prepare for licensing of the right. I understand that there is only a short period of time in the summer and fall when this examination can be done. However, there is a large backlog of exams to be done and the regional office may or may not get to it this year. If you wish to have it done sooner, please feel free to contact the office in Idaho Falls at 525-7161 to schedule it.

I will try to answer your other questions. First of all you ask what construction of diversion works you need for pasture water. Let me explain this condition of approval is placed on all water right permits with diversions less than 25 cfs. Since the development period for most permits is five years, this condition indicates to the permit holder that construction of the system must start almost immediately after as opposed to waiting to later in the construction period to develop the water right and still preserving the priority date. In your case, where the well has been drilled and supplies water to the cattle and pasture, you have met this condition.

You ask about the extension of time form enclosed in the notice letter. An Extension of Time initiates the procedure for a permit holder to request an additional period of time (construction period) to complete the project. Usually only one extension of time is granted, but that depends on the reasons for delay in completion of the proposed project. There is a \$15.00 filing fee to request an extension of time.

Dear Sirs;

I have a small well that only supplies water to 6 Beef Cows & Pasture, about 2 acres, only used in summer & early fall. Its to cold in the winter & the Pump would freeze. The Pump only Pumps about 5 gal. Per Min. of water when in use.

I don't understand what construction of diversion works, I need to do for Pasture water,

Is the extension of time just a time Permit to use the water? am I required to pay \$15.00 Per year for the use of the water & filing fee. I know I have filed for a water right Permit, Please check your records & go from there.

Dear Sir:

Enclosed please find a typed application for permit completed from information provided during our area visit to Preston. The application should be reviewed in its entirety to insure it is consistent with the intended use. Under item number 6-c, please indicate the diameter and depth of the well. Initial any changes that you make and sign the application at the bottom of the third page. The statutory filing fee for this application is \$20.00 and should accompany the application when it is submitted to our office for processing. Should you have any questions, please feel free to call me at this office.

Respectfully submitted,
