BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT
NO. 13-7233 IN THE NAME OF LYNN M. DAVIS

MEMORANDUM DECISION
AND ORDER

On April 24, 1978, Lynn M. Davis of Clifton, Idaho applied to the Department of Water Resources for a permit to appropriate 2.40 cubic feet per second of water from Loafer Creek, a tributary of Deep Creek, at a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, Twp. 14S, Rge. 38E B.M., Franklin County, for the irrigation of 120 acres of land.

Notice of this application was published in the Preston Citizen on May 4, and May 11, 1978, and subsequently, was protested by Howard Henderson, Carl A. Mortensen, Leonard Povey, Carl Sohn, and Ronald J. Lang on behalf of the Clifton Irrigation Company. Additional protests were later received from Karl D. Reeder, Jack J. Wood, and J. Myron Moyle.

On November 15, 1978, a conference was held in Preston, Idaho pursuant to Section 42-203 of the Idaho Code and the Rules of Practice and Procedure of the Department. The applicant was present and represented himself. Protestants Howard Henderson, Leonard Povey, and Carl Sohn represented the Clifton Irrigation Company. J. Myron Moyle appeared on behalf of the City of Clifton. Karl Reeder was present and represented himself.

The protestants expressed two main objections, that can be considered against the approval of this application.

First, The Clifton Irrigation Company has diverted water from Loafer Creek for the irrigation of land under their system. They are in the process of installing a gravity sprinkler system which will irrigate about 700 acres of land, a portion of which will be within the boundary of the City of Clifton. When this system is complete all of the flow of Loafer Creek will be required leaving an inadequate water supply for the applicant's proposed project, and increasing the possibility of his interfering with Clifton Irrigation Company's use of the water.

The second objection is that this permit will interfere with the gravity irrigation project proposed by the irrigation company to provide water for irrigation of lands within the City of Clifton, designed to reduce the demand on the city's existing domestic system. If the applicant's development limits the ability of the residents of Clifton to obtain water from the Clifton Irrigation Company, this application will be in conflict with the public interest of the residents of Clifton.

MICROFILMED

A third concern of the protestant is the increase in the cost of water distribution that would occur due to the difficulty in reaching the proposed point of diversion.

The applicant argued that there had traditionally been water in Loafer Creek in excess of that diverted by the irrigation company especially in the early part of the irrigation season. His application was made to obtain a right to use this water on 120 acres of pasture.

After considering all the information presented at the conference and reviewing the pertinent material in the Department's files, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, Analysis, and Order:

FINDINGS OF FACT

1) In the case of Utah Power and Light -vs- Last Chance Canal Company et. al. dated July 14, 1920, the protestant, Clifton Irrigation Company, was decreed the right to beneficial use of fourteen (14) cubic feet per second from Clifton Creek with a priority of May 1, 1869 for the irrigation of 707 acres and that right is identified by number 11-0081 in the records of the Department of Water Resources.

2) The point of diversion for the Clifton Irrigation Company, however, has for many years been on Loafer Creek at a point approximately two miles below that proposed by the applicant. The change in point of diversion was made by the Clifton Irrigation Company without filing a transfer with the Department of Water Resources, therefore, there are no water rights on Loafer Creek in the name of Clifton Irrigation Company indicated in the records of the Department.

3) Loafer Creek is not a tributary of Clifton Creek but both creeks are tributary to Deep Creek.

4) During the last four or five years about 450 acres of land to which water was decreed has been irrigated with water from alternate sources, Twin Lakes and groundwater. Therefore, less water has been diverted from Loafer Creek by Clifton Irrigation Company than that historically diverted.

5) There is water flowing past the existing diversion works of the company until June 1st in most years.

CONCLUSIONS OF LAW

1) Clifton Irrigation Company has a water right for the use of Loafer Creek either because they transferred the right decreed to them from Clifton Creek or because they have diverted and use for a beneficial purpose the water of Loafer Creek prior to May 20, 1971, the last day a water right could be initiated without obtaining a permit.

2) There is water available in Loafer Creek a sufficient amount of the time in excess of what has been normally diverted for irrigation by the Clifton Irrigation Company.

3) The proposed appropriation will not interfere with the use of water within the city for the land that has an earlier water right.

ANALYSIS

It is an established policy that available water should be put to a beneficial use. Therefore, the water from Loafer Creek that has not been diverted by the company for the last four or five years may be appropriated and beneficially used until the company resumes their use. There is no need to wait until the statutory five years forfeiture period elapses before water is available but water is available whenever it is not used by prior right holders.

The protestant is also concerned about the increased cost of water distribution that will occur because of the difficulty in reaching the new point of diversion. This is a matter outside the statutory authority of the Director; and, therefore, cannot be considered in his decision of this application for permit.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Application for Permit No. 13-7233 is APPROVED subject to the following conditions:

1) This permit is subject to all prior water rights.

2) A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.

3) Use of water under this permit is subject to control by the watermaster of State Water District No. 11, Bear River.

4) Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1984.

Dated this 15 day of May, 1979.

RE: PERMIT NO. 13-07233

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

PROOF DUE NOTICE

FEBRUARY 28, 1984

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 13-7233 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MAY 01, 1984. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Dep. of water resources
Gentlemen;

I was to let you know
when I had my irrigation system
completed on Crocker Creek in Clifton.

It was completed in October of
this year at a cost of about
\$15,000⁰⁰. We used 10" plastic pipe
reduced to 8" plastic pipe buried 3'
in the ground. I'll still have to
buy more sprinkler pipe to have
it just as I want it, but it
is ready for use.

WATER RIGHT DATA ENTRY LOG

[illegible]

INTER-DEPARTMENT MEMO — 1

FROM

DATE

TO

~~Norm~~ ^{Norm} ~~Glen~~ → BDF

SUBJECT

- ① Finding discuss water right in Clifton Cr. and use of Lower Cr. Conclusion does not discuss what Clifton Irrig. Co. water right is being recognized
- ② Is the proposed irrig. of 700 acres an expansion? — No. Has there been a forfeiture for land portion not used for more the 5 yrs? We don't have enough information to reach the conclusion. The applicant did not push the issue of forfeiture.
- ③ No discussion of concern about increased cost except in "Analysis" which is under conclusions. Attorneys recommended that only items that we should included in finding are the two statutory issues and that
- ④ If part of Clifton ~~Irrig.~~ Irrig. Co. right has been lost or if there is an expansion proposed is there a new filing?

Idaho 83228

Dear Mr. Davis:

Re: Permit No. 13-7233

Enclosed is a copy of your approved Application for Permit No. 13-7233 along with a copy of the Memorandum Decision and Order. We direct your attention to the conditions of approval as set forth in the order.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion prior to submitting proof of beneficial use of water. We have enclosed a letter describing the different types of measuring devices accepted by this office.

Even though you have been issued a water right permit for the use of Loafer Creek, there may not be water available for your project if the Clifton Irrigation Company demands its entire water right.

Any person who does not agree with the decision of the Department may request a rehearing before the Director within 20 days or may appeal directly to the district court within 60 days of the date the decision is mailed to you.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

RECORDED

June 5, 1979

Mr. Howard Henderson
Clifton Irrigation Company
Clifton, ID 83228

Dear Mr. Henderson:

Re: Application for Permit No. 13-7233

Enclosed is a copy of the Memorandum Decision and Order approving Application for Permit No. 13-7233 in the name of Lynn M. Davis.

We feel you should be concerned about two aspects of the irrigation company's water right. First, the change in the point of diversion and the source of water from that identified in the decree was made without a transfer being approved. This, of course, raises the question of whether the water you are now using is actually the water you are entitled to by the decree. Second, has your water right been lost through non-use, since for several years you have diverted water from another source, Twin Lakes? Are you now entitled to resume the use of the water decreed to you is probably a question that may have to be resolved by the courts.

Any person who does not agree with the decision of the Department may request a rehearing before the Director within 20 days or may appeal directly to the district court within 60 days of the date the decision is mailed to you.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

OF THE
STATE OF IDAHO

In the Matter of Protests Against Approval)
of Application for Permit No. 13-7233 in)
the Name of LYNN M. DAVIS)

NOTICE OF CONFERENCE
AND/OR HEARING

On April 24, 1978, Lynn M. Davis filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On May 4, 1978, the Department received protests against approval of said application from ^{Howard Henderson} Harold Anderson, President, Carl A. Mortensen, Leonard Povey, Carl Sohn and Ronald J. Long of Cliffton Irrigation Company Board. On May 18, 1978, the Department received a protest from Karl D. Reeder and on May 22, 1978 a protest was received from Jack J. Wood. On May 23, 1978, the Department received an additional protest from J. Myron Moyle.

The Department has set the matter of protest for conference and/or hearing for 2:00 p.m. on Wednesday, November 15, 1978 in the Conference Room of the Franklin County Courthouse, Preston, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 1st of November, 1978.

RONALD D. CARLSON
Supervisor, Eastern Region

Mr. Jay Moyle
50 W. Canyon Blvd.
Clifton, Idaho 83228

Dear Mr. Moyle:

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Very truly yours,

To: Mr. C. Stephen Allred, Director
Idaho Department of Water Resources
1515 Lincoln Road
Idaho Falls, Idaho 83401

Re: Application No. 137233
Dated 4-24-78
2.4 C.F.s of water (Loafer Creek)
by Lynn M. Davis, Clifton, Idaho

As a stock holder in Clifton Irrigation Company and as a councilman for the city of Clifton, I would like to enter a protest to the filing of Lynn M. Davis on Loafer Creek-Application 137233.

1. Water has been deeded water to Clifton Irrigation Company since 1869.
2. Plans have developed to pipe both Loafer and Clifton creeks into irrigation sprinkling system for stockholders who are residents of the City of Clifton.
3. In the past eight years, the water hookups to the Clifton City Culinary System have increased from 45 to 63. The increase has taxed our culinary system to its limit.
4. With the Clifton Irrigation Co. piping their water system and distributing the same throughout the city of Clifton, it would relieve the pressure from the culinary system as Clifton irrigation water can be used for lawns and gardens of many of these new residences.
5. Taking 2.4 C.F.s from Loafer Creek during our peak use months, May - September, would dry the creek up and would take days to get the creek wet enough to bring the water down for stockholder's use.
6. To let Lynn M. Davis cannibalize the water from Loafer Creek because it is adjacent to or runs through his property above Clifton Irrigation diversion points would open up the system to be cannibalized by other landowners who own property adjacent to the waters of Clifton Irrigation Co.

If Mr. Davis's application is not withdrawn and the filing progresses to a hearing, please notify me.

Thank you,

J. Myron Moyle
J. Myron Moyle

CLIFTON IDAHO 83278

CLIFTON, IDAHO

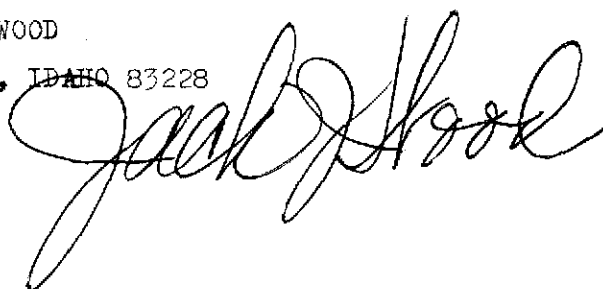

5-10-78

I WISH TO PROTEST MR. LYNN DAVIS FILING ON LOAFER CREEK WATER ON THE FOLLOWING GROUNDS.

- 1- THERE IS NOT ADEQUATE WATER AVAILABLE.
- 2- TAKING WATER OUT ABOVE CLIFTON IRRIGATION CO. POINT OF DIVERSION COULD CAUSE A GROUND WATER LOSS AFFECTING NUMEROUS WELLS IN THE AREA INCLUDING THE CLIFTON CITY CULINARY WELL.
- 3- I BELIEVE HE IS FILING SPECULATIVELY.

I HAVE ONE AND THREE QUARTERS SHARES IN CLIFTON IRRIGATION COMPANY WHICH COMPANY OWNS WATER IN QUESTION AND HAS HAD IT IN CONTINUOUS BENEFICIAL USE FOR MANY YEARS.

Dear Sirs:

This letter is to inform you that I protest Application No. 13-7233 on the grounds that the water therein described belongs to the Clifton Irrigation Company and because I own six shares of water in said company.

This company has owned the water for many, many years and it is much needed to supply the irrigation needs of the people of this city and surrounding area.

Thank you for your consideration of this matter.

Sincerely,

Karl D. Reeder

Mr. Ronald D. Carlson

We the duly elected officers of the Clifton Irrigation Co. do hereby register our protest to the application for permit Number 13-7233 filed by Mr. Lynn M. Davis of Clifton, Idaho.

We make this protest for the following reasons:

1. It is our understanding that the water rights to Loafer Creek have been decreed to Clifton Irrigation Co. in 1869.
2. These waters have been used by shareholders since about 1885.
3. Plans are now being made to put the waters of Clifton Irrigation Co. into pipe so that they can be used under gravity sprinkling throughout the entire irrigation season. We feel that this filing could adversely affect these plans.
4. There are other land owners with farms adjacent to irrigation co. streams. If each were granted similar permits, it could be very detrimental to the company and its shareholders.
5. Possible water storage sites are now being seriously considered.

Thank you for your consideration,
Clifton Irrigation Co. Board

Howard Henderson

RECEIVED

MAY 8 1978

Department of Water Resources
Eastern District Office

Dear Ron:

Reference: Permit No. 13-7232 for Maxine Wilker
Unnamed Springs - Tributary to Bear River

We have reviewed the application by Maxine Wilker to appropriate water from unnamed springs which are tributaries to Bear River in Sec. 4, T11S, R40E, and have the following comments.

The use of the spring which originates south of the oiled road and flows west into Bear River will not affect fish population in this area. This spring does not support a wild fish population because of its small size and the falls at its mouth preclude its use by spawning fish from Bear River.

The springs located midway between the oiled road into the north end of Wilker's property is also too small to afford a fish population and has falls at its mouth which preclude fish migration from Bear River; therefore, its use for fish propagation will not affect wild fish populations.

The use of the spring which originates on the Turner property and flows southwest through the Wilker property and then into Bear River would affect fish populations. It is used by spawning trout from Bear River and important for their perpetuation; therefore, we recommend this spring not be used for fish production.

Thank you for the opportunity to comment on this application.

Sincerely,

IDAHO DEPARTMENT OF FISH AND GAME
Joseph C. Greenley, Director

Preston Citizen
Box 472
Preston, ID 83263

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

RONALD D. CARLSON
Supervisor
Eastern Region
