Dear Sirs,

Your letter of March 31 at hand.

This is a request for an extension of time on my Water Permit No. 13-7204.

I have tapped the spring, and installed better than fifteen hundred feet of water pipe to the place it will be used.

The workmen I have engaged assure me the septic tank, the celler, and the cement footings and foundation will be complete within about a week.

The road to the mountain is no more than ready for heavy loads, and because of labor problems, and added expense I respectfully request an extension of about another six months to try to finish the project.

Yours very truly,

SUBJECT

In reviewing our records concerning the application for permit by Charles Izatt on North Burton Creek, we find one other condition of approval should definitely be that the permit is subject to regulation by the water master of Water Department 11, Bear River.

I do not recall the agreement reached by the protestant and applicant; however, it may be wise to include a letter from us to the applicant explaining the above condition of approval. Specifically, that the water master delivers available water starting with the earliest priority and filling progressively later priority rights until the water supply is exhausted. A 1977 right would, therefore, be one of the first to be shut off. Consequently, they may wish to develop a more reliable source of water for use during the irrigation season.

Charles C. Izatt, applicant in the above entitled proceeding, being first duly sworn, deposes and says:

That on August 30, 1977, he was working in the mountainous part of his ranch, and did not return to his home until the early afternoon of August 31, 1977. When he returned to his home, he found what was marked "Second Notice," from the Post Office, indicating that said post office was holding an item of certified mail for him.

Affiant immediately went to the post office, and there received an envelope, a photocopy of which is attached, containing a "Notice of Conference and/or Hearing", dated August 18, 1977.

Affiant, to the best of his knowledge, did not receive any prior notice from the post office, and therefore was not aware of the arrival of said Notice until after the time for the hearing therein set had passed.

Affiant therefore respectfully requests that his application be not dismissed, but that the same be re-set for hearing at a future date, convenient to the Department of Water Resources of the State of Idaho.

Further, affiant sayeth not.

The Department has set the matter of protest for conference and/or hearing for Wednesday, August 31, 1977, at 9:00 a.m., in the Legion Room of the Caribou County Courthouse, Soda Springs, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Dear Mr. Barthlome:

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If this office can be of further assistance, please contact us.
