IN THE MATTER OF APPLICATION FOR PERMIT NO.)

13-7151 IN THE NAME OF LYNN W. ATKINSON &/OR)

RAY I. STEADMAN &/OR WILMA VIEHWEG)

MEMORANDUM DECISION
AND ORDER

On February 28, 1977, Lynn W. Atkinson, Ray I. Steadman, and Wilma Viehweg of Clifton, Idaho, filed with the Department of Water Resources an application for permit to appropriate 0.29 cubic feet per second of water from Atkinson-Steadman Spring, to be diverted within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3, Twp. 15S, Rge. 38E, B.M., Franklin County, to be used for domestic purposes for four families and stockwater for 110 head of dairy cattle.

Notice of this application was published in the Preston Citizen on March 10 and March 17, 1977, and subsequently was protested by Utah Power and Light Company.

A conference in the matter was held in Preston, Idaho, on May 4, 1977.

The applicants were represented by J. D. Williams, Attorney at Law, and Utah Power and Light Company was represented by Thomas W. Forsgren, Attorney at Law. Arguments on behalf of both the applicants and protestant were heard. Based upon the information presented at this conference and other pertinent information contained in the Department's official files and based upon the Director's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. The applicants have applied to the Department of Water Resources for a permit to appropriate unappropriated water of the State of Idaho pursuant to Section 42-202, Idaho Code.

2. Water from Atkinson-Steadman Spring sinks and cannot be shown to be tributary to the Bear River.

CONCLUSIONS OF LAW

1. The water from Atkinson-Steadman Spring is not directly tributary to the Bear River, therefore, diversion of this water will not have an adverse effect on the water rights of Utah Power and Light Company.

2. The applicants are entitled to a permit from the Department of Water Resources.

Dear Ms. Viehweg and Gentlemen:

One of the conditions of approval of your water Permit No. 13-7151 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

NOTICE OF COMBINED CONFERENCE
AND/OR HEARING

Applications to appropriate the public waters of the State of Idaho were filed with the Department of Water Resources on February 28, 1977 by Clair D. Bosen, Lynn Davis and Lynn W. Atkinson et al; on March 9, 1977 by Carl J. Rasmussen; and on March 18, 1977, by Lorin Spencer Panter. These applications were subsequently protested by Utah Power and Light Company.

The Department has set the matter of protests for conference and/or hearing for Wednesday, May 4, 1977, at 9:00 a.m., in the Courtroom of the Franklin County Courthouse, Preston, Idaho. Because of the similarity of the issues involved, the Department has combined these hearings. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all costs incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dear Mr. Atkinson:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 13-7151. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Dear Mr. Forsgren:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

PROTEST OF

UTAH POWER & LIGHT COMPANY

APPLICATION NO. 13-7151. ;

COMES NOW the protestant UTAH POWER & LIGHT COMPANY (Utah Power) and protests the Application of Lynn W. Atkinson and/or Ray I. Steadman and/or Wilma Viehweg and alleges as follows:

1. Utah Power holds Water Rights decreed in the matter of Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et al, In Equity No. 203, July 14, 1920, and Utah Power & Light Company vs. Richmond Irrigation Company, et al, February 21, 1922, as well as other rights in the Bear River.

2. The Bear River below Stewart Dam is fully appropriated.

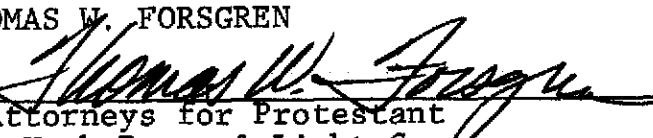

3. Lynn W. Atkinson and/or Ray I. Steadman and/or Wilma Viehweg filed an Application with the office of the Idaho Department of Water Resources numbered 13-7151 seeking to appropriate 0.29 cubic feet per second of water at points of diversion specified in said Application.

4. The granting of the Application of Lynn W. Atkinson and/or Ray I. Steadman and/or Wilma Viehweg for the appropriation of 0.29 cubic feet per second of water would adversely affect the aforementioned water rights of Utah Power & Light Company.

WHEREFORE, protestant prays that the Application of Lynn W. Atkinson and/or Ray I. Steadman and/or Wilma Viehweg be denied inasmuch as there is no unappropriated water in the proposed source and the proposed use will impair existing rights.
