DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit
proof of beneficial use on a water right permit

RECEIVED

OCT 25 1983

Department of Water Resources

Bob L. & Claudia B. Erickson of RFD #2 Preston
(Name) (Address)

State of Idaho, deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Water of
the State of Idaho No. 13-7141.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before
Dec 1, 1983, 1983.

That he has heretofore performed the following work described under said permit: The pond
(This must be filled out! If no work has been completed put none.)
To hold this water is approximately 60%
complete.

Costing \$ \$2000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit:

The weather has been so wet it has been
very difficult to work equipment in this Area. The
work is being done as fast as it gets dry enough
and weather conditions permit.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations
under said permit to Dec 1, 1984.
(1 yr. minimum, 5 yrs. maximum)

NOTE
AS OF JULY 1, 1980,
THERE IS A \$15.00
CHARGE FOR REQUESTS
FOR EXTENSION OF
TIME.

Bob L. Erickson
(Signature)*

*IF OTHER THAN HOLDER, Power of Attorney must be supplied.

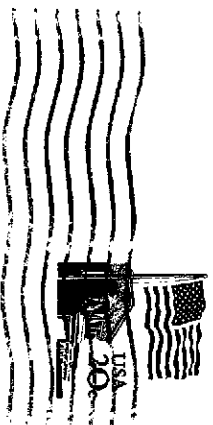

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above application for extension of time be APPROVED and the time within
which to submit the statement of beneficial use is extended to December 1, 1984.

Signed this 31st day of October, 19 83.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 13-7141, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 83.

c. Other: I. Use of water under this permit is subject to control by the water-

master of State Water District No. 13-N, Mink Creek.

II. A measuring device of a type approved by this Department shall be

permanently installed and maintained as part of the diverting works.

III. The rate of diversion under this permit, when combined with other

water rights for the same land, shall not exceed 0.02 cfs per acre.

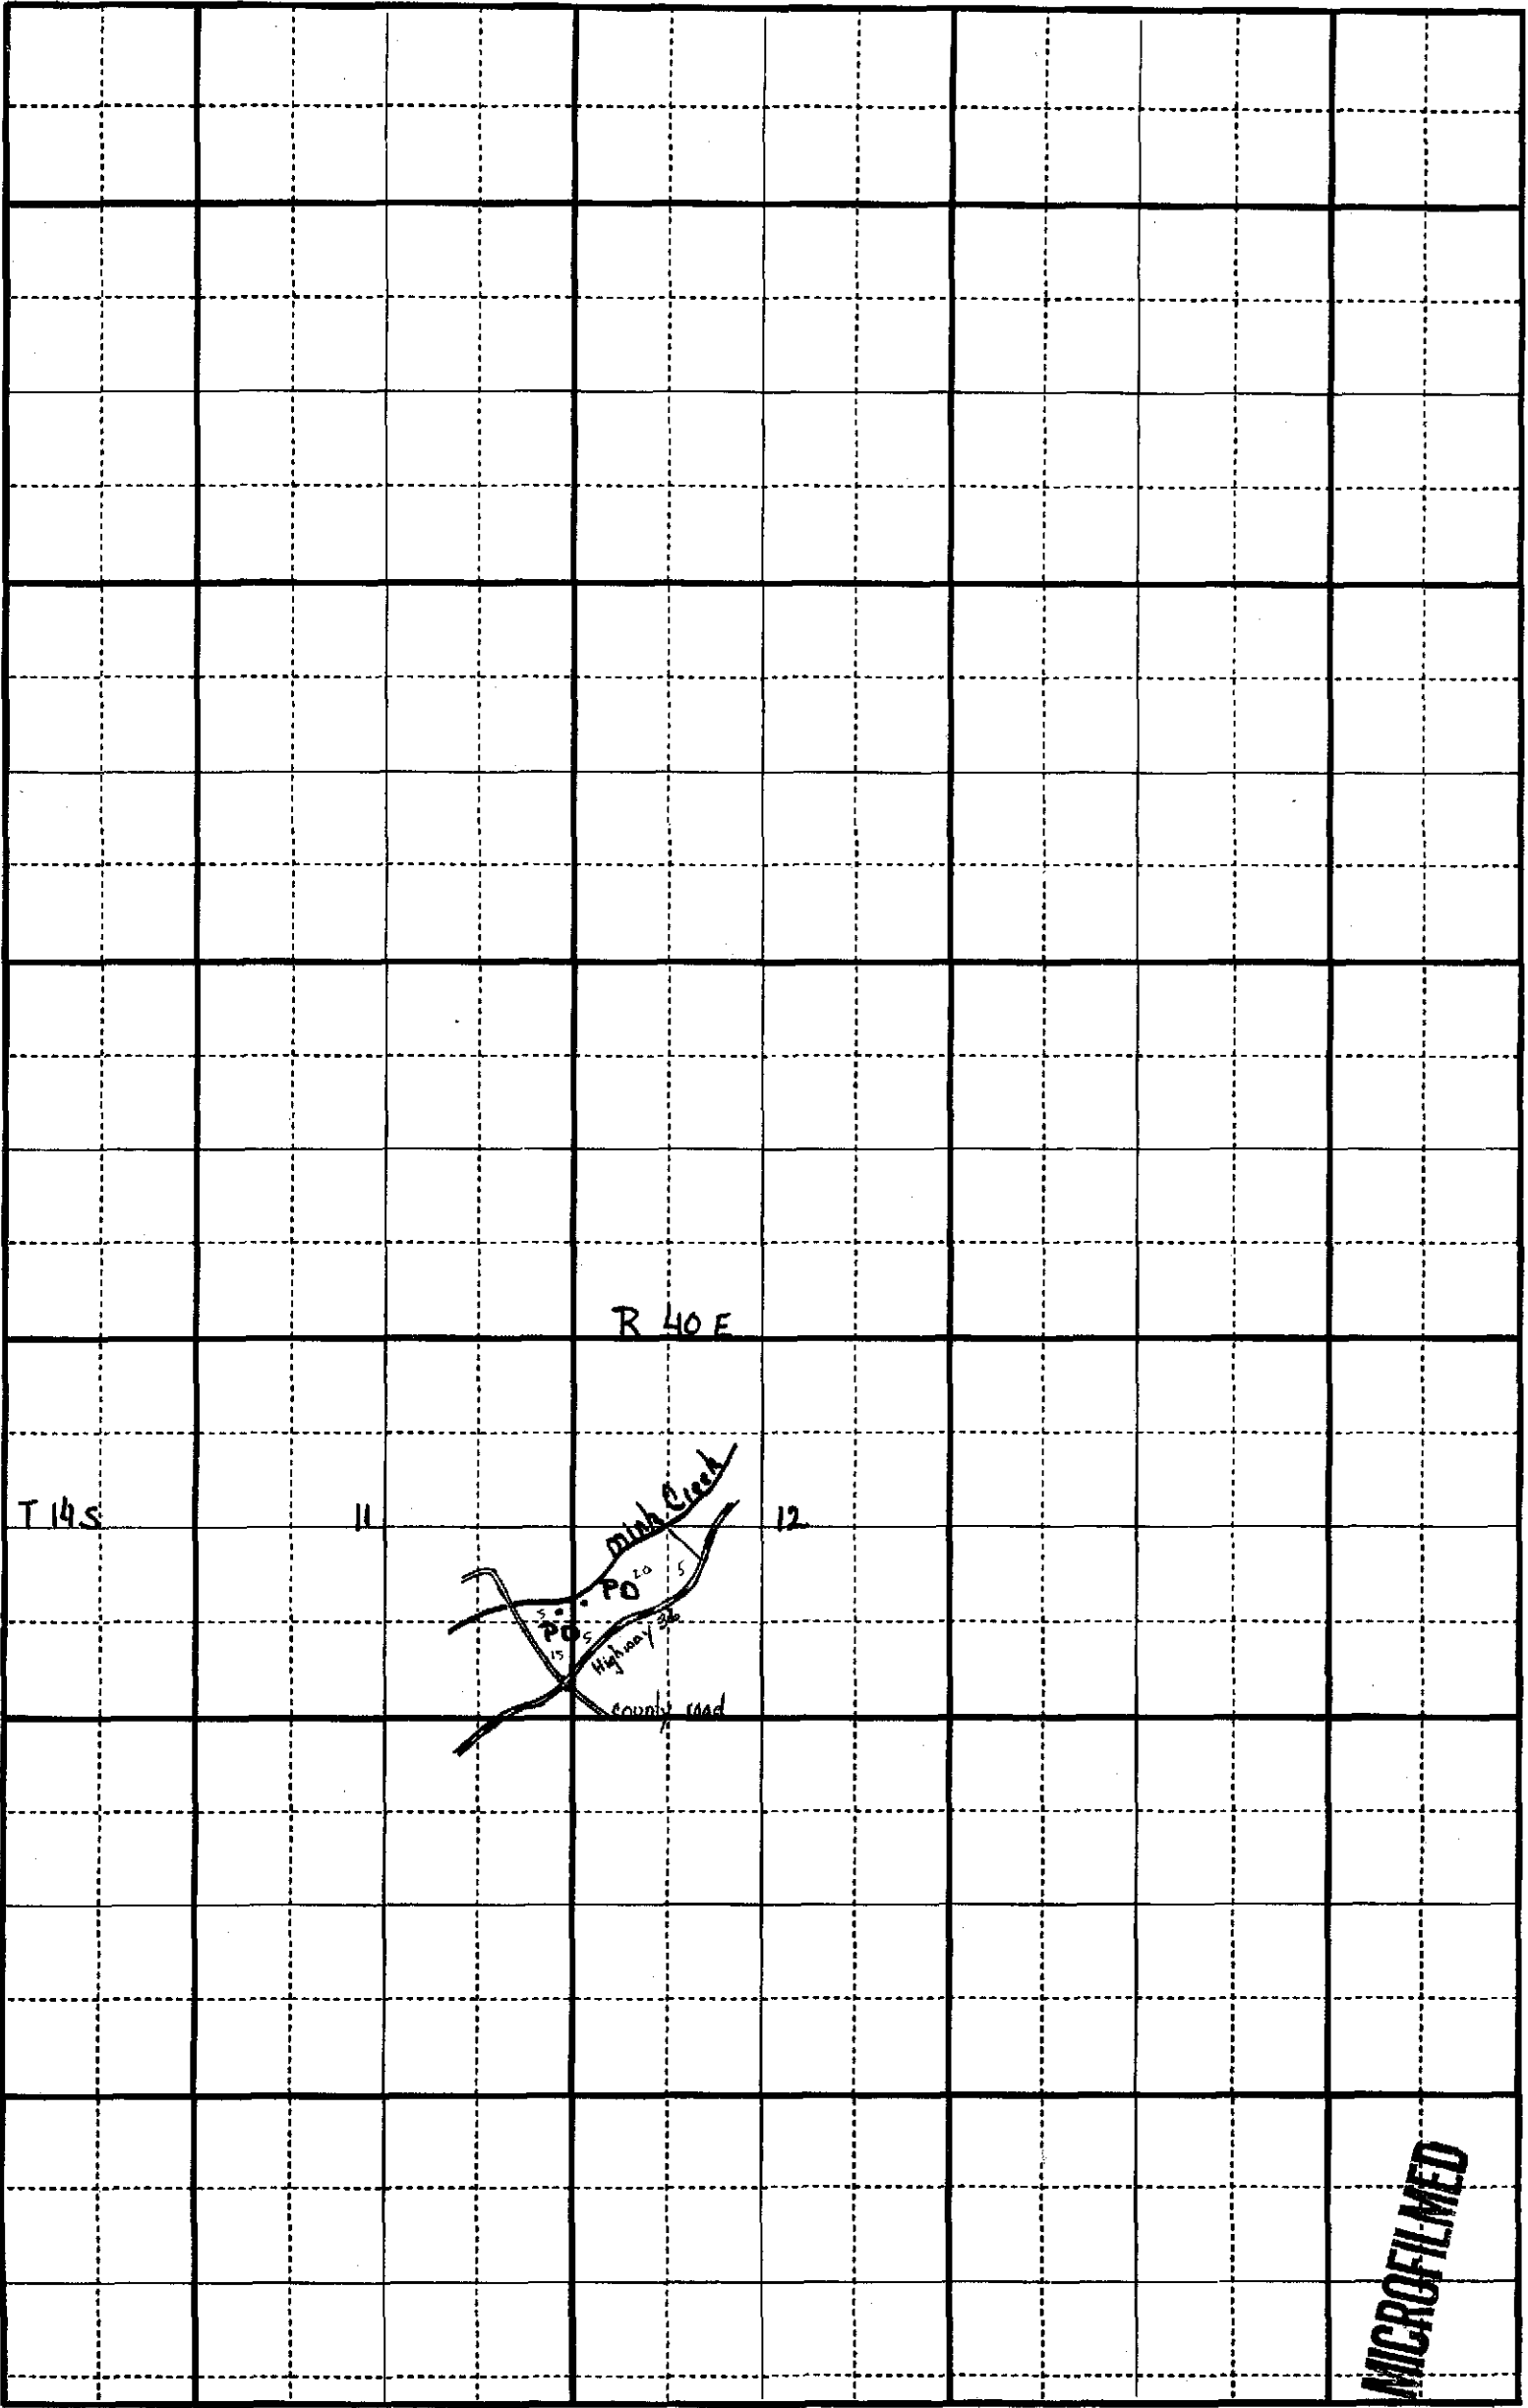

Witness my hand this 13th day of

December

19 78.

Dear Permit Holder:

On December 9, 1986 this Department sent you a certified letter explaining the recent statutory changes in the licensing procedure that will pertain to the above referenced permit. The new statutes provide the permit holder with a choice of who will perform the licensing field examination. You may either choose a certified water rights examiner from the private sector, or select the Department. If you elect to have the examination done by the Department there is now a fee for this service based on the amount of water being diverted.

The letter advised you had a period of 60 days to notify the Department of your decision. You were to notify the Department by returning the examination fee information form which accompanied the certified letter and the appropriate examination fee, provided you wanted the Department to do the examination. As indicated in the certified letter, failure to return the form and submit the examination fee, within 60 days would cause the priority of your permit to be advanced.

Our records indicate you did not respond within the 60 day period. Starting with February 9, 1987 the priority of your permit will be advanced one day for each day your response is late. Failure to submit a completed examination fee information form, with the examination fee, by February 9, 1988 will result in the permit being lapsed.

As always our staff is available to assist you or answer questions concerning the above matter. For your convenience, we have enclosed another examination fee information form.

Respectfully submitted,

Ernest Carlsen
Assistant Regional Manager

December 8, 1986

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

If your permitted use, in fact, has already been examined by the Department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the Department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

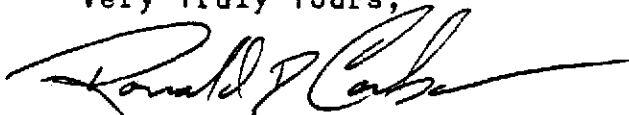

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following Department office:

Eastern Region

RE: Permit No. 13-7141

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of a measuring device which, according to the proof card submitted by you, has not been installed. A measuring device must be installed and operating at the time the field examination is made. If a measuring device is not installed your permit may be subject to cancellation.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161 or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

Sincerely,
s/HAROLD W. JONES
Sr. Resource Agent

Dear Mr. and Mrs. Erickson:

Re: Permit No. 13-7141

One of the conditions of approval of your water Permit No. 13-7141 was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1984. (See last page of your approved permit or your last approved extension request). Enclosed is a postcard which may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Sec. 42-204, Idaho Code. If you have been prevented from proceeding by a government agency or by litigation, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

SEPTEMBER 30, 1983

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 13-7141 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE DECEMBER 01, 1983. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Route #2
Preston, Idaho 83263

Dear Mr. and Mrs. Erickson:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion prior to submitting proof of beneficial use of water. We have enclosed a letter describing the different types of measuring devices accepted by this office.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

RE: Application No. 13-7141

In reviewing the findings of the pre-permit field exam conducted on June 22, 1978, it appears that the applicant has developed water not previously available for beneficial use. Because of this fact, I see no reason why the application cannot be approved, providing some type of measuring device be installed which would make the system suitable for regulation by the water master. In summary, I agree with those regulations and conditions of approval made by Ronald Carlson on January 3, 1977.

MEMO TO FILE

On June 22, 1978 a pre-permit examination was conducted for permit 13-7141. An investigation revealed that approximately 45 acres of tillable land adjacent to Mink Creek had been reclaimed from a boggy condition by the installation and burial of four interconnected four inch diameter perforated plastic drain pipes. The drain pipes, packed in washed gravel, presently discharge sub-water directly into Mink Creek at four separate and distinct points.

Upon approval of his permit the applicant proposes the installation of a plastic unperforated collection pipe south of and adjacent to Mink Creek in order to collect and convey subwater discharged from the four drain pipes. The subwater will flow down hill via the force of gravity through the collection pipe and into a proposed 10 AF pond. The pond will be equipped with an overflow pipe and excess water will be allowed to free flow back into Mink Creek. The subwater will then be diverted from the pond by an electric pump and motor for the irrigation of the applicant's reclaimed land. A pressurized sprinkler system has been proposed for this purpose.

During the examination, the applicant was informed that he must secure a S.C.A. permit as well as approval from the Army Corps of Engineers if he in anyway intends to alter the stream channel of Mink Creek. He assured me, at that time, that no such alteration was necessary and that his pond would be located a minimum distance of 50 feet from the mean high water line of Mink Creek.

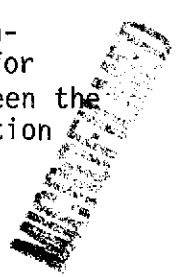

Before the installation of the drain pipe, boggy conditions rendered it difficult to measure the amount of water actually being discharged into Mink Creek. At the time the examination was conducted, the drains had already been installed and the lands reclaimed. An attempt was made to measure the cumulative discharge from the four drain pipes. However, at the time the exam was conducted, Mink Creek was conveying flood and freshet waters which served to completely submerge the drain outlets rendering the measurement of their discharge at least temporarily next to impossible.

Finally, construction of a spring fed domestic water system has already been completed. Water from an isolated spring is trapped in a concrete storage tank and is electrically pumped into a culinary pipeline network that conveys water to two single family domestic units and a dairy barn located in the vicinity.

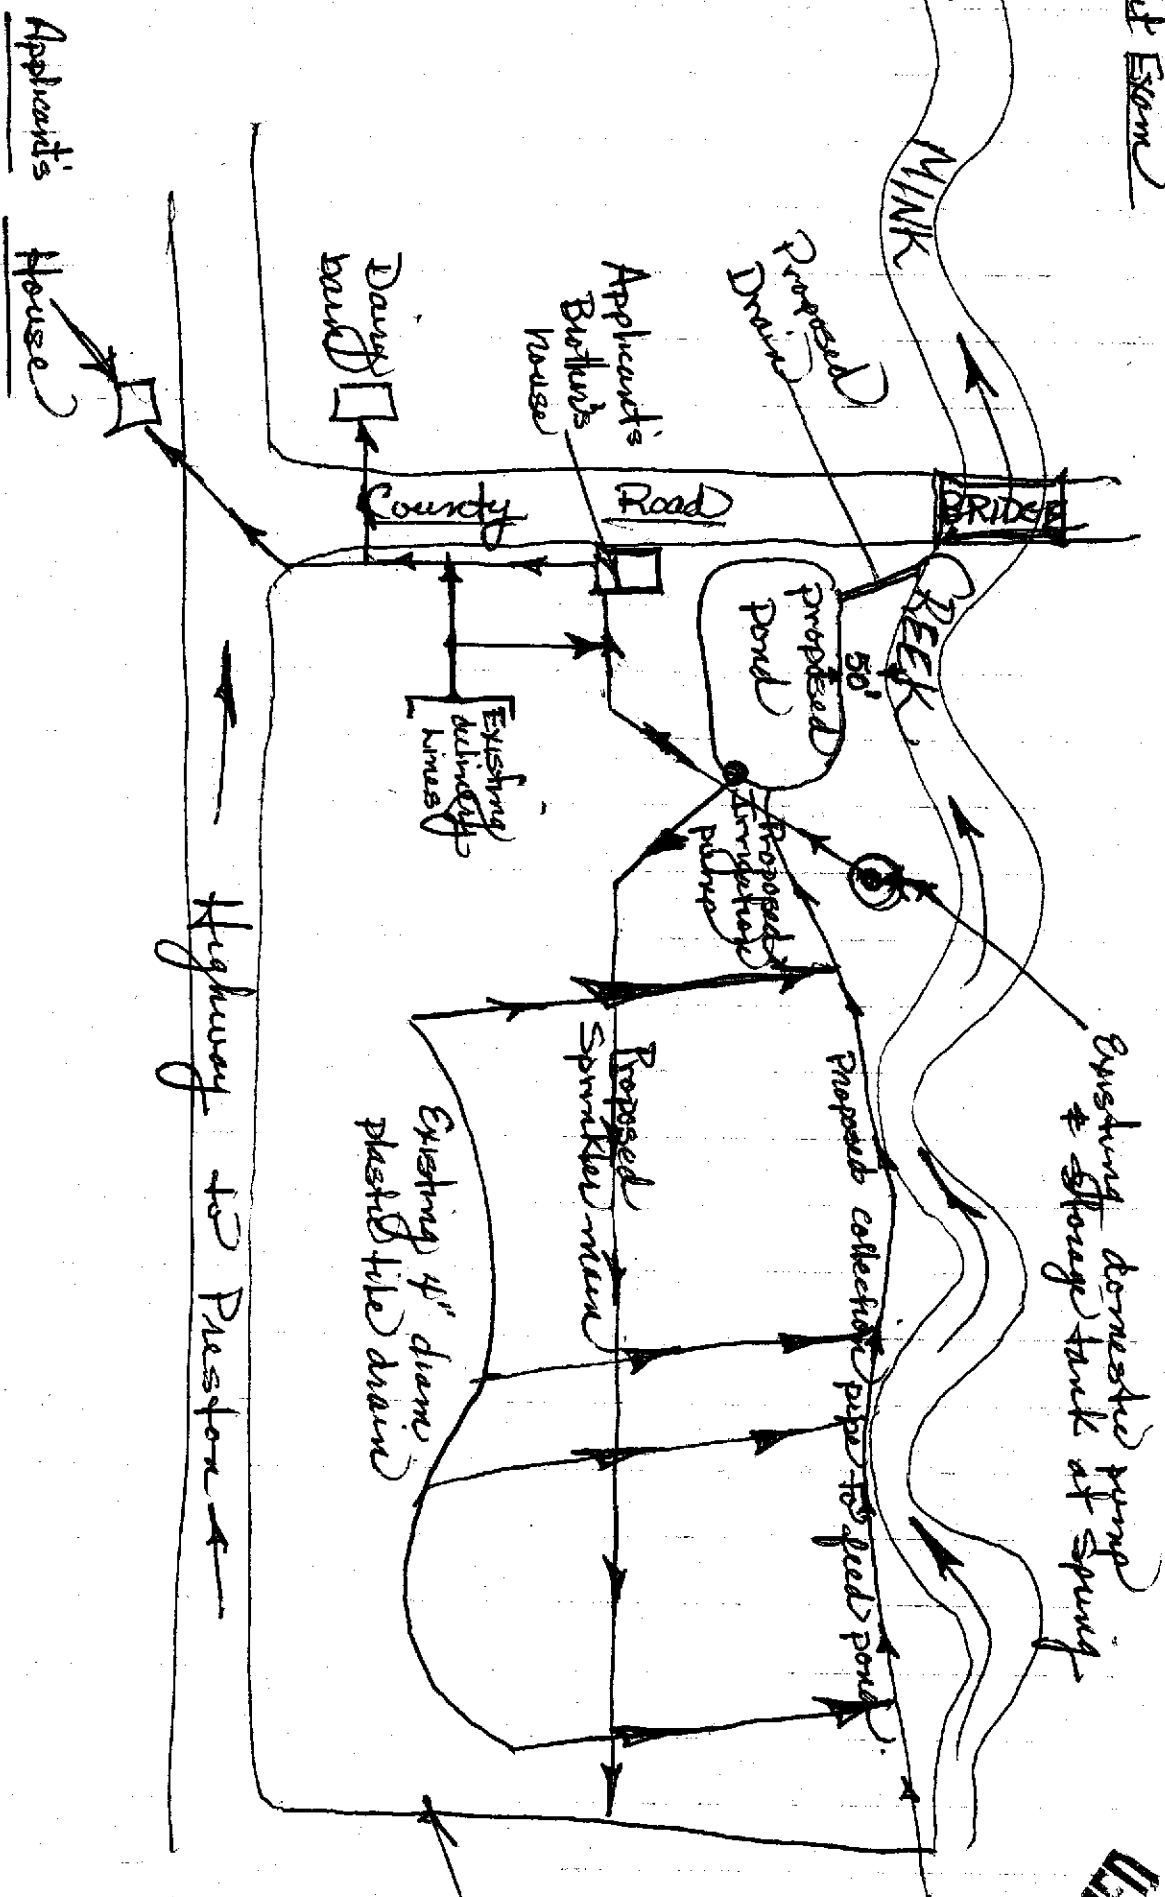

ANTHONY R. KOZLOWSKI
Water Resource Agent
Eastern Region

Anthony R. Kozlowski

Note: Although the applicant has verbally expressed an interest in maintaining a fish pond, he has not filed for appropriation of spring and for subwater for purposes of fish propagation. No discrepancy exists between the descriptions of the location of the points of diversion on the application and their actual locations determined in the field.

Idaho Falls, Idaho 83401

Re: Application for Permit #13-7141, Erickson

Dear Mr. Carlson:

This applicant proposes to divert .96 cubic feet of water per second and 10 acre feet for irrigation, recreation and domestic purposes.

In discussing this with the applicant, it appears no stream channel changes will be involved and if so, they probably would not be covered under the Stream Alteration Act.

If Mr. Erickson plans to make some stream channel changes, we would like to be informed and make recommendations regarding them. In addition, we will discuss the proposed recreational pond with him from the standpoint of its development as a private fish pond.

Sincerely,

IDAHO DEPARTMENT OF FISH AND GAME
Joseph C. Greenley, Director
