License of Water Right No. 13-7111 Priority May 12, 1975 Amount 0.08 cfs

THIS IS TO CERTIFY, that GRANT WILLIAMS, CHAIRMAN BOARD OF COMMISSIONERS OF GRACE CEMETERY DISTRICT

of Grace, Idaho, has complied with the terms and conditions of Permit No. 13-7111 issued pursuant to Application for Permit dated May 12, 1975, and has submitted proof to the Department of Water Resources on February 7, 1977, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 0.08 cfs of water from a groundwater source, tributary to _____, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>May 1</u> to <u>October 31</u>	at <u>0.08</u> cfs and	<u>12</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.08 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 12 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 10S, Rge. 40E, B.M. in the County of Caribou

SUBJECT RESPONSE TO LETTER OF 6-20-1979 FROM GRANT WILLIAMS

This morning I spoke by telephone with Grant Williams of Grace, Id. He indicated that the well described in permit 13-7111 had in fact gone dry in 1977 but is now pumping and delivering water per provisions of the permit. In light of the 7-1-1980 proof due date, the Department will make another inspection of the system and perhaps revoke the cancellation order.

I am returning the field report to Tony Kozlowski in Eastern Region, who will conduct the exam sometime in August, 1979.

Re: Cancellation of Permit No. 13-7111 in the name of Grace
Cemetery District.

I don't understand the cancellation of our permit, and protest
the action on the following grounds.

We have in our files a letter of acknowledgement of receipt of
affidavit as proof of beneficial use dated Feb. 16, 1977 and signed
by Janice Renk.

In the fall of 1978 I was contacted by Mr. Anthony Kozlowki of
the Idaho Falls office for an inspection. We were having a problem
with the system at that time and the inspection was not made. We
were to notify him when it could be inspected.

In April I received the notice to show cause by May 19, 1979,
why the permit should not be cancelled dated Apr. 19, 1979. I called
Mr. Kozlowski and a date for inspection was set. Mr. Kozlowski asked
if he needed to contact me when he came. I said, "Only if you need
me, the system will be running and the caretaker will be there." I
understood that would take care of it.

The caretaker saw a state vehicle in front of the cemetery and
assumed that it was the inspector, but he did not talk with the
driver. I was not contacted again by Mr. Kozlowski. We thought
the inspection had been made and the license would be issued.

Also the expiration date on the extension of permit No. 13-7111
in our file is July 1, 1980.

Because of the above we respectfully request a reconsideration
of the cancellation.

Dear Mr. Williams:

It appears to the Department of Water Resources that the terms and conditions of Permit 13-7111 to appropriate the public waters of the State of Idaho have not been complied with as to failure to beneficially use the water as proposed under said permit, and therefore, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Resources on or before May 19, 1979, why said permit should not be cancelled.

Permit 13-7111 claims the use of .094 cubic feet per second of water from a ground water source, the point of diversion was to be located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, Twp. 10S, Rge. 40E, B.M., and the permit was approved May 12, 1975.

Memo to File 13-7111

From: TONY KOZLOWSKI

On May 10, 1978 an attempt was made to complete a water right field examination for permit 13-7111. The irrigation system was shown & described by Oscar Egbert. (Grace Cemetery Caretaker). He explained that the irrigation well never proved to be an adequate producer of groundwater (dry hole), and that the cemetery rents its irrigation water from a nearby canal company. He further explained that although water from the well had never been ~~used~~ put to beneficial use, it was the intention of the ~~city~~ ^{board members} to effect the necessary repairs in order to use the water from this source.

I discussed the problem further with Grant Williams (board member). He indicated that the ~~city~~ ^{board members} were going to have the well redrilled and that the necessary work would be completed in two weeks.

On 6/30/78, six weeks later, I returned to the Grace cemetery while doing other exams in the area. There I encountered the caretaker (Oscar Egbert) and he revealed to me that the well had not been redrilled, and that the

cemetery was still renting its irrigation water from a local canal.

I recommend that this permit be cancelled. If the ~~city fathers~~ ^{board members} have the well ~~redrilled~~ ^{redrilled}, they should file application for permit and establish a new priority.

To date they have not put the water from the well to a beneficial use and should never have filed proof.

~~In the first place~~. I personally do not ~~feel~~ think the well will be redrilled as long as it is less expensive to irrigate the cemetery grounds with water rented from the canal.

Dear Mr. Williamsehm:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Idaho Falls.

Dear Mr. Higginson:

At this time we have not been able to apply the water described in permit no. 13-7111 to beneficial use. We, therefore, request an extension of time on this permit.

The reasons we have not been able to complete the project are: 1) a back order of some of the needed materials. By the time these materials were received the pump company making the installation was so involved in urgent irrigation work that they have kept putting off our job, but assuring us that they would complete it before our expiration date. Now it appears that they will not have it done. 2) Another factor has been the labor demands of the flood area making a shortage for the irrigation company doing our work.

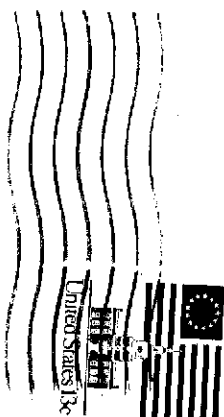

Thank you for your consideration.

Respectfully,

Grace Cemetery District

Gentlemen:

One of the conditions of approval of your water Permit No. 13-7111 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
